Increased Cost of Hedging means, in respect of Notes that have one or more Reference Rate(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, price risk, foreign exchange risk and interest rate risk) and perform its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of its Hedge Positions.

4.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to a Reference Rate (the **Affected Underlying**), the Calculation Agent may:

- A. either consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. determine an appropriate alternative rate to replace the Reference Rate for the purposes of the Notes and adjust any relevant terms of the Notes; but only in the case of Increased Cost of Hedging; or,
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging,
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE RATE LINKED NOTES

The provisions of these Additional Terms and Conditions for Foreign Exchange Rate Linked Notes apply if the applicable Final Terms specify that the clause "*Type of Structured Notes*" is stated as being "*Foreign Exchange Rate Linked Notes*".

1. DEFINITIONS

Averaging Date means the dates specified as such in the applicable Final Terms or, if any such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Closing Price means, in respect of a Foreign Exchange Rate, the fixing of such Foreign Exchange Rate published by the Price Source (or the Substitute Price Source if (a) the Price Source (or any page that may be substituted for it) is not available or (b) the fixing of such Foreign Exchange Rate is not available on the Price Source) at the Valuation Time on the relevant Valuation Date.

Substitute Price Source means the substitute published source, information vendor or provider as specified in the applicable Final Terms (if any) containing or reporting the rate or rates from which the Closing Price is calculated.

Disrupted Day means any Scheduled Trading Day on which a Disruption Event has occurred.

Disruption Events means, in respect of a Foreign Exchange Rate, the occurrence or existence of (a) a Price Source Disruption, (b) an Illiquidity Disruption, (c) a Dual Exchange Rate or (d) any other event that, in the opinion of the Calculation Agent, is analogous to (a), (b) or (c). For the purpose hereof:

- A. **Price Source Disruption** means that it becomes impossible to obtain the rate or rates from which the Closing Price is calculated.
- B. **Illiquidity Disruption** means the occurrence of any event in respect of any Foreign Exchange Rate whereby it becomes impossible for the Calculation Agent to obtain a firm quote for such currency in an amount deemed necessary by the Calculation Agent to hedge its obligations under the Notes (in one or more transaction(s)) on the relevant Averaging Date or any Valuation Date.
- C. **Dual Exchange Rate** means that the Foreign Exchange Rate splits into dual or multiple foreign exchange rates.

Foreign Exchange Rate means any exchange rate expressed as X/Y (X and Y are currencies) and specified as Underlying in the applicable Final Terms. For the avoidance of doubt, an exchange rate expressed as X/Y means the number of units (or part units) of Y for which one unit of X can be exchanged.

Hedge Positions means any purchase, sale, entry into or maintenance, by Société Générale or any of its affiliate, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Société Générale or any of its affiliates' obligation under the Notes.

Price Source means the published source, information vendor or provider as specified in the applicable Final Terms containing or reporting the rate or rates from which the Closing Price is calculated.

Scheduled Trading Day means a day on which commercial banks are open (or, but for the occurrence of a Disruption Event would have been open) for business (including dealings in foreign exchange in

accordance with the market practice of the foreign exchange market) in the principal financial centres of the Foreign Exchange Rate.

Valuation Date means each date specified as such in the applicable Final Terms or, if such day is not a Scheduled Trading Day, the immediately succeeding Scheduled Trading Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

In case more than one Foreign Exchange Rate need to be determined for a Note on a date specified as a Valuation Date in the applicable Final Terms and such date is a Scheduled Trading Day for one or more of these Foreign Exchange Rates and not a Scheduled Trading Day for one or more of the other Foreign Exchange Rates:

- (a) Such date shall be the Valuation Date for the Foreign Exchange Rates for which this date is a Scheduled Trading Day.
- (b) The Valuation Date for the Foreign Exchange Rates for which such date is not a Scheduled Trading Day shall be the immediately succeeding Scheduled Trading Day for each of these Foreign Exchange Rates unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

In case a Foreign Exchange Rate X/Y is described in the applicable Final Terms as the combination of two other Foreign Exchange Rates ($X/Y = X/Z \text{ multiplied by } Z/Y$, with X/Z and Z/Y the "Intermediate Foreign Exchange Rates") and a day specified as a Valuation Date in the applicable Final Terms is a Scheduled Trading Day for one of the Intermediate Foreign Exchange Rates and not for the other, the Valuation date for both Intermediate Foreign Exchange Rates (but only for the purpose of determining the Foreign Exchange Rate that is the combination of these two Intermediary Foreign Exchange Rates) shall be the first succeeding day that is a Scheduled Trading Day for both Intermediary Foreign Exchange Rates unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day, in which case the provisions of Condition 2 below shall apply.

Valuation Time means the time at which the Price Source publishes the relevant rate or rates from which the Closing Price is calculated, as specified in the applicable Final Terms.

2. CONSEQUENCES OF A DISRUPTION EVENT

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively), is a Disrupted Day for a Foreign Exchange Rate, the Calculation Agent shall:

- (a) determine to apply any of the following methods:
 - (x) determine that the Valuation Date or Averaging Date for such Foreign Exchange Rate shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of such Foreign Exchange Rate, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date or Scheduled Averaging Date is also a Disrupted Day. In that case, that eighth Scheduled Trading Day shall be deemed to be the Valuation Date or Averaging Date for the Foreign Exchange Rate notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine, its good faith estimate of the fixing of the Foreign Exchange Rate as of the Valuation Time on that eighth Scheduled Trading Day and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price;

Provided however that

if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Trading

Day that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Trading Day following the Scheduled Averaging Date a Scheduled Trading Day that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Trading Day shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Trading Day is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (x) above, and the good faith estimate of the fixing of the Foreign Exchange Rate so calculated shall be deemed the Closing Price; or

- (y) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- (z) apply the Monetisation until the Maturity Date (as defined below); and/or
- (b) postpone any payment date related to such Averaging Date or Valuation Date (including, if applicable, the Maturity Date) until the fourth Business Day following the date on which a Disruption Event is no longer subsisting. No interest or other amount shall be paid by the Issuer in respect of such postponement.

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" above shall be deemed to be references to the word "tenth".

3. MONETISATION UNTIL THE MATURITY DATE

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1, 3.2 and/or 3.3 below.

3.1 Monetisation of any Intermediate Amount

3.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation

Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "twelfth", and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "tenth".

Pursuant to the provisions of Condition 3, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "twelfth",
 - in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "tenth", and
- (ii) an amount equal to the Minimum Intermediate Amount.

4. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

4.1 Change in Law, Hedging Disruption, Increased Cost of Hedging

Change in Law means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that it has become illegal for Société Générale and/or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes.

Hedging Disruption means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract(s) it deems necessary to hedge the

market risk (or any relevant price risk including but not limited to the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Foreign Exchange Rate(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk relating to the market value of the securities and the performance of its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of its Hedge Positions.

4.2 Consequences

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to a Foreign Exchange Rate (the **Affected Underlying**), the Calculation Agent may:

- A. either consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. determine an appropriate alternative exchange rate to replace the Foreign Exchange Rate for the purposes of the Notes and adjust any relevant terms of the Notes; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging,
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the

Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero)².

- 2.1.1 *If a Valuation Date is not a Commodity Business Day with respect to a Commodity Reference Price, then the Valuation Date for such Commodity Reference Price shall be postponed to the next day which is a Commodity Business Day with respect to such Commodity Reference Price, subject to valuation deadline provisions in Condition 2.1.3 below.*
- 2.1.2 *If a Barrier Date is not a Common Commodity Business Day, then such Barrier Date shall be postponed to the next day which is a Common Commodity Business Day, subject to determination deadline provisions in Condition 2.1.3 below.*
- 2.1.3 *Notwithstanding the foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date, as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market value of the Commodity or Commodities for which that fourth Business Day is not a Commodity Business Day.*

2.2 Consequences of Market Disruption Events

2.2.1 ***If a Market Disruption Event occurs or is continuing with respect to a Commodity Reference Price on a Valuation Date, then the price of such Commodity with respect to such Valuation Date will be:***

- (a) the Commodity Reference Price for such Valuation Date published by the relevant Exchange on the next Commodity Business Day on which there is no Market Disruption Event (the **Determination Day**);
- (b) if the Commodity Reference Price is not determined as per paragraph (a) or is a Limit Price, the Commodity Reference Price published by the relevant Exchange for such Determination Day.

 - (ii) with respect to the Commodity or Commodities which are affected by a Market Disruption Event on the fifth Commodity Business Day, the fair market value of such Commodity or Commodities.

This Condition 2.2 shall not apply to a Barrier Date.***

2.3 Consequences of Extraordinary Events affecting the Commodities or Commodity Reference Prices

If, in the determination of the Calculation Agent:

- A. the relevant Commodity Reference Price disappears or permanently discontinues or otherwise becomes unavailable; or
- B. at any time following the first Valuation Date, a material change in the formula or the calculation method for the relevant Commodity Reference Price occurs; or
- C. at any time following the first Valuation Date, a material change in the content, the composition or the constitution of the relevant Commodity occurs,

then the Calculation Agent will be entitled to either:

- Y. determine in good faith the fair market value of the relevant Commodity for the relevant Valuation Date or Barrier Date; or
- Z. replace, to the extent possible, the affected Commodity Reference Price with a similar price.

If the Calculation Agent does not make a determination in accordance with Y above and if in the determination of the Calculation Agent, no price meets the criteria to be an appropriate replacement price in accordance with Z above, then the Calculation Agent will decide to either:

- a. apply the Monetisation until the Maturity Date; or
- b. consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes.

2.4 Consequences of adjustment events affecting the Commodity Reference Price

If a Commodity Reference Price made public on the relevant Price Source's page and utilised in any calculation or determination made under the Notes is subsequently corrected and the correction is made available to the public on the relevant Price Source's page after the original publication but no later than four Commodity Business Days or Index Business Days, as applicable, prior to the Maturity Date or any payment date(s) (as set out in the applicable Final Terms), the Calculation Agent will determine in its sole discretion whether adjustments to the terms of the Notes are necessary to account for such correction. Any adjustment resulting from such correction shall be made in the Calculation Agent's sole discretion.

3. PROVISIONS APPLICABLE TO INDICES ON COMMODITIES

3.1 Index Business Day Adjustment

- 3.1.1** *If a Valuation Date is not an Index Business Day with respect to a Commodity Index, then the Valuation Date for such Commodity Index shall be postponed to the next day which is an Index Business Day with respect to such Commodity Index, subject to valuation deadline provisions in Condition 3.1.3 below.*
- 3.1.2** *If a Barrier Date is not a Common Index Business Day, then such Barrier Date shall be postponed to the next day which is a Common Index Business Day, subject to determination deadline provisions in Condition 3.1.3 below.*
- 3.1.3** *The foregoing, a Valuation Date or a Barrier Date shall occur not later than the fourth Business Day prior to the date of any payment to be made on the basis of determinations made for such Valuation Date or Barrier Date; as the case may be. Such fourth Business Day shall be deemed to be the Valuation Date or Barrier Date, as relevant, and the Calculation Agent shall determine in good faith the fair market level of the Commodity Index or Commodity Indices for which that fourth Business Day is not an Index Business Day.*

3.2 Consequences of Index Disruption Events

- 3.2.1** *If a Valuation Date specified in the applicable Final Terms is subject to an Index Disruption Event for a Commodity Index and any Underlying Index, as applicable, the level of such Commodity Index or Underlying Index shall be determined by the Calculation Agent in good faith in accordance with the formula and calculation method for that Commodity Index and Underlying Index, as applicable, last in effect prior to the occurrence of the first Index Disruption Event (subject to determination deadline provisions in Condition 3.2.2 below), using:*
 - (a) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which no Relevant Futures Contract is affected by an Index Disruption Event, its settlement price as determined and made public by the relevant Exchange for the Valuation Date; and

- (b) with respect to each commodity comprised in the Commodity Index or any Underlying Index for which one or more Relevant Futures Contract is affected by an Index Disruption Event:
 - (i) the settlement price of Relevant Futures Contracts related to such commodity as determined by the relevant Exchange for the Valuation Date and made public on the Valuation Date or retrospectively on the next Commodity Business Day on which there is no Index Disruption Event with respect to such Relevant Futures Contracts;
 - (ii) if the settlement price is not determined as per (b)(i) above or is a Limit Price, the settlement price of all Relevant Futures Contracts related to such commodity published by the relevant Exchange for the next Commodity Business Day on which the Index Disruption Event ceases to exist with respect to all Relevant Futures Contracts;
 - (iii) the settlement price of such Relevant Futures Contracts shall be determined within the 5 Commodity Business Days from and including the relevant Valuation Date for the purposes of paragraph (b)(i) and (b)(ii) above;
 - (iv) if the settlement price of one or more Relevant Futures Contracts is not determined as per (b)(i) or (b)(ii) above, the fair market value of all Relevant Futures Contracts on that fifth Commodity Business Day.

3.2.2 Notwithstanding the foregoing, the date on which the value of a Commodity comprised in the Commodity Index and the level of Commodity Index are determined shall occur not later than the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such date.

3.3 Consequences of Extraordinary Events and adjustments to Indices

- A. If a Commodity Index is:
 - (a) not calculated and made public by the relevant Index Sponsor but is calculated and made public by a relevant successor sponsor (the **Successor Sponsor**) acceptable to the Calculation Agent, or
 - (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of that Commodity Index;

then the Commodity Index will be deemed to be the index so calculated and made public by the relevant Successor Sponsor or that successor index (as the case may be).
- B. If, on or prior to a Valuation Date, in the determination of the Calculation Agent, the relevant Index Sponsor (or if applicable the Successor Sponsor):
 - (a) makes a material change in the formula of a Commodity Index or in any other way materially modifies a Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in commodities comprised in the Commodity Index and capitalisation and other routine events), or
 - (b) fails to calculate and publish the level of the Index for a continuous period of at least four (4) Commodity Business Days before and including that Valuation Date, or
 - (c) permanently cancels a Commodity Index and no successor commodity index exists;

then the Calculation Agent will be entitled to either:
- Y. determine the level of that Commodity Index for the relevant Valuation Date or Barrier Date in accordance with the formula and calculation method for that Commodity Index

last in effect prior to that change, failure or cancellation. The Commodity Index so calculated will be used in lieu of the Closing Price made public by the Index Sponsor for the determination of an amount to be paid under the Notes or to determine whether a condition, if any, has occurred or not, or

- Z. replace the Commodity Index with a new index to the extent possible, representative of the similar type of commodities comprised in the Index and traded on one or more Exchanges.

If the Calculation Agent does not make a calculation in accordance with (Y) above and if, in the determination of the Calculation Agent, no index meets the criteria to be an appropriate replacement index in accordance with (Z) above, then the Calculation Agent will decide to either:

- a. apply the Monetisation until the Maturity Date; or
- b. consider such event as an event triggering an early redemption of the Notes. In that case, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the event giving rise to the relevant adjustment, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes.

3.4 Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.2.1, 3.2.2 and/or 3.2.3 below.

3.4.1 Monetisation of any Intermediate Amount

- 3.4.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.4, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depositary (**Verdipapirsentralen**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “tenth”.

For the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its affiliates as Intermediate Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its affiliates under its Intermediate Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

3.4.1.2 *in respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the **Minimum Intermediate Amount**)*

Pursuant to the provisions of Condition 3.4, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- Y. it has become illegal or contrary to any Applicable Regulation for Société Générale or any of its affiliates to (a) hold, acquire or dispose of any Hedge Position (as defined below) or (b) maintain the agreement entered into with the Issuer in relation to the Notes or the Underlying(s) of the Notes or to perform its obligations or exercise its rights thereunder; or

part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- Z. apply either (i) Monetisation until the Maturity Date, (ii) Postponement to the Adjusted Payment Date, or (iii) Substitution;

or, but only in the case of Increased Cost of Hedging:

- AA. deduct:
- (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging and that would be incurred by the Hypothetical Investor, in relation to the Intermediate Hypothetical Hedge Positions or Optional Hypothetical Hedge Positions or Hypothetical Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is or higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

Provided, however, that

If "Redemption at the option of the Noteholders" or "Redemption at the option of the Issuer" is specified as being applicable in the applicable Final Terms – EEA (or the applicable Final Terms – Switzerland specify information in respect of Final "Redemption at the option of the Noteholders" or "Redemption at the option of the Issuer") then:

- (i) upon the occurrence or likely occurrence of an Extraordinary Event, any Put Notice or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void; and
- (ii) upon the occurrence or likely occurrence of an Extraordinary Event, with respect to Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (W), (X), (Y) or (Z) above.

2.3 Disruption Events and consequences

2.3.1 Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a Disruption Event) in respect of a Valuation Date or an Averaging Date (the Disrupted Day) and a Fund or Fund Unit (the Affected Fund):

- A. **Calculation and/or Publication Disruption** means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the Fund Documents permitting the Fund to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official net asset value per Unit of the Fund by the Fund (or the Fund Service Provider generally in charge of calculating such official net asset value); or
- B. **Fund Settlement Disruption** means a failure by the Fund to pay in cash the full amount of the redemption proceeds on the date by which the Fund was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the transfer of all illiquid assets of such Fund to a dedicated fund, account or structure pending the liquidation of such assets for the benefit of existing holders of the Fund Units (side pocket), (b) the restriction on the amount or number of redemptions orders that the Fund (or the Fund Service Provider generally in charge of accepting redemption orders) will accept in relation to a single date on which the Fund normally accepts redemption orders (a gate), (c) the suspension for any reason of the subscription or redemption orders by the Fund (or the Fund Service Provider generally in charge of accepting subscription and redemption orders), or (d) the postponement of the payment of the balance of redemption proceeds to a date occurring after the financial statements of the Fund have been reviewed by the Fund's statutory auditors (holdback), in each case whether these events are imposed by the Fund without being envisaged in the Fund Documents on the Issue Date of the Notes or are already envisaged by the Fund Documents on the Issue Date of the Notes and are solely implemented by the Fund after such date; or

¹

Sub-paragraph Z. shall not apply in respect of Italian Listed Certificates to be listed on the Italian Stock Exchange (Borsa Italiana S.p.A.).

- C. **NAV Determination Disruption Event** means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*Fund Settlement Disruption*" in (B) above affecting such Fund which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date or the Averaging Date (the **Scheduled Valuation Date** and the **Scheduled Averaging Date** respectively) in respect of the Affected Fund shall be postponed to the immediately following Fund Business Day or Fund Valuation Day (as specified in relation to such Valuation Date or Averaging Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected Fund.

If a Disruption Event has occurred or is continuing on each of the five scheduled Fund Business Days or Fund Valuation Days, as the case may be, following the Scheduled Valuation Date or the Scheduled Averaging Date, or if no Fund Business Day or Fund Valuation Day, as the case may be, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date or the Scheduled Averaging Date, then the Calculation Agent may either:

- X. determine its good faith estimate of the net asset value per Unit of such Fund which shall be deemed to be the Closing Price in respect of such Valuation Date;
- Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- Z. apply either (i) Monetisation until the Maturity Date, (ii) Postponement to the Adjusted Payment Date, or (iii) Substitution.

Provided that,

- (a) if "*Redemption at the option of the Noteholders*" or "*Redemption at the option of the Issuer*" is specified as being applicable in the applicable Final Terms – EEA (or the applicable Final Terms – Switzerland specify information in respect of Final "*Redemption at the option of the Noteholders*" or "*Redemption at the option of the Issuer*") then:
 - (i) upon the occurrence or likely occurrence of a Disruption Event, the Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling after the date of such occurrence shall be null and void.
 - (ii) upon the occurrence or likely occurrence of a Disruption Event, with respect to Put Notices or the exercise by the Issuer of its right of optional redemption relating to an Optional Redemption Date with an Optional Redemption Cut-Off Date falling on or before the date of such occurrence, the Calculation Agent may proceed with the determinations and/or adjustments described in (X), (Y) or (Z) above:
- (b) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the earlier of (i) the fifth Fund Business Day or Fund Valuation Day, as the case may be, following the Scheduled Averaging Date and (ii) the thirty-fifth calendar day following the Scheduled Averaging Date, a Fund Business Day or Fund Valuation Day, as the case may be, that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that fifth Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, shall be deemed the Averaging Date (irrespective of whether that fifth

Fund Business Day or Fund Valuation Day, or that thirty-fifth calendar day, as the case may be, is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (X) above, and the good faith estimate of the net asset value per Unit of such Fund so calculated shall be deemed the Closing Price;

- (c) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or the Averaging Date and the Calculation Agent shall elect to make the determinations and/or adjustments described in either (X), (Y) or (Z) above on such fourth Business Day and, in case the Calculation Agent elects to make the determinations described in (X) above, the good faith estimate of the net asset value of the Fund so calculated shall be deemed the Closing Price.

For the purposes of this Condition 2.3:

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" above shall be deemed to be references to the word "tenth".

2.4 Consequences of Maturity Disruption Event

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event, then the Calculation Agent may either:

consider such Maturity Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or

apply Postponement to the Adjusted Maturity Date (as described in Condition 3.2.3).

3. MONETISATION UNTIL THE MATURITY DATE – POSTPONEMENT TO THE ADJUSTED PAYMENT DATE - SUBSTITUTION

3.1 Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1.1, 3.1.2 and/or 3.1.3 below.

3.1.1 **Monetisation of any Intermediate Amount**

3.1.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that a Hypothetical Investor would be left with on the Intermediate Full Liquidation Date, as a result of liquidating, (either within 30 Business Days following the date of occurrence or likely occurrence of the Extraordinary Event or pursuant to a Valid Order submitted in accordance with the Applicable Method specified in respect of the Valuation Date relating to the Intermediate Payment Date in case of a Disruption Event), the Intermediate Hypothetical Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hypothetical Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "twelfth",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" in (y) above shall be deemed to be references to the word "tenth";

For the avoidance of doubt, the liquidation proceeds of any assets held by a Hypothetical Investor as Intermediate Hypothetical Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by such Hypothetical Investor under its Intermediate Hypothetical Hedge Positions and the Calculation Amount mentioned above can be as low as zero; or

3.1.1.2 *in respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which cannot be in any case lower than an amount strictly positive (the Minimum Intermediate Amount)*

Pursuant to the provisions of Condition 3.1, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

1. CREDIT EVENT PROVISIONS

1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Physical Settlement":

1.1.1 Physical Settlement

- 1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next following paragraph and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below.

The Delivery of the Specified Deliverable Obligations (or the payment of the Cash Redemption Amount, as the case may be) is subject to the prior delivery by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

- 1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer has sole and absolute discretion to select the Specified Deliverable Obligations.
- 1.1.1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.
- 1.1.1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.
- 1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Issuer may, at its discretion but upon prior notice to the Noteholders, arrange:
 - (A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or
 - (B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Fiscal Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Cash Settlement

- 1.1.2.1 If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 1.1.2.2 The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.

The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.

- 1.1.2.4 If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) (and for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount);

1.4.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and

1.4.1.3 on redemption of part of each Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption.

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the Scheduled Last Credit Event Occurrence Date), will be redeemed on the Scheduled Maturity Date.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

1.4.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Partial Redemption Amount; and

1.4.1.5 for the avoidance of doubt the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

1.4.2 Basket Notes and Tranche Notes

(a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.2 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and

(b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

1.5 Multiple Successors

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being as "Applicable" the following provisions shall apply:

Where, pursuant to the definition of **Successor** (see Condition 2 of these Additional Terms and Conditions for Credit Linked Notes), more than one Successor has been identified, each such Successor (a **Multiple Successor**) shall be a Reference Entity for the purposes of the Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference Entity (the **Multiple Successor Notional Amount**) as determined by the Calculation Agent (for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount). Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of the Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity. The provisions of Condition 1.3 shall apply, *mutatis mutandis*, to determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.4 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to the Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Notes and the Issuer shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms – EEA or specified as "Applicable" in the applicable Final Terms – Switzerland, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if in the Final Terms – EEA "Multiple Successor(s)" is stated as being "Not Applicable" (or the Final Terms – Switzerland do not specify any information in respect of "Multiple Successor(s)") the following provisions shall apply:

Should more than one Successor succeed to the Reference Entity and a Credit Event occurs in respect of any one of them, the Notes will be redeemed in whole in accordance with the "Settlement Method" specified in the applicable Final Terms, as if the Type of Credit Linked Notes was specified as "First-to-Default Notes" in the applicable Final Terms.

For the avoidance of doubt, this Condition 1.5 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

1.6 Notification of Potential Failure to Pay

In the case of the occurrence of a Potential Failure to Pay, as determined by the Calculation Agent in its sole and absolute discretion, the Issuer, or any entity acting on its behalf, shall use its reasonable endeavours to notify the Noteholders as soon as reasonably practical of such occurrence, pursuant to Condition 13 of the General Terms and Conditions of the Notes.

1.7 Partial Redemption and Further Issues

Following any partial redemption of the Notes (pursuant to Condition 5 of the General Terms and Conditions of the Notes) or any further issue (pursuant Condition 14 of the General Terms and Conditions of the Notes), each of the following amounts will be multiplied by the ratio of (i) the number of Notes in circulation after such partial redemption or further issue divided by (ii) the number of Notes in circulation just before such partial redemption or further issue:

- (A) for Single Name Notes and First-to-Default Notes, the Aggregate Nominal Amount;
- (B) for Basket Notes which are not Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;
- (C) for Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount, (iii) the Aggregate Loss Amount, (iv) the Tranche Notional Amount and (v) the Tranche Subordination Amount.

For the avoidance of doubt, any other amount the calculation of which depends on the above amounts will be re-calculated accordingly.

1.8 Hedging Disruption, Increased Cost of Hedging, Change in Law, Merger of a Reference Entity and Société Générale or any of its Affiliates, Consequences and Monetisation until the Maturity Date

1.8.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Reference Entity(ies), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable,

after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind and/or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Societe Generale or any of its Affiliates in relation to the Notes; and/or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

Increased Cost of Hedging means, in respect of Notes that have one or more Reference Entity(ies), that Société Générale or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its Affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with the Issuer or any of its Affiliates of the Notes in relation to the Notes or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

1.8.2 Change in Law

Change in Law means in respect of Notes that have one or more Reference Entity(ies) that, on or after the first to occur of (a) the Issue Date and (b) the trade date of any Hedge Position (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its Affiliates to hold, acquire or dispose of Hedge Positions (as defined in Condition 1.8.5) or to maintain the agreement entered into with Société Générale or any of its Affiliates by the Issuer of the Notes.

1.8.3 Merger of a Reference Entity and Société Générale or any of its Affiliates

Merger of a Reference Entity and Société Générale or any of its Affiliates means, in respect of Single Name Notes or First-to-Default Notes or Basket Notes, that (i) Société Générale or any of its Affiliates consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Reference Entity or (ii) a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to Société Générale or any of its Affiliates, or (iii) Société Générale or any of its Affiliates and a Reference Entity become Affiliates.

1.8.4 Consequences

Upon the occurrence, as determined by the Calculation Agent in good faith, on or prior to the fourth Business Day (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the twelfth Business Day) before the Maturity Date of a Hedging Disruption, an Increased Cost of Hedging, Change in Law, or a Merger of a Reference Entity and Société Générale or any of its Affiliates, then the Calculation Agent may decide, to either:

- (A) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or

- (B) if the Hedging Disruption, Increased Cost of Hedging, Change in Law and/or Merger of a Reference Entity and Société Générale or any of its Affiliates is applicable to one or several affected Reference Entities (the **Affected Reference Entity(ies)**), replace the Affected Reference Entity(ies) by a new reference entity (or new reference entities, as relevant) which is (respectively are each) a Similar Reference Entity; or
- (C) apply the Monetisation until the Maturity Date;
or, but only in the case of Increased Cost of Hedging:
- (D) deduct:
 - (i) from the Interest Amount (if any) due under the Notes on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new, or any increase of, any tax, duty, expense or fee, that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its Affiliates in relation to the Hedge Positions hedging the payment obligations of the Issuer under the Notes, such amount to be apportioned *pro rata* amongst the outstanding Notes (the **Reduction Amount**); PROVIDED THAT if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of each Note is greater than the Interest Amount due under each Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount will be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount) will be deducted from the Interest Amount due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in whole or in part on the last Interest Payment Date under the Notes, the remaining Reduction Amount will be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount (or Cash Redemption Amount or Physical Delivery Amount, as the case may be), whichever comes first (the reduction of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount under the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any), due under the Notes on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount (or Cash Redemption Amount or Physical Delivery Amount, as the case may be) due on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Following the occurrence of a Hedging Disruption, an Increased Cost of Hedging, a Change in Law or a Merger of a Reference Entity and Société Générale or any of its Affiliates, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Noteholders pursuant to the provisions of Condition 13 of the General Terms and Conditions of the Notes of the relevant adjustment made or decision taken by the Calculation Agent. Details of any adjustment made or decision taken may be obtained by the Noteholders upon request at the Calculation Agent's specified address.

1.8.5 Monetisation until the Maturity Date

If the date on which Best Available Information becomes available or is filed precedes the legally effective date of the relevant Succession Event, any assumptions as to the allocation of obligations between or among entities contained in the Best Available Information will be deemed to have been fulfilled as of the legally effective date of the Succession Event, whether or not this is in fact the case.

Relevant Proportion means the proportion which one Note bears to the total number of Notes outstanding.

applicable Grace Period in respect of such payment date) and (ii) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium; provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Scheduled Maturity Date unless the Repudiation/Moratorium Extension Condition is satisfied. If (i) the Repudiation/Moratorium Extension Condition is satisfied and (ii) a Credit Event Determination Date in respect of that Repudiation/Moratorium does not occur on or prior to the final day of the Notice Delivery Period, the later of the Scheduled Maturity Date and the date falling four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Payment Business Days) after the Repudiation/Moratorium Evaluation Date will be the Maturity Date (even if a Repudiation/Moratorium occurs after the Scheduled Maturity Date).

In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or capable of being satisfied, if, or to the extent that, ISDA publicly announces, pursuant to a valid request that was delivered in accordance with the Rules and effectively received on or prior to the date that is fourteen calendar days after the Scheduled Maturity Date, that the relevant Credit Derivatives Determinations Committee has Resolved that either (i) an event does not constitute a Potential Repudiation/Moratorium with respect to an Obligation of the relevant Reference Entity or (ii) an event that constitutes a Potential Repudiation/Moratorium has occurred with respect to an Obligation of the relevant Reference Entity but that such event occurred after the Scheduled Last Credit Event Occurrence Date.

Repudiation/Moratorium Extension Notice means an irrevocable notice delivered by or on behalf of the Issuer to the Noteholders that describes a Potential Repudiation/Moratorium that occurred on or prior to the Scheduled Last Credit Event Occurrence Date. A Repudiation/Moratorium Extension Notice must contain a description in reasonable detail of the facts relevant to the determination that a Potential Repudiation/Moratorium has occurred and indicate the date of the occurrence. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective. Unless Notice of Publicly Available Information is specified as "*Not Applicable*" in the applicable Final Terms, if a Repudiation/Moratorium Extension Notice contains Publicly Available Information, such Repudiation/Moratorium Extension Notice will also be deemed to be a Notice of Publicly Available Information.

 - (1) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals;
 - (2) a reduction in the amount of principal or premium payable at maturity or at scheduled redemption dates;
 - (3) a postponement or other deferral of a date or dates for either (a) the payment or accrual of interest or (b) the payment of principal or premium;
 - (4) a change in the ranking in priority of payment of any Obligation, causing the Subordination of such Obligation to any other Obligation; or
 - (5) any change in the currency or composition of any payment of interest or principal to any currency which is not a Permitted Currency.

- (C) For the purposes of paragraphs (A) and (B) above and, unless Multiple Holder Obligation is specified as "*Not Applicable*" in the applicable Final Terms, paragraph (D) below and the definition of Multiple Holder Obligation, the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Qualifying Affiliate Guarantee or, if All Guarantees is specified as "*Applicable*" in the applicable Final Terms, as provider of any Qualifying Guarantee. In the case of a Qualifying Guarantee and an Underlying Obligation, references to the Reference Entity in paragraph (A) above shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in paragraph (B) above shall continue to refer to the Reference Entity.
- (D) Unless Multiple Holder Obligation is specified as "*Not Applicable*" in the applicable Final Terms, then, notwithstanding anything to the contrary in paragraphs (A), (B) and (C) above, the occurrence of, agreement to or announcement of any of the events described in paragraphs

(A)(1) to (A)(5) above shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

- (A) with respect to a Reference Entity that is not a Sovereign, an event such as a merger, consolidation, amalgamation, transfer of assets or liabilities, demerger, spin-off or other similar event in which one entity succeeds to the obligations of another entity, whether by operation of law or pursuant to any agreement; or
- (B) with respect to a Reference Entity that is a Sovereign, an event such as annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other event that results in any direct or indirect successor(s) to such Reference Entity.

Notwithstanding the foregoing, Succession Event shall not include an event (i) in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity,

unless such exchange occurs in connection with a merger, consolidation, amalgamation, transfer of assets or liabilities, demerger, spin-off or other similar event or (ii) with respect to which the legally effective date (or in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date.

Succession Event Backstop Date means the date that is 120 calendar days prior to the Issue Date of the relevant Notes.

Succession Event Information means an information about the occurrence of a Succession Event that occurred on or after the Succession Event Backstop Date with a description in reasonable detail of the facts relevant to the determination of (a) the Succession Event or the change of name of the Reference Entity that has occurred and (b) if relevant, the identity of any Successor(s) or, as applicable, the name of the Reference Entity. Such Succession Event Information may be requested at any time by the Noteholders at the specified office of the Calculation Agent, and will be notified as part of a notice of Potential Failure to Pay or a Repudiation/Moratorium Extension Notice or a Credit Event Notice (as the case may be) in respect of such a Successor by or on behalf of the Issuer to the Noteholders.

Successor means:

- (A) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any determined as set forth below:
- (1) If one entity directly or indirectly succeeds to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (2) If only one entity directly or indirectly succeeds to more than twenty-five per cent. (but less than seventy five per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.
 - (3) If more than one entity each directly or indirectly succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event, divided by the number of Successors.
 - (4) If one or more entities each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the terms of the Notes will be amended in accordance with the provisions set out in the definition of Multiple Successor in Condition 1.5 above. In the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of each Successor will be the Reference Entity

Weighting of the Reference Entity before the Succession Event, subject to adjustment of the Reference Entity Weighting, divided by the number of Successors.

- (5) If one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the terms of the Notes will not be changed in any way as a result of the Succession Event.
- (6) If one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such sole Successor will be the Reference Entity Weighting of the Reference Entity before the Succession Event.

PROVIDED THAT, in the case of Basket Notes and Tranche Notes, if the resulting Successor of a Reference Entity affected by a Succession Event, or as the case may be, one or more of the several resulting Successors of such Reference Entity is(are) another Reference Entity comprised in the Reference Portfolio at the legally effective date of the Succession Event, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4) or (A)(6) above and the Reference Entity Weighting of such Successor in effect prior to the Succession Event.

PROVIDED FURTHER THAT, in the case of Basket Notes and Tranche Notes, if two or more Reference Entities are affected by a Succession Event resulting in at least one common Successor, the Reference Entity Weighting of the Successor will be the sum of the Reference Entity Weighting of such Successor after the Succession Event as determined in accordance with paragraphs (A)(1), (A)(2), (A)(3), (A)(4) or (A)(6) above with respect to each Reference Entity in respect of which it is a Successor.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under paragraph (A)(6) above, as applicable. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (a) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the legally effective date of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (b) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under paragraph (A)(6) above, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such Relevant Obligation listed in the Best Available Information.

- (B) With respect to a Sovereign Reference Entity, Successor means each entity which becomes a direct or indirect successor to such Reference Entity by way of a Succession Event, irrespective of whether any such successor assumes any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the date of the occurrence of the relevant Succession Event), and with effect from the date of the occurrence of the Succession Event, each Sovereign and/or entity, if any, that qualifies under paragraph (B) above. PROVIDED THAT the Calculation Agent will not make such determination if at such time, either (a) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve in accordance with the Rules (y) whether an event that constitutes a Succession Event has occurred with respect to the relevant Reference Entity and (x) the date of the occurrence of such event (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) are satisfied or (b) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred.

PROVIDED THAT (for paragraphs (A) and (B) above), *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable" or in respect of First-to-Default Notes*, the Calculation Agent will adjust the effect of any Succession Event as necessary so that in all cases the number of Reference Entities in the Reference Portfolio will remain unchanged and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, so that the Reference Entity Weighting will remain the same for all Reference Entities comprised in the Reference Portfolio, in particular:

- (1) if the resulting Successor of a Reference Entity (the **Legacy Reference Entity**) affected by a Succession Event is another Reference Entity comprised in the Reference Portfolio (the **Surviving Reference Entity**) at the legally effective date of the Succession Event, the Calculation Agent acting in good faith and in its sole discretion shall select a new entity having an equivalent Rating (as defined below) or an equivalent credit risk (if no Rating is available) to the Legacy Reference Entity immediately prior to the occurrence of the Succession Event; such new entity shall be deemed to have replaced the Legacy Reference Entity as Reference Entity effective on and from the date of the Succession Event and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, the Reference Entity Weighting of the Surviving Reference Entity shall remain the Reference Entity Weighting of the Surviving Reference Entity in effect prior to the Succession Event and the Reference Entity Weighting of the entity having replaced the Legacy Reference Entity shall be equal to the Reference Entity Weighting of the Legacy Reference Entity prior to the Succession Event; and
- (2) if a Succession Event would result in more than one Successor (the **Potential Successors**) to a Reference Entity, the Calculation Agent shall select in its sole discretion only one entity (the **Chosen Successor**) among the Potential Successors to replace the Reference Entity; the Chosen Successor shall be deemed to have replaced the Reference Entity and *if the applicable Final Terms specify that the clause "N-to-M-to-Default" is stated as being "Applicable"*, its Reference Entity Weighting shall be equal to the Reference Entity Weighting of the Reference Entity prior to the Succession Event.

For the purposes of this definition **Rating** means the senior unsecured debt rating assigned by the three rating agencies Moody's Investor Service, Inc., Standard & Poor's Ratings Services, a division of Standard & Poor's Credit Market Service Europe Limited and Fitch Ratings or any

Transaction Type means, in respect of a Reference Entity, the transaction type specified in the applicable Final Terms.

- (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds.

If the [Deliverable]**[Selected]* Obligation Characteristic Transferable is specified as "*Applicable*" in the applicable Final Terms, such Final Terms shall be construed as though such [Deliverable]**[Selected]* Obligation Characteristic had been specified as a [Deliverable]**[Selected]* Obligation Characteristic only with respect to [Deliverable]**[Selected]* Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the specified [Deliverable]**[Selected]* Obligation Category).

Undeliverable Obligation(s) means that part of the Specified Deliverable Obligations for which Delivery is Illegal or Impossible.

PART B (2014 DEFINITIONS)

Capitalised terms used but not defined in Condition 1 of this "*Part B (2014 definitions)*" have the meanings given to them in Condition 2 of this "*Part B (2014 definitions)*", save to the extent it is completed in the applicable Final Terms.

"" means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Physical Settlement".*

*"***" means that the section so indicated will be deemed not to apply if the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Cash Settlement".*

1. CREDIT EVENT PROVISIONS

1.1 Physical Settlement

If the Notes are Single Name Notes or First-to-Default Notes and if the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Physical Settlement":

1.1.1 Physical Settlement

1.1.1.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, then (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will, in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note, Deliver or procure Delivery of the Physical Delivery Amount to the Noteholders during the Physical Settlement Period, subject to the next paragraph and the cash settlement provisions hereafter and (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below.

The Delivery of the Specified Deliverable Obligations (or the payment of the Cash Redemption Amount, as the case may be) is subject to the prior delivery by or on behalf of the Issuer to the relevant Clearing System for the Noteholders' information, of a Notice of Physical Settlement between the Credit Event Determination Date and the Latest Notification Date (both dates inclusive).

1.1.1.2 Following the occurrence of a Credit Event with respect to a Reference Entity, the Issuer has sole and absolute discretion to select the Specified Deliverable Obligations.

1.1.1.3 The Issuer will not necessarily Deliver all the Specified Deliverable Obligations on the same date and may Deliver Specified Deliverable Obligations to different Noteholders on different dates or to the same Noteholder on different dates.

1.1.1.4 The Issuer is not obliged to Deliver the same type and proportion of Deliverable Obligations to each Noteholder and a Noteholder may receive various types of Deliverable Obligations.

1.1.1.5 If any or all of the Specified Deliverable Obligations are not eligible for clearance by the relevant Clearing System, then the Issuer may, at its discretion but upon prior notice to the Noteholders, arrange:

- (A) Delivery of those Specified Deliverable Obligations (if any) that are eligible for clearance by the relevant Clearing System in the relevant Clearing System and Delivery of those Specified Deliverable Obligations that are not eligible for clearance by the relevant Clearing System outside the relevant Clearing System; or

- (B) Delivery of all the Specified Deliverable Obligations (whether or not those Specified Deliverable Obligations are eligible for clearance) outside the relevant Clearing System.

The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Fiscal Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.

1.1.2 Cash Settlement

- 1.1.2.1 If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash Redemption Date, pay or procure payment of a Cash Redemption Amount to the relevant Noteholders in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 1.1.2.2 The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.
- 1.1.2.3 If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.
- 1.1.2.4 If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.
- 1.1.2.5 If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Issuer may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.
- 1.1.2.6 The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.

1.2 Cash Settlement

If the applicable Final Terms specify that the clause "Settlement Method" is stated as being "Cash Settlement":

1.2.1 If a Credit Event has occurred, as determined by the Calculation Agent, in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date and if a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms, a Notice of Publicly Available Information, are delivered during the Notice Delivery Period by or on behalf of the Issuer to the Noteholders, then:

- (i) the Issuer will no longer be liable for the payment of the Final Redemption Amount on the Scheduled Maturity Date or on the Maturity Date, as the case may be, and will pay or procure payment of the Cash Redemption Amount on the Cash Redemption Date (subject as specified in Condition 1.2.2 below), in full and final satisfaction of its obligations hereunder in respect of the redemption of each Note; and
- (ii) the Interest Period(s) and/or the Interest Calculation Amount shall be as specified in Condition 1.3 below. The Selected Obligations, the Cash Redemption Amount and the Cash Redemption Date shall be notified to the Noteholders in the Final Valuation Notice on the Final Valuation Notice Receipt Date.

1.2.2 In the case of Basket Notes or Tranche Notes, unless Preliminary Cash Redemption is specified as "Not Applicable", if an Unsettled Credit Event has occurred, a Preliminary Cash Redemption Amount will be payable on the Scheduled Maturity Date and a Residual Cash Redemption Amount will be payable on the Maturity Date.

1.2.3 For the avoidance of doubt, under no circumstances will the Final Value be determined later than the 180th Business Day following the corresponding Credit Event Determination Date.

The last (or if there is only one, the only) Interest Period will end on (but exclude or, in respect of Uncertificated Swedish Notes, and include) the earlier of the Maturity Date and the Scheduled Maturity Date. The last Interest Payment Date will be the Maturity Date and the Interest Calculation Amount will be as specified in paragraphs (a) to (g) below:

- (a) *If the applicable Final Terms – EEA specify that the clause "Observed Interest" is stated as being "Not Applicable" (or the applicable Final Terms – Switzerland do not specify any information in respect of "Observed Interest") and if the clause "Accrual of Interest upon Credit Event" is stated as being "Accrued Interest upon Credit Event":*

The Interest Calculation Amount will be an amount, calculated on the fourth Business Day (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the twelfth Business Day) preceding the Interest Payment Date equal to (i) the sum, for each day of the Interest Period, of the Daily Interest Calculation Amount, divided by (ii) the number of days in the Interest Period.

- (d) *If the applicable Final Terms – EEA specify that the clause "Observed Interest" is stated as being "Not Applicable" (or the applicable Final Terms – Switzerland do not specify any information in respect of "Observed Interest") and if (i) the clause "Accrual of Interest upon Credit Event" is stated as being "No Accrued Interest upon Credit Event" and (ii) there is only one Interest Period:*

In respect of each Interest Period, the Interest Calculation Amount will be an amount equal to the Daily Interest Calculation Amount as of the relevant Interest Observation Date.

1.3.3 Common provisions to Single Name Notes, First-to-Default Notes, Basket Notes and Tranche Notes

For the avoidance of doubt, except in the case of a Guaranteed Coupon, if a Notice of Pending Credit Event is delivered to the Noteholders, payment of interest on the Notes, or, in the case of Basket Notes or Tranche Notes, on the portion of the Interest Calculation Amount relating to the relevant Reference Entity, will be deferred until:

- (A) if a Credit Event Notice is delivered in relation to the relevant event, the Maturity Date, or in the case of Basket Notes or Tranche Notes, the Scheduled Maturity Date or the Maturity Date, as the case may be; or
- (B) the date that is 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 18 Payment Business Days) following the publication of a DC No Credit Event Announcement; or
- (C) if no DC No Credit Event Announcement is published and no Credit Event Notice is delivered in relation to the relevant event, the date that is 100 Business Days + 10 Payment Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, 100 Business Days + 18 Payment Business Days) following the Credit Event Resolution Request Date (all as defined in Condition 2 below).

For the avoidance of doubt, (x) should a Credit Event Determination Date occur within an Interest Period but the relevant Credit Event Notice is delivered (i) less than four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Business Days) prior to the relevant Interest Payment Date and the Issuer's payment instructions have already been given in respect of interest payable with respect to such Interest Period, or (ii) during a subsequent Interest Period and the Issuer has paid an amount of interest prior to such delivery in excess of the amount due in accordance with the provisions of this Condition 1.3, then the Issuer may deduct the amount of overpaid interest from (i) the next interest amount(s) (if any) due under the Notes (only in respect of Basket Notes and Tranche Notes), and/or (ii) the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount (or Cash Redemption Amount or Physical Delivery Amount, as the case may be), whichever comes first (the result of such deduction being in each case floored at zero); and (y) if payment of interest is deferred following the delivery of a Notice of Pending Credit Event, no additional interest will be payable on the Suspended Amounts for the period of the deferral.

1.4 Credit Event Notice after Restructuring

Upon the occurrence of a Restructuring in the period from and including the First Credit Event Occurrence Date to and including the Last Credit Event Occurrence Date if M(M)R Restructuring is applicable:

1.4.1 Single Name Notes and First-to-Default Notes

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

- 1.4.1.1 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event

Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount) (and for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount);

- 1.4.1.2 for the avoidance of doubt (i) the Nominal Amount of each such Note not so redeemed in part shall remain outstanding and, if applicable, interest shall accrue on the Nominal Amount outstanding of such Note as provided in the applicable Final Terms (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate) and (ii) the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to such Nominal Amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity; and
- 1.4.1.3 on redemption of part of each Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such partial redemption.

For the avoidance of doubt, the outstanding Nominal Amount of each Note in respect of which no Credit Event Notice has been delivered during the Notice Delivery Period (and, if applicable, no Potential Repudiation/Moratorium or Potential Failure to Pay has occurred on or prior to the Scheduled Last Credit Event Occurrence Date), will be redeemed on the Scheduled Maturity Date.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

- 1.4.1.4 the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Redemption Amount**) that is less than the Nominal Amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Partial Redemption Amount; and
- 1.4.1.5 for the avoidance of doubt the provisions of Condition 1.1 or Condition 1.2 and of Condition 1.3 shall apply to the Nominal Amount of each Note outstanding after reduction by such Partial Redemption Amount in the event that subsequent Credit Event Notices are delivered in respect of a Reference Entity.

1.4.2 Basket Notes and Tranche Notes

- (a) The Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the **Partial Restructuring Notional Amount**) that is less than the Reference Entity Notional Amount of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice. In such circumstances the provisions of Condition 1.2 shall apply to the Partial Restructuring Notional Amount instead of the Reference Entity Notional Amount; and
- (b) For the avoidance of doubt, following such Restructuring, the provisions of these Additional Terms and Conditions for Credit Linked Notes shall apply in respect of the relevant Reference Entity with such Reference Entity's Reference Entity Weighting being reduced by the ratio of the Partial Restructuring Notional Amount divided by the Reference Portfolio Notional Amount. In the event of the occurrence of further Restructurings with respect to such Reference Entity, the relevant Reference Entity Notional Amount will be further reduced by the relevant Partial Restructuring Notional Amount.

1.5 Multiple Successors

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if "Multiple Successor(s)" is stated as being as "Applicable" the following provisions shall apply:

Where, pursuant to the definition of **Successor** (see Condition 2 of these Additional Terms and Conditions for Credit Linked Notes), more than one Successor has been identified, each such Successor (a **Multiple Successor**) shall be a Reference Entity for the purposes of the Conditions, but only in respect of a principal amount of each Note equal to the Nominal Amount divided by the number of Multiple Successors to such Reference Entity (the **Multiple Successor Notional Amount**) as determined by the Calculation Agent (for the avoidance of doubt, without prejudice to the effect of the Principal Credit Factor on the redemption amount). Where Multiple Successors to such Reference Entity (each, a **Sub-Multiple Successor**) have been identified in respect of a Reference Entity (an **Original Multiple Successor**) that is itself a Multiple Successor, each such Sub-Multiple Successor shall be a Reference Entity for the purposes of the Conditions, but the Multiple Successor Notional Amount in respect of a Sub-Multiple Successor shall be equal to the Multiple Successor Notional Amount in respect of such Original Multiple Successor divided by the number of Sub-Multiple Successors to such Original Multiple Successor. Following the delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information, in respect of a Multiple Successor, the Notes will not be redeemed in whole but an amount shall be deliverable or, as the case may be, payable in respect of each Note (an **Instalment Amount**) which amount shall be determined in the same manner, *mutatis mutandis*, as the Physical Delivery Amount or Cash Redemption Amount that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. The date of delivery or payment, as the case may be, of any such Instalment Amount (an **Instalment Date**) shall be determined in the same manner, *mutatis mutandis*, as the Physical Settlement Date or Cash Redemption Date that would otherwise have been determined in respect of such a Credit Event in relation to the original Reference Entity. The provisions of Condition 1.3 shall apply, *mutatis mutandis*, to determine the amount of interest that would otherwise have been determined following the occurrence of such a Credit Event in relation to the original Reference Entity, except that it shall be in respect of a principal amount of each Note equal to the relevant Multiple Successor Notional Amount only. More than one Instalment Amount may be delivered or payable on the same day in respect of different Multiple Successors, but not more than one Credit Event Notice may be delivered in relation to a single Multiple Successor unless a Restructuring occurs in relation to a Multiple Successor, in which case the provisions of Condition 1.4 will apply in respect of each such Multiple Successor. Upon the determination by the Calculation Agent of the identity of Multiple Successors, the Calculation Agent shall determine the modifications required to be made to the Conditions and any other related documents, to preserve substantially the economic effect for a Noteholder of a holding of the Notes and the Issuer shall use its reasonable endeavours to effect such modifications.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "American Settlement":

Following delivery or payment of an Instalment Amount in respect of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount so redeemed and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "*Not Applicable*" in the applicable Final Terms, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Settlement Type" is stated as being "European Settlement":

Following the occurrence of a Credit Event relating to a Multiple Successor, the outstanding Nominal Amount of each Note shall be correspondingly reduced by the proportion of such principal amount and, if applicable, interest on each Note shall accrue on the reduced Nominal Amount of each Note from the date on which it would otherwise have ceased to accrue following delivery of a Credit Event Notice and, unless specified as "Not Applicable" in the applicable Final Terms – EEA or specified as "Applicable" in the applicable Final Terms - Switzerland, a Notice of Publicly Available Information in relation to the original Reference Entity.

If the applicable Final Terms specify that the clause "Type of Credit Linked Notes" is stated as being "Single Name Notes" and if in the Final Terms – EEA "Multiple Successor(s)" is stated as being "Not Applicable" (or the Final Terms – Switzerland do not specify any information in respect of "Multiple Successor(s)") the following provisions shall apply:

Should more than one Successor succeed to the Reference Entity and a Credit Event occurs in respect of any one of them, the Notes will be redeemed in whole in accordance with the "Settlement Method" specified in the applicable Final Terms, as if the Type of Credit Linked Notes was specified as "First-to-Default Notes" in the applicable Final Terms.

For the avoidance of doubt, this Condition 1.5 will not apply to First-to-Default Notes, Basket Notes and Tranche Notes.

1.6 Notification of Potential Failure to Pay

In the case of the occurrence of a Potential Failure to Pay, as determined by the Calculation Agent in its sole and absolute discretion, the Issuer, or any entity acting on its behalf, shall use its reasonable endeavours to notify the Noteholders as soon as reasonably practical of such occurrence, pursuant to Condition 13 of the General Terms and Conditions of the Notes.

1.7 Partial Redemption and Further Issues

Following any partial redemption of the Notes (pursuant to Condition 5 of the General Terms and Conditions of the Notes) or any further issue (pursuant Condition 14 of the General Terms and Conditions of the Notes), each of the following amounts will be multiplied by the ratio of (i) the number of Notes in circulation after such partial redemption or further issue divided by (ii) the number of Notes in circulation just before such partial redemption or further issue:

- (A) for Single Name Notes and First-to-Default Notes, the Aggregate Nominal Amount;
- (B) for Basket Notes which are not Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;
- (C) for Tranche Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount, (iii) the Aggregate Loss Amount, (iv) the Tranche Notional Amount and (v) the Tranche Subordination Amount.

For the avoidance of doubt, any other amount the calculation of which depends on the above amounts will be re-calculated accordingly.

1.8 Hedging Disruption, Increased Cost of Hedging, Change in Law, Merger of a Reference Entity and Société Générale or any of its Affiliates, Consequences and Monetisation until the Maturity Date

1.8.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Reference Entity(ies), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable,

after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind and/or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Société Générale or any of its Affiliates in relation to the Notes; and/or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

Increased Cost of Hedging means, in respect of Notes that have one or more Reference Entity(ies), that Société Générale or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its Affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the credit price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with the Issuer or any of its Affiliates of the Notes in relation to the Notes or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

1.8.2 **Change in Law**

Change in Law means in respect of Notes that have one or more Reference Entity(ies) that, on or after the first to occur of (a) the Issue Date and (b) the trade date of any Hedge Position (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its Affiliates to hold, acquire or dispose of Hedge Positions (as defined in Condition 1.8.5) or to maintain the agreement entered into with Société Générale or any of its Affiliates by the Issuer of the Notes.

1.8.3 **Merger of a Reference Entity and Société Générale or any of its Affiliates**

Merger of a Reference Entity and Société Générale or any of its Affiliates means, in respect of Single Name Notes or First-to-Default Notes or Basket Notes, that (i) Société Générale or any of its Affiliates consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Reference Entity or (ii) a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to Société Générale or any of its Affiliates, or (iii) Société Générale or any of its Affiliates and a Reference Entity become Affiliates.

1.8.4 **Consequences**

Upon the occurrence, as determined by the Calculation Agent in good faith, on or prior to the fourth Business Day (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, the twelfth Business Day) before the Maturity Date of a Hedging Disruption, an Increased Cost of Hedging, Change in Law, or a Merger of a Reference Entity and Société Générale or any of its Affiliates, then the Calculation Agent may decide, to either:

- (A) consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or

- (B) if the Hedging Disruption, Increased Cost of Hedging, Change in Law and/or Merger of a Reference Entity and Société Générale or any of its Affiliates is applicable to one or several affected Reference Entities (the **Affected Reference Entity(ies)**), replace the Affected Reference Entity(ies) by a new reference entity (or new reference entities, as relevant) which is (respectively are each) a Similar Reference Entity; or
- (C) apply the Monetisation until the Maturity Date;
or, but only in the case of Increased Cost of Hedging:
- (D) deduct:

1.10 No Frustration

Such amendments may include, without limitation, varying any date or timing or procedures provided for in these Additional Terms and Conditions for Credit Linked Notes – Part B (2014 Definitions) and/or the applicable Final Terms. PROVIDED THAT, subject as set out in this Condition 1.12 below, such amendments may not include changes to the currency of the Notes, the amount of interest payable on the Notes, the Final Redemption Amount payable on the Notes or the Maturity Date of the Notes.

In the event that such amendments lead to a revised Reference Entity then a Credit Event may be triggered on such revised Reference Entity and the consequential provisions of these Additional Terms and Conditions for Credit Linked Notes – Part B (2014 definitions) will apply in the usual manner.

For purposes of assessing the applicability of Deliverable Obligation Characteristics and the requirements specified in the definition of Mod R and Mod Mod R to a Prior Deliverable Obligation or a Package Observable Bond, any such assessment shall be made by reference to the terms of the relevant Obligation in effect immediately prior to the Asset Package Credit Event.

If "*Subordinated European Insurance Terms*" is specified as "*Applicable*" in the applicable Final Terms, if a Deliverable Obligation would otherwise satisfy the Maximum Maturity Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in the relevant Deliverable Obligation shall not cause such Deliverable Obligation to fail to satisfy such Deliverable Obligation Characteristic.

Where a Specified Deliverable Obligation is denominated in a currency other than the Specified Currency of the Notes, the Calculation Agent will determine the Specified Currency equivalent of Outstanding Principal Balance or Due and Payable Amount, as the case may be, in respect of that Specified Deliverable Obligation for the purpose of calculating the Physical Delivery Amount determined by reference to the mid-point rate of conversion published by WM/Reuters at 4:00 pm (London time), or any successor rate source selected by the Calculation Agent on the date on which the Notice of Physical Settlement is effective (or, if the Notice of Physical Settlement is changed on or prior to the Physical Settlement Date, the date on which notice of the last such change is effective) or, if the cash settlement provisions apply, on the Credit Valuation Date, or on such other date as determined by the Calculation Agent as appropriate by reference to any Hedge Positions and, if such rate is not available at such time, the Calculation Agent shall determine the rate at such time and by reference to such sources as it deems appropriate.

If "*Financial Reference Entity Terms*" and "*Governmental Intervention*" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Deliverable Obligation Characteristic.

- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:

The Substitute Reference Obligation will replace the Non-Standard Reference Obligation on such date as determined by the Calculation Agent by reference to any Hedge Positions, which is expected to be as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above. Information about the occurrence of a Substitute Reference Obligation with a description in reasonable detail of the facts relevant to the determination of the Substitute Reference Obligation, including the identity thereof and the date of substitution, may be requested at any time by the Noteholders at the specified office of the Calculation Agent (subject to proof of ownership of such Notes in a form acceptable to the Calculation Agent).

For purposes of identification of a Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event.

If an event described in paragraph (i) or (ii) above has occurred on or prior to the Issue Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraph (i) or (ii), as the case may be, on the Issue Date.

If a Substitution Event occurs in respect of the Reference Obligation in Reference Obligation Only Notes and unless Substitution Event Early Redemption is specified as "*Not Applicable*" in the applicable Final Terms – EEA or not specified as "*Applicable*" in the applicable Final Terms – Switzerland, the Calculation Agent shall consider such event as an event triggering the early redemption of the Notes and the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes. - (6) If one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor) and, in the case of Basket Notes and Tranche Notes, the Reference Entity Weighting of such Successor(s) will be the Reference Entity Weighting of the Reference Entity before the succession, divided by the number of Successor(s).

Reference CDS Maturity means 5-year, unless otherwise specified in the applicable Final Terms.

Reference Entity means the entity specified as such in the applicable Final Terms or any Successor thereto in accordance with the provisions of "Part A (2009 definitions)" if specified as applicable in the applicable Final Terms or "Part B (2014 definitions)" if specified as applicable in the applicable Final Terms, subject always to the provisions of Section 3 (Adjustments and Extraordinary Events) below.

Reference Entity Spread means, in accordance with the Quotation Method, the rate, expressed as a quoted spread, for the Reference CDS, determined by the Calculation Agent initially in accordance with the Reference Entity Spread Method specified in the applicable Final Terms, subject to the Switch Option.

For the avoidance of doubt, if the Calculation Agent observes or receives a quotation expressed with an upfront amount (the **Upfront Quotation**), it will convert such Upfront Quotation into a quoted spread by using the function QCDS in Bloomberg or any other calculation as the Calculation Agent may deem appropriate in its sole and absolute discretion, but acting in good faith and in a commercially reasonable manner.

Reference Entity Spread Method means either Dealer Poll Method or External Provider Method as specified in the applicable Final Terms.

Scheduled Trading Day means, in respect of a CDS Spread, a Business Day for the purposes of these Additional Terms and Conditions for Credit Linked Notes.

Switch Option means, unless Switch Option is specified as "*Not Applicable*" in the applicable Final Terms, that (i) on any day where the applicable Reference Entity Spread Method is the Dealer Poll Method, the Issuer may, acting in its sole and absolute discretion but in a commercially reasonable manner, change the determination of the Reference Entity Spread to the External Provider Method, or (ii) on any day where the applicable Reference Entity Spread Method is the External Provider Method, the Issuer may, acting in its sole and absolute discretion but in a commercially reasonable manner, change the determination of the Reference Entity Spread to the Dealer Poll Method, subject in the case of both (i) and (ii) to giving to the Noteholders, in accordance with Condition 13 (*Notices*), not less than [5] Business Days nor more than [10] Business Days notice prior to the date of effect of the Switch Option specified in such notice, and the Switch Option shall take effect on the date of effect specified in such notice;

Valuation Date means, in respect of a CDS Spread, each date specified as such in the applicable Final Terms (or, if such date is not a Scheduled Trading Day for such CDS Spread, the next following Scheduled Trading Day).

2. ADJUSTMENTS AND EXTRAORDINARY EVENTS

2.1 Succession Event (Part A) / succession event (Part B)

If a Succession Event (if Part A applies) or a succession event (if Part B applies) occurs in respect of the Reference Entity, the Calculation Agent may – in addition to the provisions of the Additional Terms and Conditions for Credit Linked Notes (Part A or Part B, as applicable) and acting in good faith – decide to either:

- (A) replace the Reference Entity (i) by the Successor or (ii) in case of several Successors, by one, some or all (at the discretion of the Calculation Agent) of the Successors resulting from the Succession Event or succession event;
- (B) substitute the Successor or Successors by one or several Similar Reference Entity(ies) (as defined in Condition 1.8.5 of the Additional Terms and Conditions for Credit Linked Notes (Part A or Part B, as applicable));
- (C) apply Monetisation until Maturity Date as per Condition 1.8.5 of the Additional Terms and Conditions for Credit Linked Notes (Part A or Part B, as applicable); or
- (D) consider such Succession Event or succession event as an Early Redemption Event as defined in Condition 1.8.4 paragraph (A) of the Additional Terms and Conditions for Credit Linked Notes (Part A or Part B, as applicable), which will cause an early redemption of the Notes at an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes;

in any case, it being understood that, in case of (A) or (B) above:

- (a) such replacement or substitution shall affect only the provisions related to Reference Entity Spread; and
- (b) the Calculation Agent will (x) calculate the corresponding adjustment, if any, to be made to the elements relating to a credit default swap on the relevant Reference Entity used to determine the Reference Entity Spread and any settlement or payment terms under the Notes, and/or adjust any other terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and (y) determine the effective date of that adjustment.

2.2 External Provider Event

On any day where the applicable Reference Entity Spread Method is the External Provider Method, upon it becoming aware that the External Provider Spread is no longer available or it is illegal or impossible (as determined by the Calculation Agent) for the Calculation Agent to use the External Provider Method, the Issuer will change the determination of the Reference Entity Spread to the Dealer Poll Method with immediate effect, and give notice of the same to the Calculation Agent and, in accordance with Condition 13 (*Notices*), to the Noteholders as soon as reasonably practicable.

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The provisions of these Additional Terms and Conditions for Inflation Linked Notes apply if the applicable Final Terms specify that the clause "*Type of Structured Notes*" is stated as being "*Inflation Linked Notes*".

1. DEFINITIONS

Business Day means a "Business Day" as defined in Condition 3 of the General Terms and Conditions of the Notes, determined on the basis of the Specified Currency of the relevant Notes.

Calculation Agent has the meaning given to that expression in Condition 10 of the General Terms and Conditions of the Notes.

Closing Price means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Notes.

Fallback Bond means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.

Hedge Positions means any purchase, sale, entry into or maintenance, by Société Générale or any of its affiliate, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Société Générale or any of its affiliates' obligation under the Notes.

Index Sponsor means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.

Inflation Index means any inflation index specified as Underlying in the applicable Final Terms, subject to adjustment pursuant to the provisions of Condition 2.1 below.

Payment Date means any date on which a payment is due and payable pursuant to the terms of the Notes.

Reference Period means the time period for which the level of the Inflation Index was calculated and to which, as a result, such level of Inflation Index refers, regardless of when this level is published or announced. The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.

Substitute Index Level means an index level, determined by the Calculation Agent in accordance with Condition 2.1.1 below.

Successor Index has the meaning given to it in Condition 2.1.2 below.

2.1 ADJUSTMENTS AND EVENTS - CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

2.1 Adjustments and Events

2.1.1 Delay of Publication

- (a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will determine a **Substitute Index Level** (in place of such Closing Price) by using the following methodology:
 - (i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;
 - (ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

Where:

Base Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;

Latest Level means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and

Reference Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in "Latest Level" above.

- (b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to this paragraph (a) will be the definitive level for that Reference Period.

If the Calculation Agent determines a Substitute Index Level in accordance with this Condition 2.1.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with this Condition 2.1.1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" in (a) and (b) above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" in (a) and (b) above shall be deemed to be references to the word "ten".

2.1.2 Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a **Successor Index**) (in lieu of any previously applicable Inflation Index) for the purposes of the Notes as follows:

- (i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below;
- (ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;
- (iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;
- (iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index";

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fifth" above shall be deemed to be references to the word "twelfth",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fifth" above shall be deemed to be references to the word "tenth".
- (v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall consider such event as an event triggering an early redemption of the Notes. In that case, the Calculation Agent shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of such event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes.

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Notes.

If a Successor Index is determined in accordance with this Condition 2.1.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems necessary.

2.1.3 *Rebasing of the Inflation Index*

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

2.1.4 *Material Modification Prior to Payment Date*

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" above shall be deemed to be references to the word "ten".

2.1.5 *Manifest Error in Publication*

If, within the earlier of (i) 30 days of publication, and (ii) the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent determines that the Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent may make any adjustment to any amount payable under the Notes and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction.

Provided however that,

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "five" above shall be deemed to be references to the word "twelve",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "five" above shall be deemed to be references to the word "ten".

3. MONETISATION UNTIL THE MATURITY DATE

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.1, 3.2 and/or 3.3 above.

3.1 Monetisation of any Intermediate Amount

3.1.1 *In respect of the payment of any Intermediate Amount as defined in the applicable Final Terms which could be as low as zero*

Pursuant to the provisions of Condition 3, the Issuer shall pay on the Maturity Date an amount per Note, determined by the Calculation Agent, based on (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”, and

Pursuant to the provisions of Condition 3, the Issuer shall pay (1) on the Intermediate Payment Date an amount per Note equal to the Minimum Intermediate Amount and (2) on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the positive difference, if any, between:

- (i) (a) the net positive cash amount that Société Générale or any of its affiliates would be left with on the Intermediate Full Liquidation Date, as a result of liquidating the Intermediate Hedge Positions (*inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hedge Positions, if any, with the liquidation proceeds of the assets of the Intermediate Hedge Positions) minus (b) the Associated Costs (the result of which, converted if

necessary into the Specified Currency using the Relevant Spot Exchange Rate on the Intermediate Full Liquidation Date is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Intermediate Full Liquidation Date (included) and (y) the fourth Business Day preceding the Maturity Date (excluded),

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word “fourth” in (y) above shall be deemed to be references to the word “twelfth”,

4. CHANGE IN LAW, HEDGING DISRUPTION, INCREASED COST OF HEDGING - CONSEQUENCES

4.1.1 *Change in Law, Hedging Disruption, Increased Cost of Hedging*

Change in Law means that, for Notes with one or more Inflation Indices as underlying on or after the Issue Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any law or regulation in respect of tax, solvency or capital requirements), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines, acting in good faith, that it has become illegal for Société Générale or any of its affiliates to hold, acquire or dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes.

Hedging Disruption means in respect of Notes that have one or more Inflation Index(ices) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (or any other relevant price risk, including but not limited to the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale and/or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Inflation Index(ices) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk and execute its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes, or (b) freely realise, recover or remit the proceeds of the proceeds of its Hedge Positions.

4.1.2 *Consequences*

In case of the occurrence of a Change in Law, a Hedging Disruption or an Increased Cost of Hedging relating to an Inflation Index (the **Affected Underlying**), the Calculation Agent may:

- A. either consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. replace the Affected Underlying by an appropriate alternative Index; or,
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging,
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes

(the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or

- (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

For the avoidance of doubt, should a Bond Event Determination Date occur within an Interest Period but the relevant Bond Event Notice is delivered (i) less than four Business Days (or in respect of Uncertificated Swedish Notes or Uncertificated Finnish Notes, twelve Business Days) prior to the relevant Interest Payment Date and the Issuer's payment instructions have already been given in respect of interest payable with respect to such Interest Period, or (ii) during a subsequent Interest Period and the Issuer has paid an amount of interest prior to such delivery in excess of the amount due in accordance with the provisions of this Condition 1.2.3, then the Issuer may deduct the amount of overpaid interest from the (i) next interest amount(s) (if any) due under the Notes (only in respect of Basket Notes), and/or (ii) the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount (or Cash Redemption Amount), whichever comes first (the result of such deduction being in each case floored at zero);

1.3 Partial Redemption and further issues

- (b) for Basket Bond Linked Notes, (i) the Aggregate Nominal Amount, (ii) the Reference Portfolio Notional Amount and (iii) the Aggregate Loss Amount;

For the avoidance of doubt, any other amount calculation of which depends on the above amounts will be re-calculated accordingly.

1.4 Hedging Disruption - Increased Cost of Hedging - Change in Law - Merger of a Bond Issuer and Société Générale or any of its Affiliates – Consequences - Monetisation until the Maturity Date

1.4.1 Hedging Disruption, Increased Cost of Hedging

Hedging Disruption means, in respect of Notes that have one or more Bond(s), that, as determined in good faith by the Calculation Agent, Société Générale or any of its Affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Bond price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into by the Issuer of the Notes with Societe Generale or any of its Affiliates in relation to the Notes; (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes (either between accounts maintained in the jurisdiction of the Hedging Positions (the **Affected Jurisdiction**) or, as the case may be, from accounts maintained in the Affected Jurisdiction to accounts situated outside the Affected Jurisdiction), or (c) receive or be likely to receive under the Bond(s) the payment of any sum due and payable under the Bond(s), but without a Bond Event Determination Date having occurred.

Increased Cost of Hedging means, in respect of Notes that have one or more Bond(s), that Société Générale or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its Affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Bond price risk (or any other relevant price risk including, but not limited to, the interest rate, equity and currency risk) of entering into and performing its obligations with respect to the Notes or any agreement entered into with the Issuer or any of its Affiliates of the Notes in relation to the Notes or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of any Hedge Positions or any agreement entered into with the Issuer or any of its Affiliates in relation to the Notes.

1.4.2 Change in Law

Change in Law means in respect of Notes that have one or more Bond(s) that, on or after the first to occur of (a) the Issue Date and (b) the trade date of any Hedge Position (i) due to the adoption of, or any change in, any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or brought in a court of competent jurisdiction), the Calculation Agent determines in good faith that it has become illegal for Société Générale or any of its Affiliates to hold, acquire or dispose of Hedge Positions (as defined in Condition

1.4.5 below) or to maintain the agreement entered into with Société Générale or any of its Affiliates by the Issuer of the Notes.

1.4.3 **Merger of a Bond Issuer and Société Générale or any of its Affiliates**

Merger of a Bond Issuer and Société Générale or any of its Affiliates means, in respect of Single Bond Linked Notes or Basket Bond Linked Notes, that (i) Société Générale or any of its Affiliates consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Bond Issuer or (ii) a Bond Issuer consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to Société Générale or any of its Affiliates, or (iii) Société Générale or any of its Affiliates and a Bond Issuer become Affiliates.

1.4.4 **Consequences**

Upon the occurrence of an Exceptional Event Date or a Holding Limit Event, the Calculation Agent may decide to either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9(5) of the General Terms and Conditions of the Notes; or
- B. if the relevant Exceptional Event or the Holding Limit Event, as the case may be, is related to one or several affected Bonds or issuance of Bonds as applicable, (the **Affected Bond(s)**), replace the Affected Bond(s) by a new bond (or new bonds, as relevant) which is (respectively are each) a Similar Bond; or
- C. apply the Monetisation until the Maturity Date;

Or, but only in the case of Increased Cost of Hedging:

- D. deduct:
 - (i) from the Interest Amount (if any) due under the Notes on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new, or any increase of, any tax, duty, expense or fee, that triggered the occurrence of the Increased Cost of Hedging incurred by Societe Generale or any of its Affiliates in relation to the Hedge Positions hedging the payment obligations of the Issuer under the Notes, such amount to be apportioned *pro rata* amongst the outstanding Notes (the **Reduction Amount**); PROVIDED THAT if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of each Note is greater than the Interest Amount due under each Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount will be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount) will be deducted from the Interest Amount due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in whole or in part on the last Interest Payment Date under the Notes, the remaining Reduction Amount will be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount, whichever comes first (the reduction of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount under the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any), due under the Notes on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the

Final Redemption Amount due on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Following the occurrence of an Exceptional Event Date, the Calculation Agent shall notify the Issuer, which shall in its turn notify the Noteholders pursuant to the provisions of Condition 13 of the General Terms and Conditions of the Notes of the relevant adjustment made or decision taken by the Calculation Agent. Details of any adjustment made or decision taken may be obtained by the Noteholders upon request at the Calculation Agent's specified address.

1.4.5 **Monetisation until the Maturity Date**

The Issuer will no longer be liable for any payment, on the Maturity Date or any Interest Payment Date, but instead will, in full and final satisfaction of its obligations pay an amount as described in Conditions 1.4.5.1 and 1.4.5.2 below:

1.4.5.1 *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms could be as low as zero:*

In accordance with the provisions of Condition 1.4.5 above, the Issuer will pay on the Maturity Date an amount per Note, determined by the Calculation Agent, with a minimum of zero, based on (a) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b) each converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero; or

1.4.5.2 *In respect of the redemption of Notes whose Final Redemption Amount as defined in the applicable Final Terms cannot be in any case lower than an amount strictly positive (the **Minimum Redemption Amount**)*

In accordance with the provisions of Condition 1.4.5 above, the Issuer will pay on the Maturity Date an amount per Note, determined by the Calculation Agent, equal to the sum of (a) the Minimum Redemption Amount and (b) an amount, equal to the positive difference, if any, between:

- (i) the net positive cash amount that Société Générale or any of its Affiliates would be left with on the Full Liquidation Date, as a result of liquidating the Hedge Positions (*inter alia* by meeting the obligations and liabilities of the Hedge Positions, if any, with the liquidation proceeds of the assets of the Hedge Positions) minus (b) the Associated Costs (the result of this difference (a) minus (b), each converted if necessary in the Specified Currency using the Relevant Spot Exchange Rate on the Full Liquidation Date, is a **Calculation Amount** for the purposes of this provision and of the Compounding Method) together with (c) interest that would have accrued on such Calculation Amount pursuant to the Compounding Method, during the period (which for the purposes of this provision and of the Compounding Method shall be a **Calculation Period**) between (x) the Full Liquidation Date (included) and (y) the Maturity Date (excluded); and
- (ii) an amount equal to the Minimum Redemption Amount; for the avoidance of doubt, the liquidation proceeds of any assets held by Société Générale or any of its Affiliates as Hedge

Positions shall be deemed to be used in priority to extinguish any liability, if any, incurred by Société Générale or any of its Affiliates under its Hedge Positions and the Calculation Amount mentioned above may be as low as zero.

Definitions applicable to this Condition:

Associated Costs means an amount determined by the Calculation Agent in its reasonable discretion equal to the sum of (without duplication) all costs (including, without limitation, cost of funding), losses, expenses, tax and duties incurred by Société Générale or any of its Affiliates in connection with the termination, liquidation or re-establishment of the Hedge Positions, such amount to be apportioned *pro rata* the outstanding Notes;

Compounding Method means, when interest is specified herein as accruing pursuant to the Compounding Method, that the amount of interest shall be equal to the sum of the Compounding Period Amounts for each Compounding Period in the related Calculation Period;

where:

that a Bond Event has occurred (subject to the description therein being limited by any confidentiality restrictions, applicable laws, rules or regulations binding on the Issuer and/or the Calculation Agent). Bond Final Price means, in respect of a Bond, a quotation (expressed as a percentage of the Bond Notional Amount) obtained from Quotation Dealers in the manner provided below. The Calculation Agent will determine, based on the then current market practice, whether such quotations will include or exclude accrued but unpaid interest and all quotations will be obtained in accordance with this determination. The Calculation Agent will determine from the Full Quotations, the Weighted Average Quotation, the Partial Weighted Average Quotation or the Residual Quotation Amount (each as defined below), the Bond Final Price. For the avoidance of doubt, the Bond Final Price, as determined by the Calculation Agent, is based on obtained Quotations, without any obligation by the Calculation Agent to actually realise any sale transaction in relation to such Quotations.

The Calculation Agent will require each Quotation Dealer to provide quotations to the extent reasonably practicable on the relevant day at approximately 11.00 a.m. London time or 11.00 a.m. New York time or 11.00 a.m. in any other leading market where the liquidity of such Bond may be better, as determined by the Calculation Agent, as the case may be. The Calculation Agent, may on the First Quotation Day and if applicable, on the Second Quotation Day, in its sole and absolute discretion but acting in a commercially reasonable manner, determine whether to request (i) at least one Full Quotation and/or (ii) several firm bid quotations from Quotation Dealers in order to establish a Weighted Average Quotation.

To such end:

- (i) if the Calculation Agent obtains at least one Full Quotation and/or one Weighted Average Quotation on the First Quotation Day, the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;
- (ii) if the Calculation Agent is unable to obtain at least one Full Quotation or to determine a Weighted Average Quotation on the First Quotation Day, the Calculation Agent will attempt to obtain at least one Full Quotation and/or one Weighted Average Quotation on the Second Quotation Day, and the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;
- (iii) if the Calculation Agent obtains quotations for an aggregate amount lower than the Quotation Amount on the Second Quotation Day, then on the Third Quotation Day it will attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. If the Calculation Agent is unable to establish on the Third Quotation Day a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, it will, until obtaining a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, on each Quotation Day during the Auction Period, attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. For the avoidance of doubt, once a Partial Weighted Average Quotation is obtained on either the Third Quotation Day or on any Quotation Day in the Auction Period there will be no obligation on the Calculation Agent to seek a further Partial Weighted Average Quotation. The Bond Final Price will then be the weighted average of (i) the firm bid quotations obtained on the Second Quotation Day (if any) and (ii) the Partial Weighted Average Quotation (if any) for the portion equal to the Residual Quotation Amount and (iii) the value determined by the

Calculation Agent in its sole and absolute discretion but acting in a commercially reasonable manner and for the avoidance of doubt this value can be zero for any remaining amount for which no quotation was obtained.

- Y. in the case of Merger Event above only, replace the ETP by the kind and number of units or other securities and property receivable on such conversion, split, consolidation, merger, sale or conveyance by a holder of ETPs prior to such conversion, split, consolidation, merger, sale or conveyance for the purposes of determining the value of the ETP and make any adjustment (if necessary) to the value of such ETP; or
- Z. apply one of the following methods:
- (a) Monetisation until the Maturity Date (as defined below), or
 - (b) substitute the ETP affected by the Extraordinary Event (the **Affected ETP**) with an ETP (the **New ETP**) having an investment strategy and/or an economic payout similar to the investment strategy and/or the economic payout of the Affected ETP and adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

For information purposes, it is understood that in all cases described herein where an ETP is substituted, on any date "t", with a Substitute ETP, the value of the relevant component in the formula used to determine the amount to be paid as described in the applicable Final Terms, shall not be affected by the substitution on such date "t" in respect of the Substitute ETP and would mean the closing price of such Substitute ETP on the relevant Exchange on the date "t" is weighted by an appropriate linking coefficient so that it is equal to the closing price of the Affected ETP on such date "t".

or, but only in the case of Increased Cost of Hedging:

- AA. deduct:
- (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging and that would be incurred by the Hypothetical Investor, in relation to the Intermediate Hypothetical Hedge Positions or Optional Hypothetical Hedge Positions or Hypothetical Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any) or the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

3.3 Disruption Events relating to any ETP Issuer and/or any ETP

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of any of the following events (each a **Disruption Event**) in respect of a Valuation Date (the **Disrupted Day**) and an ETP Issuer or ETP (the **Affected ETP**):

- A. **Calculation and/or Publication Disruption** means the occurrence of an event, beyond the control of a Hypothetical Investor (including in case of any gate, deferral, suspension or other provisions in the ETP Documents permitting the ETP Issuer to delay or refuse subscription and/or redemption orders) which precludes the calculation and/or publication of the official ETP Value by the ETP Issuer (or the ETP advisor or agent generally in charge of calculating such official ETP Value); or
- B. **ETP Settlement Disruption** means a failure by the ETP Issuer to pay in cash the full amount of the redemption proceeds on the date by which the ETP Issuer was scheduled to have paid such amount and which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price, including without limitation due to (a) the restriction on the amount or number of redemptions orders that the ETP Issuer (or the ETP advisor or agent generally in charge of accepting redemption orders) will accept in relation to a single date on which the ETP Issuer normally accepts redemption orders (a gate), (b) the suspension for any reason of the subscription or redemption orders by the ETP Issuer (or the ETP advisor or agent generally in charge of accepting subscription and redemption orders);
- C. **ETP Determination Disruption Event** means the occurrence of any event (beyond the control of a Hypothetical Investor) other than the events mentioned in "*Calculation and/or Publication Disruption*" in (A) above or "*ETP Settlement Disruption*" in (B) above affecting such ETP which, in the determination of the Calculation Agent, makes it impossible or impracticable for the Calculation Agent to determine the Closing Price,

the Valuation Date, in respect of the Affected ETP, shall be postponed to the immediately following Business Day (as specified to be applicable in relation to such Valuation Date in the applicable Final Terms) that is no longer affected by a Disruption Event for such Affected ETP.

If a Disruption Event has occurred or is continuing on each of the five scheduled Business Days, following the Scheduled Valuation Date or if no Business Day, that is not affected by a Disruption Event has occurred at the latest on the thirty-fifth calendar day following the Scheduled Valuation Date, then the Calculation Agent may either:

- X. determine its good faith estimate of the ETP Value which shall be deemed to be the Closing Price in respect of such Valuation Date provided that if the Calculation Agent decides to make such determination, the Valuation Date shall occur no later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of such determination (except in respect of Uncertificated Nordic Notes for which the determination shall be made pursuant to the provisions below"); or
- Y. consider such Disruption Event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- Z. apply one of the following methods:
 - (a) Monetisation until the Maturity Date (as defined below), or
 - (b) substitute the Affected ETP with an ETP (the New ETP) having an investment strategy and/or an economic payout similar to the investment strategy and/or the

economic payout of the Affected ETP and adjust any relevant terms of the Notes to preserve the economic equivalent of the obligations of the Issuer under the Notes.

Notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date; if a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest as of the Valuation Time on such fourth Business Day and the good faith estimate of the value of the ETP so calculated shall be deemed the Closing Price,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depositary (Euroclear Sweden AB), the Finnish Central Securities Depositary (Euroclear Finland Ltd) or the Danish Central Securities Depositary, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth",
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depositary (**Verdipapirsentralen**), all references to the word "fourth" above shall be deemed to be references to the word "tenth".

3.4 Maturity Disruption Event relating to any ETP Issuer and/or any ETP

Upon the occurrence or the likely occurrence, as determined by the Calculation Agent, of a Maturity Disruption Event:

- A. the Issuer shall consider such extraordinary event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. apply Monetisation until the Maturity Date (as defined below).

3.5 Monetisation until the Maturity Date

Following the occurrence of an event giving rise to the Monetisation until the Maturity Date, the Issuer shall no longer be liable for the payment of (1) the Intermediate Amount(s) initially scheduled to be paid on any Intermediate Payment Date and/or (2) the Optional Redemption Amount on the Optional Redemption Date and/or (3) the Final Redemption Amount as defined in the applicable Final Terms on the Maturity Date, but instead will, in full and final satisfaction of its obligations, pay an amount described in Conditions 3.5.1, 3.5.2 and/or 3.5.3 below.

2.3 Hedging Disruption, Increased Cost of Hedging and consequences - Change in Law and consequences

2.3.1 Hedging Disruption, Increased Cost of Hedging and consequences

Hedging Disruption means, in respect of Notes that have one or more Non Equity Security(ies) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

Increased Cost of Hedging means, in respect of Notes that have one or more Non Equity Security(ies) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale

or any of its affiliates by the Issuer in relation to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a Non Equity Security (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In such case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. substitute the Affected Underlying with a new underlying asset; or
- C. apply the Monetisation until the Maturity Date (as defined above); or, but only in the case of Increased Cost of Hedging:
- D. deduct:
 - (i) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the "**Reduction Amount**"); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
 - (ii) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date of a Change in Law, the Calculation Agent will decide either:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In such case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- B. substitute the Affected Underlying with a new underlying asset; or

If $\text{Q}(k,t-1) < 0$ then

$$\text{ERate}(k,t-1) = \text{RateShort}(t-1)$$

Each **Rate(k,t-1)** is determined in accordance with the following:

If $\text{Q}(k,t-1) \geq 0$ then: $\text{Rate}(k,t-1) = \text{RateShort}(k,t-1)$

If $\text{Q}(k,t-1) < 0$ then: $\text{Rate}(k,t-1) = \text{RateLong}(k,t-1)$

2.4 Computation of the quantities Q(k,t)

For each Calculation Date (t) and Portfolio Component (k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event Q(k,t) shall be determined in accordance with the following formula:

$$\text{Q}(k,t) = \text{Q}(k,t-1) \times \text{AdjustmentFactor}(k,t) \times \text{ReweightFactor}(k,t)$$

Where:

Q(k,0) means the initial quantity of Portfolio Component (k) as specified in the applicable Final Terms.

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then
 $ReweightFactor(k,t) = ReweightFactorLong(t)$

If $Q(k,t-1) < 0$ then
 $ReweightFactor(k,t) = ReweightFactorShort(t)$

ReweightFactorLong(t) is determined as follows with the following on each Calculation Date (t):

If:

$(\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) + Q(k,t-1)) \times S(k,t-1) \times PortfolioFX(k,t-1)) / (2 \times PL(t-1))) > GearingSupLong$

Or if:

$(\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) + Q(k,t-1)) \times S(k,t-1) \times PortfolioFX(k,t-1)) / (2 \times PL(t-1))) < GearingInfLong$

Then:

$ReweightFactorLong(t) = TargetGearingLong \times 2 \times PL(t) / (\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) + Q(k,t-1)) \times AdjustmentFactor(k,t) \times S(k,t-1) \times PortfolioFX(k,t-1)))$

Else :

$ReweightFactorLong(t)=1$

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$(\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) - Q(k,t-1)) \times S(k,t-1) \times PortfolioFX(k,t-1)) / (2 \times PL(t-1))) > GearingSupShort$

Or if:

$(\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) - Q(k,t-1)) \times S(k,t-1) \times PortfolioFX(k,t-1)) / (2 \times PL(t-1))) < GearingInfShort$

Then:

$ReweightFactorShort(t) = TargetGearingShort \times 2 \times PL(t) / (\sum (k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) - Q(k,t-1)) \times AdjustmentFactor(k,t) \times S(k,t-1) \times PortfolioFX(k,t-1)))$

Else :

$ReweightFactorShort(t)=1$

AdjustmentFactor(k,t) is determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

If Reinvestment Method is set to Individual Components in the applicable Final Terms:

$AdjustmentFactor(k,t) = 1 + (DistRate(k,t) \times PortfolioDist(k,t)) / (S(k,t-1) - PortfolioDist(k,t))$

If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (Q(j,t-1) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (Q(j,t-1) \times \text{PortfolioFX}(j,t-1) \times (S(j,t-1) - \text{PortfolioDist}(j,t))))$$

2.5 Reference Price

Reference Price means, in respect of any Scheduled Calculation Date (t) and any Portfolio Component (k):

- a. If "Closing Price" is specified as applicable in the applicable Final Terms, and
 - a. if such Portfolio Component (k) is an Equity Instrument that is a Share or an ETF Share, the official closing price of the share of such Company or ETF at the Scheduled Closing Time on such Scheduled Calculation Date (t) (or the Scheduled Closing Time on the Scheduled Trading Day preceding such Scheduled Calculation Date (t), as the case may be);
 - b. if such Portfolio Component (k) is an Equity Instrument that is a Fund Unit, the latest available Net Asset Value dated in respect of such Scheduled Calculation Date (t) as determined by the Calculation Agent;
 - c. if such Portfolio Component (k) is a Commodity Instrument, the official closing price published on the relevant price source as determined by the Calculation Agent;
 - d. if such Portfolio Component (k) a Debt Instrument, the official closing price of such Debt Instrument as determined by the Calculation Agent;
 - e. if such Portfolio Component (k) is an Underlying Index, the official closing level of such Underlying Index as determined by the Underlying Index Calculation Agent on the Scheduled Closing Time on such Scheduled Calculation Date (t) (or the Scheduled Closing Time on the Scheduled Trading Day preceding such Scheduled Calculation Date (t), as the case may be); or
 - f. if such Portfolio Component (k) is a Derivatives Instrument, the closing value of such Derivatives Instrument on such Scheduled Calculation Date (t), as determined by the Calculation Agent.
- b. if "Fixing Price" is specified as applicable in the applicable Final Terms, the price or level of such Portfolio Component(k), as relevant, as of such Calculation Date (t) and as of the ReferenceFixingTime (as specified in the applicable Final Terms);
- c. if "TWAP" is specified as applicable in the applicable Final Terms, the time weighted average price or level of such Portfolio Component(k), as relevant, on such Calculation Date (t), calculated between the TWAPStartTime (as specified in the applicable Final Terms) and the TWAPEndTime (as specified in the applicable Final Terms), as determined by the Calculation Agent;
- d. if "VWAP" is specified as applicable in the applicable Final Terms, the volume weighted average price or level of such Portfolio Component(k), as relevant, on such Calculation Date (t), calculated between the VWAPStartTime (as specified in the applicable Final Terms) and the VWAPEndTime (as specified in the applicable Final Terms), as determined by the Calculation Agent;
- e. if "Opening Price" is specified as applicable in the applicable Final Terms, the official opening price or level of such Portfolio Component(k), as relevant, on such Calculation Date (t);
- f. if "Best Effort" is specified as applicable in the applicable Final Terms, any of the above options, provided that the Reference Price will correspond to the above Reference Price that would be actually obtained by the Calculation Agent (or any of its Affiliates) if it were to hedge such Reference Price, as determined by the Calculation Agent; or

- g. if "Bid-Ask Spread" is specified as applicable in the applicable Final Terms, then
- i. if the relevant Reference Price is determined by reference to purchase order because of an increased exposure to such Portfolio Component (k), the resulting Reference Price shall be further adjusted and multiplied by $(1 + \text{SpreadMidAsk})$ (SpreadMidAsk being specified in the applicable Final Terms); and
 - ii. if the relevant Reference Price is determined by reference to sell order because of a decreased exposure to such Portfolio Component (k), the resulting Reference Price shall be further adjusted and multiplied by $(1 - \text{SpreadBidMid})$ (SpreadBidMid being specified in the applicable Final Terms),

provided that, if so provided in the applicable Final Terms, any of one of the above options may be applied in a different manner in respect of (i) different Scheduled Calculation Dates, (ii) different Portfolio Components or, if "Dynamic Portfolio" is set to Applicable in the applicable Final Terms, or (iii) depending on whether a Modification (as defined in Condition 3) is effective on a given Calculation Date.

3. SPECIFIC PROVISIONS APPLICABLE TO DYNAMIC PORTFOLIOS

This Condition 3 applies only if "Dynamic Portfolio" is specified as being Applicable in the applicable Final Terms. Unless otherwise stated herein, the following is to be considered as an additional Condition to these Additional Terms and Conditions.

3.2 Amendments to Condition 2

The following amendments are made to Condition 2 of these Additional Terms and Conditions for the purpose of determining the Portfolio Level of the Portfolio.

3.2.1 Amendments to Condition 2.1

The formula used to determine the Portfolio Level is replaced with the following

$$PL(t) = PL(t-1) + Perf(t-1,t) + Fin(t-1,t) - TC(t-1,t)$$

Where :

PL(0) means the initial level of the Portfolio as specified in the applicable Final Terms.

$$TC(t-1,t) = \text{Sum}(k \text{ from } 1 \text{ to } TNPC(t-1,t)) (Abs(Q(k,t) - Q(k,t-1) \times \text{AdjustmentFactor}(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t) \times TCR(k,t))$$

3.2.2 Amendments to Condition 2.4

Condition 2.4 is deleted in its entirety and replaced with the following:

For each Calculation Date (t) and Portfolio Component (k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event Q(k,t) shall be determined by the Calculation Agent in accordance with the following formulae:

Q(k,0) means the initial quantity of Portfolio Component (k) as specified in the applicable Final Terms.

If there is no Modification with a Rebalancing Date on Calculation Date (t)

$$Q(k,t) = Q(k,t-1) \times \text{AdjustmentFactor}(k,t) \times \text{ReweightFactor}(k,t)$$

Where:

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorLong}(t)$$

If $Q(k,t-1) < 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorShort}(t)$$

ReweightFactorLong(t) is determined as follows with the following on each Calculation Date (t):

If:

$$\left(\text{sum}(k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) + Q(k,t-1)) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)) / (2 \times PL(t-1)) \right) > \text{GearingSupLong}$$

Or if:

$$\left(\text{sum}(k \text{ from } 1 \text{ to } NPC(t-1)) ((Abs(Q(k,t-1)) + Q(k,t-1)) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)) / (2 \times PL(t-1)) \right) < \text{GearingInfLong}$$

Then:

$$\text{ReweightFactorLong}(t) = \text{TargetGearingLong} \times 2 \times \text{PL}(t) / (\text{sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) + Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)))$$

Else :

$$\text{ReweightFactorLong}(t)=1$$

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$$(\text{sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)) / (2 \times \text{PL}(t-1)) > \text{GearingSupShort}$$

Or if:

$$(\text{sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)) / (2 \times \text{PL}(t-1)) < \text{GearingInfShort}$$

Then:

$$\text{ReweightFactorShort}(t) = \text{TargetGearingShort} \times 2 \times \text{PL}(t) / (\text{sum}(k \text{ from } 1 \text{ to } \text{NPC}(t-1)) ((\text{Abs}(Q(k,t-1)) - Q(k,t-1)) \times \text{AdjustmentFactor}(k,t) \times S(k,t-1) \times \text{PortfolioFX}(k,t-1)))$$

Else :

$$\text{ReweightFactorShort}(t)=1$$

AdjustmentFactor(k,t) is determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

If Reinvestment Method is set to Individual Components in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$$

If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (Q(j,t-1) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (Q(j,t-1) \times \text{PortfolioFX}(j,t-1) \times (S(j,t-1) - \text{PortfolioDist}(j,t))))$$

If there are one or more Modifications affecting Portfolio Component (k) with a Rebalancing Date on Calculation Date (t):

Q(k,t) shall be the quantity communicated by the Weighting Advisor in accordance with Condition 3.3

3.3 Re-Weighting of Dynamic Portfolio composition

The Weighting Advisor may on each Review Date notify the Issuer that it wishes to advise the Issuer to modify the composition of the Portfolio, subject to the Portfolio remaining in compliance with the Eligible Underlyings Criteria.

The Weighting Advisor will be entitled to propose modifications to:

- (i) the quantity of any Portfolio Component (k) in the Portfolio;
- (ii) the inclusion of one or several new Portfolio Component (k) in the Portfolio;
- (iii) the removal of one of several Portfolio Component (k) from Portfolio; or

- (iv) any combination thereof.

(each a **Modification**, together the **Modifications**) prior to the Expiration Date, in accordance with the procedure described in Condition 3.4 (the **Re-Weighting Procedure**). For the avoidance of doubt, any $Q(k,t)$ may be equal to 0. It is understood that it is under the responsibility of the Weighting Advisor to ensure that any proposed Modification complies with the Eligible Underlyings Criteria.

Under normal market conditions, the Issuer shall implement the Modifications relating to the Portfolio unless the Calculation Agent determines in its sole discretion that:

- (i) the proposed Modification would breach or cause a breach of any provision of the Weighting Advisory Agreement, any applicable law, regulations or internal guidelines and policy of the Issuer or the Calculation Agent; or
- (ii) the Weighting Advisor fails to comply with the Terms and Conditions of the Notes (including ensuring that the Portfolio remains in compliance with the Eligible Underlyings Criteria); or
- (iii) the information provided by the Weighting Advisor in relation to a proposed Modification is incomplete, in particular it does not include parameters which are necessary to implement the proposed Modification, including but not limited to information necessary to identify each Portfolio Component or elements necessary to determine the quantity of each Portfolio Component; or
- (iv) the Issuer's or any of its affiliate's ability to hedge its exposure under the Notes would be materially affected by the implementation of the Modification or such Modification would increase the cost of hedging the Notes, including but not limited to (i) as a result of a change in law or regulation, (ii) the imposition of taxes, stamp duties, financial transaction tax or any other tax or levy having a similar effect or (iii) in case the Calculation Agent determines in good faith and in a commercially reasonable manner that the liquidity of the Portfolio Component affected by such Modification is not sufficient for the Issuer, the Calculation Agent or any of their affiliates, to implement such proposed Modification; or
- (v) a case of Force Majeure Event affecting the Notes, the Issuer, the Calculation Agent or the Weighting Advisor has occurred and is continuing.

Unless a Modification has been rejected by the Calculation Agent on the basis of one or more of the above grounds, the Calculation Agent shall then implement such Modification in accordance with the Re-Weighting Procedure.

3.4 Re-Weighting Procedure

The Calculation Agent shall on each Rebalancing Date make the Modification(s) to the Dynamic Portfolio requested by the Weighting Advisor, provided the relevant request was received before the Communication Deadline on the Review Date.

4. CONSEQUENCES OF DISRUPTED DAYS FOR VALUATION DATES OR AVERAGING DATES

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the **Scheduled Valuation Date** or the **Scheduled Averaging Date**) is a Disrupted Day for a Portfolio, then the Valuation Date or Averaging Date for such Portfolio shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day in respect of that Portfolio, unless each of the eight Scheduled Calculation Dates immediately following the Scheduled Valuation Date or Averaging Date is a Disrupted Day. In that case:

- A. the eighth Scheduled Calculation Date shall be deemed to be the Valuation Date or Averaging Date, notwithstanding the fact that such day is a Disrupted Day; and

- B. the Calculation Agent shall determine the level of the Portfolio on that eighth Scheduled Calculation Date in accordance with the formula for and method of calculating that Portfolio last in effect prior to the occurrence of the first Disrupted Day;

provided that if the Portfolio is included in a Basket, the hereabove provisions shall apply only to the Portfolio affected by the occurrence of a Disrupted Day and the Valuation Date or Averaging Date for each other underlying comprised in the Basket and not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date;

provided however that:

- (a) if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Calculation Date that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Calculation Date following the Scheduled Averaging Date, a Scheduled Calculation Date that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Calculation Date shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Calculation Date is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in (B) above, and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Closing Price; and
- (b) notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date. If a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Notes on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in (B) above at the latest on such fourth Business Day and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Portfolio Level,

provided however that

- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Swedish Central Securities Depository (Euroclear Sweden AB), the Finnish Central Securities Depository (Euroclear Finland Ltd) or the Danish Central Securities Depository, VP Securities A/S (**VP Securities**), all references to the word "fourth" above shall be deemed to be references to the word "twelfth", and
- in respect of Uncertificated Nordic Notes issued, cleared and settled through the Norwegian Central Security Depository (**Verdipapirsentralen**), all references to the word "fourth" above shall be deemed to be references to the word "tenth".

5. **ADJUSTMENTS, EVENTS, MONETISATION UNTIL THE MATURITY DATE, HEDGING DISRUPTION, INCREASED COST OF HEDGING, CHANGE IN LAW CHINA CONNECT SHARE DISQUALIFICATION, CHINA CONNECT SERVICE TERMINATION AND HOLDING LIMIT EVENTS RELATING TO PORTFOLIOS**

5.1 **Stop-Loss Event relating to a Portfolio**

If, on any Calculation Date after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Portfolio Level of a Portfolio is affected by a decrease of 80 per cent. or more of its Portfolio Level on the initial Valuation Date (the **Affected Portfolio** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter an **Early Redemption Event**). In that case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions; or
- B. continue the Notes according to their terms.

5.2 **Hedging Disruption, Increased Cost of Hedging and consequences**

Hedging Disruption means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Société Générale or any of its affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of entering into and performing its obligations with respect to the Notes or the agreement entered into with Société Générale or any of its affiliates by the Issuer in relation to the Notes; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the **Affected Jurisdiction**) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

In addition, for Shares traded through the China Connect Services, the definition of Hedging Disruption is completed by adding:

For the avoidance of doubt, "using commercially reasonable efforts" to hedge the risks with respect to the transaction(s) referred to in Hedging Disruption does not include the use of any quota granted to Société Générale or its Affiliates under the Qualified Foreign Institutional Investor (QFII) or Renminbi Qualified Foreign Institutional Investor (RQFII) schemes.

Increased Cost of Hedging means, in respect of Notes that have one or more Portfolio(s) as Underlying(s), that Société Générale or any of its affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which Société Générale or any of its affiliates enters into the Hedge Positions in respect of the Notes) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in these Additional Terms and Conditions and the applicable Final Terms to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Notes or any agreement entered into with Société Générale or any of its affiliates by the Issuer with respect to the Notes or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

In case of the occurrence of a Hedging Disruption or an Increased Cost of Hedging relating to a Portfolio (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid

an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or

- B. apply the Monetisation until the Maturity Date (as defined above); but only in the case of Increased Cost of Hedging; or
- C. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid),

and deduct:

- (a) from the Interest Amount(s) (if any) due under one Note on the Interest Payment Date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by Société Générale or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Notes and such amount to be apportioned pro rata amongst the outstanding Notes (the “**Reduction Amount**”); provided however that if on an Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of one Note is higher than such Interest Amount due under one Note (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Notes, the remaining Reduction Amount shall be deducted from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any), the Early Redemption Amount (if any) or the Final Redemption Amount whichever comes first (the result of such deduction being floored at zero); or
- (b) in the absence of any Interest Amount in respect of the Notes, (a) from the Optional Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Note on the Optional Redemption Date (if any), the Automatic Early Redemption Date (if any) or the payment date of the Early Redemption Amount (if any), whichever comes first, and (b) in the absence of any Optional Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Notes, from the Final Redemption Amount due under one Note on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

5.3 Change in Law and consequences

Change in Law means in respect of Notes that have one or more Portfolio(s) as Underlying(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Notes (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that it has become illegal for Société Générale or any of its affiliates to hold, acquire or

dispose of Hedge Positions or to maintain the agreement entered into with Société Générale or any of its affiliates by the Issuer of the Notes, relating to the Underlying of the Notes (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide to:

- a. consider such event as an event triggering an early redemption of the Notes (hereafter, an **Early Redemption Event**). In that case the Issuer shall terminate its obligations under the Notes and shall pay or cause to be paid an Early Redemption Amount on the basis of the Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes; or
- b. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid); or
- c. apply the Monetisation until the Maturity Date (as defined above).

[For Shares traded through the China Connect Services, apply the 2 following sections:

5.4 China Connect Share Disqualification and China Connect Service Termination and consequences

China Connect Share Disqualification means, on or after the Trade Date, the Shares cease to be accepted as "China Connect Securities" (as defined in the rules of the exchange of SEHK) for the purpose of the China Connect Service;

China Connect Service Termination means, on or after the Trade Date, the announcement by one or more of the Exchange, SEHK, the CSDCC, HKSCC or any regulatory authority with competent jurisdiction of a suspension or termination of the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Shares through the China Connect Service and the Calculation Agent determines that there is a reasonable likelihood that such suspension or termination is not, or will not be, temporary,

unless China Connect Share Disqualification or China Connect Service Termination is specified to be not applicable, upon the occurrence of such events, either party (or, if specified in the applicable Final Terms, the Calculation Agent only) may elect, while China Connect Share Disqualification or China Connect Service Termination is continuing, to terminate the transaction(s), upon at least two Scheduled Trading Days' notice specifying the date of such termination, in which event the Calculation Agent will apply the Early Redemption.

5.5 Consent to Regulatory Disclosure

6. PORTFOLIO DISRUPTION EVENTS

6.1 Consequences of a Portfolio Disruption Event

For the purposes of this Condition:

Portfolio Disruption Event means a Basket Component Disruption Event or a Market Data Disruption Event, both as determined by the Calculation Agent.

Basket Component Disruption Event means an Equity Instrument Disruption Event, a Commodity Instrument Disruption Event, a Debt Instrument Disruption Event or a Derivatives Instrument Disruption Event.

If a Portfolio Disruption Event occurs on a Scheduled Calculation Date (a **Disrupted Day**), then the Calculation Agent shall not calculate the Portfolio Level on such Disrupted Day and the next Calculation Date for all Portfolio Components shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Portfolio Component as determined by the Calculation Agent, unless each of the eight Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Portfolio Component, in which case:

- (i) the eighth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of a Portfolio Disruption Event on such date and only for the purpose of determining the Portfolio Level; and

- (ii) on each Disrupted Calculation Date, the Calculation Agent shall calculate the Portfolio Level in accordance with the formula for and method of calculating the Portfolio Level as set out in these Conditions provided that:
 - (a) if the Portfolio Disruption Event is a Basket Component Disruption Event in relation to one or more of the Basket Component(s) only (such Basket Component(s) the **Affected Basket Component(s)**):
 - (x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and

 - (b) if the Portfolio Disruption Event is a Market Data Disruption Event in relation to one or more of the Market Data only (such Market Data the **Affected Market Data**):
 - (x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed; and
 - (y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination; or
 - (c) if the Portfolio Disruption Event comprises both a Basket Component Disruption Event as well as a Market Data Disruption Event:
 - (x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and
 - (y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination.

For the avoidance of doubt, for the purpose of this Condition 6.1, any Portfolio Component(s) that are neither an Affected Basket Component, nor an Affected Market Data will be valued as of the Disrupted Calculation Date.

Notwithstanding the foregoing, if a Portfolio Disruption Event is continuing on any day falling on or after the first Disrupted Calculation Date, then the Calculation Agent may:

- (a) apply Monetisation until the Maturity Date; or
- (b) substitute the relevant Affected Basket Component or Affected Market Data with another instrument (which shall then become a substitute Basket Component or Market Data) provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes (subject to any taxes to be withheld or paid); or

In the case where an Early Redemption Event occurs, the Issuer shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of the Stop-Loss Event, an Early Redemption Amount on the basis of Market Value as defined in Condition [5.9] of the General Terms and Conditions of the Notes.

Potential Adjustment Event means an Equity Potential Adjustment Event or an Other Potential Adjustment Event as defined herein.

8.2 Equity Potential Adjustment Event

Equity Potential Adjustment Event means a Share Potential Adjustment Event or an ETF/Fund Potential Adjustment Event.

Share Potential Adjustment Event means, in relation to a Portfolio Component which is a Share, any of the following:

- G. any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Shares

ETF/Fund Potential Adjustment Event means, in relation to a Portfolio Component which is a Share, any of the following:

- E. any other event that, in the opinion of the Calculation Agent, may have a diluting or concentrative effect on the theoretical value of the Fund or ETF or quantity of Fund Units or ETF Shares,

8.3 Other Potential Adjustment Event

Other Potential Adjustment Event means, in relation to a Commodity Instrument, a Debt Instrument, a Derivatives Instrument or a Market Data, any event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of such Commodity Instrument, Debt Instrument, Derivatives Instrument or Market Data and which is not anticipated in terms of the relevant instrument as at the Issue Date of the Notes or the occurrence of which is not scheduled to occur.

DESCRIPTION OF THE COLLATERAL ARRANGEMENTS RELATING TO SECURED NOTES

The following is a description of the security and collateral arrangements in relation to Notes (such Notes being hereinafter referred to as Secured Notes) to which the Additional Terms and Conditions relating to Secured Notes apply pursuant to the applicable Final Terms.

Terms used but not otherwise defined in this description shall have the meaning given to them in the Additional Terms and Conditions for Secured Notes.

1. GENERAL

Each Series of Secured Notes will benefit from a pledge agreement (each a **Pledge Agreement**) which will be governed by the Luxembourg act dated 5 August 2005 on financial collateral arrangements, as amended (the **Collateral Act 2005**) granted by the Issuer. Under each Pledge Agreement, the Issuer will grant first ranking security over the Collateral Assets (as defined below) contained in one or more accounts (such accounts together being referred to as the **Collateral Account**) held by the Issuer with The Bank of New York Mellon (Luxembourg) S.A. or any successor thereto acting as collateral custodian (the **Collateral Custodian**), pursuant to the terms of a custodian agreement between, *inter alia*, the Issuer and the Collateral Custodian (the **Collateral Custodian Agreement**).

1.1 Appointment of a Security Trustee in the case of English Law Notes or Uncertificated Notes

In relation to each Series of English Law Notes or Uncertificated Notes, the security granted under each Pledge Agreement will be granted in favour of BNY Mellon Corporate Trustee Services Limited or any successor thereto as security trustee (the **Security Trustee**) on behalf of itself and the relevant Noteholders and the other relevant Secured Parties (as defined in the Additional Terms and Conditions relating to Secured Notes).

In relation to each Series of English Law Notes or Uncertificated Notes secured pursuant to a Pledge Agreement, the Security Trustee appointed as pledgee pursuant to such Pledge Agreement will enter into a security trust deed governed by English law (a **Security Trust Deed**). Under the terms of each Security Trust Deed, the Security Trustee will covenant that it will exercise its rights under the relevant Pledge Agreement on behalf of and as trustee for the Noteholders and will declare a trust in favour of the Noteholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement.

Any reference herein to the Security Trustee shall be deemed to be a reference to the Security Trustee in relation to English Law Notes and Uncertificated Notes only.

1.2 Appointment of a Security Agent in the case of French Law Notes

In relation to each Series of French Law Notes, the security granted under each Pledge Agreement will be granted directly in favour of the relevant Noteholders and the other relevant Secured Parties as represented by BNY Mellon Corporate Trustee Services Limited or any successor thereto as security agent (the **Security Agent**).

In relation to each Series of French Law Notes secured pursuant to a Pledge Agreement, the Terms and Conditions of such Series will provide that the Security Agent will be appointed as security agent of the relevant Noteholders in order to create, manage and enforce the relevant Pledge Agreement and the security created thereunder in their name and on their behalf pursuant to article 2328-1 of the French *Code Civil*. The subscription or purchase of French Law Notes secured by a Pledge Agreement by the Noteholders of the relevant Series will result in the appointment of the Security Agent in respect thereof. The relevant Noteholders will be deemed to have notice of the provisions of the relevant Pledge Agreement and the Security Agency Agreement (as defined below). In addition, the Security Agent will enter into a security agency agreement governed by French law (the **Security Agency Agreement**).

governing the role of the Security Agent in relation to each Series of Secured Notes governed by French law.

Any reference herein to the Security Agent shall be deemed to be a reference to the Security Agent in relation to French Law Notes only.

2. NATURE OF COLLATERAL ASSETS

Assets held in a Collateral Account are referred to as **Collateral Assets**. The Collateral Assets held in a Collateral Account and secured pursuant to a Pledge Agreement are together referred to as the **Collateral Pool**. Collateral Assets contained in a Collateral Pool may comprise:

- cash;
- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);
- equity securities, share, units or interests in a fund and or
- any other negotiable financial instruments in book entry-form.

In order to be included in the calculation of the Collateral Value (as defined below), Collateral Assets must satisfy the eligibility criteria (the **Eligibility Criteria**) specified in the applicable Final Terms relating to such Series of Secured Notes. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as **Eligible Collateral Assets**.

The Eligibility Criteria specified in the applicable Final Terms will set out the criteria which must be met for Collateral Assets to constitute Eligible Collateral Assets and may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets, requirements regarding the jurisdiction of the obligor of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets or its guarantor and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets as may be specified in the applicable Final Terms.

In addition the collateral rules (the **Collateral Rules**) specified in the applicable Final Terms will set out the rules which must be satisfied in order for the Collateral Test (as defined below) to be satisfied. The Collateral Rules may include requirements relating to the diversification of types of Eligible Collateral Assets, the concentration of the Eligible Collateral Assets, the geographical location of the Eligible Collateral Assets or the currency of the Eligible Collateral Assets which may be held in a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Eligible Collateral Assets contained in the relevant Collateral Pool as may be specified in the applicable Final Terms. For the avoidance of doubt, the Collateral Rules relating to a particular Collateral Pool will be satisfied to the extent that Eligible Collateral Assets with a Collateral Value (as defined below) at least equal to the Required Collateral Value (as defined below) together satisfy the Collateral Rules.

3. TYPE OF COLLATERAL POOL

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, each as further defined below.

3.1 Single Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Single Series Collateral Pool, such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool.

3.2 Multiple Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Multiple Series Collateral Pool, such Series of Secured Notes may be secured by a Collateral Pool which secures one or more Series of Secured Notes. In such a scenario, following enforcement of the relevant Pledge Agreement, all Series of Secured Notes secured on such Collateral Pool would share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or Notes or, where the clause "*Physical Delivery of Collateral Assets*" is specified as applicable in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool.

Each Series of Secured Notes secured pursuant to a Multiple Series Collateral Pool must (i) be subject to the same governing law, (ii) be exclusively either all subject to or all not subject to the clause "*Physical Delivery of Collateral Assets*" (as described below), (iii) be subject to the same Eligibility Criteria and Collateral Rules, (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, and (v) have the same Collateral Test Dates.

Noteholders acquiring and holding Secured Notes in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Noteholders of different Series of Secured Notes to share equally in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

4. SEGREGATION BETWEEN COLLATERAL POOLS, LIMITED RECOURSE AND NON-PETITION

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of the Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes both in the case of a Single Series Collateral Pool and a Multiple Series Collateral Pool. In particular, the Collateral Assets contained in any other Collateral Pool will not be available to pay amounts due in respect of any Secured Notes which are not secured by that Collateral Pool. However, in such a scenario, Noteholders will continue to be able to claim against the Guarantor for any unpaid amounts under the terms of the Guarantee.

In addition, by acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that they shall not be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Issuer.

5. HEDGING OF ISSUER'S OBLIGATIONS

The Issuer may hedge its obligations in relation to a Series of Secured Notes in a number of different ways, including by entering into repurchase agreements (**Repurchase Agreements**) or swap agreements (**Swap Agreements**) or any other agreements (any Repurchase Agreement, Swap Agreement or any other such agreement being a **Hedging Agreement**) with a counterparty which may be Société Générale or an affiliate of Société Générale or such other entities as the Issuer deems appropriate from time to time (each such entity being a **Counterparty**). Such transactions may also include provisions for the transfer to the Issuer of assets which may be treated as Collateral Assets by the Issuer and used to fulfil its obligations in relation to the Secured Notes. Where such Hedging Agreements provide for the transfer of assets to the Issuer, such transfer shall be made with full title.

A Swap Agreement may be evidenced by a 1992 ISDA Master Agreement and Schedule or a 2002 ISDA Master Agreement and Schedule together with the confirmation entered into by the Issuer and the Counterparty in respect of the relevant Series of Secured Notes. If the Counterparty's obligations under the Swap Agreement are to be collateralised, the Swap Agreement may be supplemented by a 1995 ISDA Credit Support Annex (Bilateral Form - Transfer).

A Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "*Convention Cadre FBF aux opérations de pensions livrées*", each as

amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect.

6. VALUATION OF COLLATERAL AND SECURED NOTES

In order to ensure that a Series of Secured Notes is collateralised in accordance with its terms, the Collateral Value (as defined below) and the aggregate market value or the aggregate nominal value of Non-Waived Notes (as defined below) of each Series of Secured Notes secured by such Collateral Pool will each be tested on the Issue Date of such Series of Secured Notes and on a periodic basis thereafter as specified in the applicable Final Terms (each such test date being a **Collateral Test Date**). The Collateral Value and the aggregate market value or the aggregate nominal value of Non-Waived Notes will be used in order to calculate the required aggregate value of Eligible Collateral Assets which must be held in a Collateral Account to secure one or more Series of Secured Notes (the **Required Collateral Value**).

6.1 Valuation of Collateral

In relation to each Series of Secured Notes, on the Issue Date of such Series of Secured Notes and on each Collateral Test Date thereafter, Société Générale or any successor thereto acting as Collateral Agent (the **Collateral Agent**) will calculate the Collateral Value pursuant to the terms of a collateral agency agreement between, *inter alia*, the Issuer and the Collateral Agent (the **Collateral Agency Agreement**).

Except if, (i) under the Secured Notes Provisions of the applicable Final Terms – EEA, "Collateral Valuation at Nominal Value" is specified as "applicable" or (ii) under the "Collateral Provisions" of the applicable Final Terms – Switzerland "Collateral Value" means the aggregate nominal value of the Collateral Assets, the Collateral Value is deemed to be equal to the aggregate market value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below), as of the relevant Valuation Point (as defined below) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion (the **Collateral Value**).

When, (i) under the Secured Notes Provisions of the applicable Final Terms – EEA, "Collateral Valuation at Nominal Value" is specified as "applicable" or (ii) under the Collateral Provisions of the applicable Final Terms – Switzerland the Collateral Value is linked to the nominal value, the Collateral Value shall be deemed to be equal to the total aggregate nominal value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below) and "Collateral Value" shall be construed accordingly throughout this document.

This Collateral Valuation at Nominal Value will mainly be used in conjunction with "NV Collateralisation" Type of Collateralisation, as described below.

The Collateral Agent shall calculate the Collateral Value as of the relevant Valuation Point (as described below) in Euro (except if another Collateral valuation currency is specified in the applicable Final Terms) (the **Collateral Valuation Currency**) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion. Where the currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant spot exchange rate.

Except if the applicable Final Terms – EEA specify Predetermined Collateral Valuation Currency Rate of Exchange as applicable (or the applicable Final Terms – Switzerland specify information in respect of Predetermined Collateral Valuation Currency Rate of Exchange), the relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time, each as specified in the applicable Final Terms or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or is not available or if this information is not available on this page, the relevant spot rate shall be the rate determined by the Collateral Agent, acting in good faith and in a commercially reasonable manner.

If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms – EEA (or the applicable Final Terms – Switzerland specify information in respect of Predetermined Collateral Valuation Currency Rate of Exchange), the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms.

When calculating the Collateral Value in respect of Eligible Collateral Assets, the Collateral Agent will, if so specified in the applicable Final Terms, take into account the Haircut (being a percentage amount by which the value of each type or class of Collateral Assets in a Collateral Pool is discounted) (as defined in the Additional Terms and Conditions relating to Secured Notes) specified in the applicable Final Terms.

In performing its calculations as described in the section "*Verification by Collateral Monitoring Agent*" below, the Collateral Monitoring Agent will use the same method of valuation of the collateral assets and, as the case may be, the relevant Haircut value(s) specified in the applicable Final Terms.

6.2 Valuation of Secured Notes

In addition, on each Collateral Test Date for each Series of Secured Notes (other than Series where NV Collateralisation is specified as being applicable in the applicable Final Terms), Société Générale or any successor thereto (the **Note Valuation Agent**) will, pursuant to the terms of a note valuation agency agreement between, *inter alia*, the Issuer and the Note Valuation Agent (the **Note Valuation Agency Agreement**), calculate one market value applicable to each Secured Note of such Series (the **Secured Note Market Value**) and will provide such value to the Collateral Agent and the Collateral Monitoring Agent. The Secured Note Market Value shall be the market value of the relevant Secured Note determined by the Note Valuation Agent as of the Valuation Point on the basis of such valuation method as the Note Valuation Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Note Valuation Agency Agreement, determine in its discretion.

For the avoidance of doubt, the Secured Note Market Value determined by the Note Valuation Agent can differ from the Market Value determined by the Calculation Agent in accordance with Condition 5.9 of the General Terms and Conditions of the Notes and from the price proposed, as the case may be, by Société Générale or any affiliate of Société Générale or any other entities acting as market maker on the secondary market for a Note.

Unless otherwise specified in the applicable Final Terms, the Valuation Point shall be the Collateral Business Day (as defined in the Additional Terms and Conditions relating to Secured Notes) immediately preceding the Issue Date or the relevant Collateral Test Date, as the case may be, or, if a valuation of the relevant Collateral Asset or Secured Note, as applicable, is not available on such date, the date of the last available valuation of such Collateral Asset or Secured Note.

7. WAIVER OF RIGHTS TO COLLATERAL ASSETS

If "*Waiver of Rights*" is specified as applicable in the applicable Final Terms – EEA (or if the applicable Final Terms – Switzerland do not provide any information in respect of Waiver of Rights), certain Noteholders intending to hold Secured Notes (including, but not limited to, in their capacity as a market maker) may waive their rights to receive the proceeds of realisation of the Collateral Assets securing such Secured Notes (or where Physical Delivery of Collateral Assets apply, delivery of the Collateral Assets) following the enforcement of the relevant Pledge Agreement (any such Secured Notes being **Waived Notes**). As a consequence, in such circumstances when calculating the Required Collateral Value in accordance with the provisions described below, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Secured Notes that have not been subject to such waiver (any such Notes being **Non-Waived Notes**).

Each holder of Waived Notes shall be required to (i) inform by written notice and, upon request from the Collateral Agent, provide evidence to, the Collateral Agent of the number of Waived Notes that he holds on the Issue Date and on each Collateral Test Date and (ii) notify the Collateral Agent following any

transfer of Waived Notes. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Agent shall notify the Collateral Monitoring Agent of the same.

Notwithstanding the above, all Secured Notes held by Societe Generale or one or more of its affiliates, including, but not limited to, in its capacity as market maker, will be deemed to be Waived Notes, unless otherwise notified in writing by Societe Generale or one or more of its affiliates to the Collateral Agent.

On each Collateral Test Date, the Collateral Agent shall notify the Issuer and the Collateral Monitoring Agent of the number of Waived Notes. Upon request of the Issuer or the Collateral Monitoring Agent, the Collateral Agent shall request a holder of Waived Notes to provide evidence of the number of Waived Notes that he holds and to provide a copy of such evidence to the Issuer or the Collateral Monitoring Agent, as applicable.

None of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent, the Security Trustee or the Security Agent shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Waived Notes relating to any one or more Series of Secured Notes that may have been provided to the Collateral Agent by or on behalf of any holder of Waived Notes and none of the Issuer, the Guarantor, the Collateral Agent, the Collateral Monitoring Agent, the Security Trustee or the Security Agent shall be under any duty to verify or otherwise confirm the number of Waived Notes so held.

Holders of Waived Notes shall also be deemed to waive their rights to give written notice to the Issuer and the Guarantor that the Waived Notes are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below).

8. REQUIRED COLLATERAL VALUE

In relation to a Single Series Collateral Pool, the Required Collateral Value will be calculated by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date as follows:

- (i) where "*MV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage, (b) the Secured Note Market Value and (c) the number of Non-Waived Notes of such Series;
- (ii) where "*NV Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage and (b) the total aggregate nominal value of the Non-Waived Notes of such Series;
- (iii) where "*Min (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the lower of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes or (b) the product of (1) the Collateralisation Percentage and (2) the total aggregate nominal value of the Non-Waived Notes of such Series; or
- (iv) where "*Max (MV, NV) Collateralisation*" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the greater of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Note Market Value and (3) the number of Non-Waived Notes or (b) the product of (1) the Collateralisation Percentage and (2) the specified proportion of the total aggregate nominal value of the Non-Waived Notes of such Series.

The Collateralisation Percentage relating to a Series of Secured Notes will be specified in the applicable Final Terms and may be a fixed percentage or a percentage determined by applying a predetermined

formula. The applicable Final Terms may also specify that the Collateralisation Percentage may vary during the term of the Notes, after a certain date, following the occurrence of a trigger event or following a unanimous decision of the Noteholders.

For the avoidance of doubt, except in the case of sub-paragraph 8(ii) above, the Collateral Agent will be required to use the Secured Note Market Value determined by the Note Valuation Agent in determining the Required Collateral Value.

In relation to a Multiple Series Collateral Pool, the Required Collateral Value will be determined by the Collateral Agent on the Issue Date and on each relevant Collateral Test Date as the sum of the amounts calculated pursuant to each relevant sub-paragraph 8(i), 8(ii), 8(iii) or 8(iv) above in respect of each Series of Secured Notes secured by the relevant Collateral Pool.

In determining the Required Collateral Value, where the Specified Currency of any Secured Note is other than the Collateral Valuation Currency, the Collateral Agent shall convert the Secured Note Market Value and/or the nominal value, as the case may be, of such Secured Note at the relevant spot exchange rate. Except if Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, The relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time, each as specified in the applicable Final Terms or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or such Collateral Valuation Currency Screen Page is not available, the relevant spot rate shall be the rate determined by the Collateral Agent in good faith and in a commercially reasonable manner.

If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms.

9. ADJUSTMENTS TO COLLATERAL POOL AND COLLATERAL TEST NOTICE

On each Collateral Test Date relating to a relevant Series of Secured Notes the Collateral Agent will determine whether (i) the Collateral Rules applicable to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Notes) (limbs (i) and (ii) above being referred to as the **Collateral Test**). When determining whether the Collateral Test is satisfied, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied for a specific Collateral Pool, the Collateral Agent on behalf of the Issuer will select the type and quantity of Collateral Assets to be deposited in the Collateral Account (or will select existing Collateral Assets to be replaced with other Collateral Assets), in order that after such adjustment the Collateral Test will be satisfied.

If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is satisfied for a specific Collateral Pool and, if on such date, the Collateral Value is greater than the Required Collateral Value, the Collateral Agent on behalf of the Issuer shall be entitled to select Collateral Assets to be removed from the Collateral Account (or shall be entitled to select existing Collateral Assets to be replaced with other Collateral Assets), provided that after such adjustment the Collateral Test continues to be satisfied.

On each Collateral Business Day, if the Collateral Agent on behalf of the Issuer intends to make adjustments to the Collateral Assets held in a Collateral Pool (including, but not limited to, adjustments in order to ensure that the Collateral Test will be satisfied), the Collateral Agent will send or cause to be

sent a notice (a **Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed).

10. VERIFICATION BY COLLATERAL MONITORING AGENT

On each Collateral Test Date, The Bank of New York Mellon, London Branch acting as Collateral monitoring agent (the **Collateral Monitoring Agent**) or any successor thereto shall, pursuant to the terms of a collateral monitoring agency agreement between, *inter alia*, the Issuer and the Collateral Monitoring Agent (the **Collateral Monitoring Agency Agreement**), calculate the Collateral Value and the Required Collateral Value and verify that the Collateral Test is satisfied. For the avoidance of doubt, the Secured Note Market Value determined by the Note Valuation Agent as described above and the aggregate number of Waived Notes notified to the Collateral Monitoring Agent shall bind the Collateral Monitoring Agent in its determination of the Required Collateral Value.

If on the relevant Collateral Test Date:

- (i) a Collateral Test Notice has been delivered by the Collateral Agent and the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied (including after taking into account any adjustments specified in such Collateral Test Notice); or
- (ii) no Collateral Test Notice has been delivered by the Collateral Agent but the Collateral Monitoring Agent has determined that adjustments need to be made to the Collateral Assets so that the Collateral Test be satisfied,

then the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, notify the Collateral Agent in writing providing details of why it considers that the Collateral Test is or will not be satisfied (such notice being hereafter referred to as a **Collateral Monitoring Agent Notice**).

Following receipt of a Collateral Monitoring Agent Notice, the Collateral Agent will determine whether it is in agreement with the contents of the Collateral Monitoring Agent Notice. Should the Collateral Agent agree with the contents of a Collateral Monitoring Agent Notice, the Collateral Agent shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice send or cause to be sent a revised Collateral Test Notice (a **First Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied.

If the Collateral Agent disputes the contents of a Collateral Monitoring Agent Notice, it shall on the Collateral Business Day immediately following receipt of a Collateral Monitoring Agent Notice notify the Collateral Monitoring Agent of such dispute in writing (a **Dispute Notice**) and the Collateral Monitoring Agent and the Collateral Agent shall consult with each other in good faith in an attempt to resolve the dispute.

If the Collateral Agent and the Collateral Monitoring Agent are able to resolve the dispute following such consultation by the second Collateral Business Day following delivery of the Dispute Notice, the Collateral Agent shall send or cause to be sent a revised Collateral Test Notice (a **Second Level Revised Collateral Test Notice**) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the agreed adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed) such that the Collateral Test will be satisfied.

If the Collateral Agent and the Collateral Monitoring Agent fail to resolve the dispute by the second Collateral Business Day following delivery of the Dispute Notice, then the Collateral Agent (on behalf of

the Issuer) shall notify the Collateral Monitoring Agent in writing (such notice being a **Dispute Resolution Procedure Notice**) that it will commence the following dispute resolution procedure (the **Collateral Test Dispute Resolution Procedure**) to determine the adjustments to be made to the Collateral Pool:

- (i) utilising any calculations, rules or criteria which the Collateral Agent and the Collateral Monitoring Agent have agreed are not in dispute;
- (ii) if such dispute relates to the satisfaction of the Eligibility Criteria or the Collateral Rules, appointing an independent third person (acting as an expert and not as an arbitrator) selected by the Collateral Agent and approved by the Collateral Monitoring Agent (such approval not to be unreasonably withheld) to determine whether such Eligibility Criteria and Collateral Rules are satisfied with the determination of any such person being final and binding upon the Collateral Agent and the Collateral Monitoring Agent; and
- (iii) calculating the value of those Collateral Assets the value of which is in dispute by using reasonable endeavours to seek four actual, firm and executable quotations at mid-market for such Collateral Assets with contract sizes approximately equal to the value of such Collateral Assets from leading dealers in assets of the type of the Collateral Assets who are committed to trade with the Issuer or the Counterparty, which may include Société Générale, as selected by the Collateral Agent in its sole discretion acting in a commercially reasonable manner, and taking the weighted average of those obtained; provided that if four quotations are not available for a particular Collateral Asset, then fewer than four quotations may be used for that Collateral Asset, and if no quotations are available for a particular Collateral Asset, then the Collateral Agent's original calculations will be used for the Collateral Asset.

Following a recalculation pursuant to the Collateral Test Dispute Resolution Procedure, the Collateral Agent shall issue a **Post Dispute Collateral Test Notice** to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) containing the Collateral Value, Required Collateral Value and any adjustments to be made to the Collateral Pool such that the Collateral Test will be satisfied, in each case determined in accordance with the Collateral Test Dispute Resolution Procedure, as soon as possible but in any event not later than the 30th Collateral Business Day following delivery of the Collateral Monitoring Agent Notice. A Post Dispute Collateral Test Notice issued following the conclusion of a Collateral Test Dispute Resolution Procedure shall be binding on the Collateral Agent and the Collateral Monitoring Agent and shall not be subject to further verification by the Collateral Monitoring Agent. For the avoidance of doubt, the determination of the Collateral Value, Required Collateral Value and the adjustments to be made to a Collateral Pool in accordance with the Collateral Test Dispute Resolution Procedure will not constitute an Event of Default.

11. REQUIRED SETTLEMENT PERIOD

The delivery of the Collateral Assets for the adjustments to be made to the Collateral Pool in accordance with a Collateral Test Notice, First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable, shall be settled on or before the tenth (10th) Collateral Business Day following delivery of such Collateral Test Notice or, where such Collateral Test Notice is followed by a Collateral Monitoring Agent Notice, such delivery shall be settled on or before the tenth Collateral Business Day following delivery of the First Level Revised Collateral Test Notice, Second Level Revised Collateral Test Notice or Post Dispute Collateral Test Notice, as applicable (such period the **Required Settlement Period**); provided however that this ten (10) Collateral Business Day period may be extended up to a maximum additional period of sixty (60) Collateral Business Days (i) if the adjustments to be made to the Collateral Pool have not been settled as a result of an event beyond the control of the Collateral Agent, the Collateral Monitoring Agent and the Issuer (including, but not limited to, as a result of a failure or inability of the relevant clearing system to clear the relevant Collateral Assets) (an **External Event**) or (ii) in relation to Collateral Assets for which the regular settlement period is greater than ten Collateral Business Days under normal market conditions ((i) and (ii) being referred to as a **Collateral Settlement Disruption**). During the above additional sixty

Collateral Business Day period, the Collateral Agent may propose the replacement of the affected Collateral Assets by other Collateral Assets complying with the Collateral Rules and the Eligibility Criteria, or propose any other relevant measures so that the Collateral Test is satisfied. If at the end of the sixty Collateral Business Day period (i) the External Event(s) continue(s) to exist or (ii) the Collateral Assets for which the regular settlement period is greater than ten Collateral Business Days under normal market conditions have not been settled, this shall constitute a Collateral Disruption Event.

12. COLLATERAL SUBSTITUTION

If "*Collateral Substitution*" is specified as being applicable in the applicable Final Terms, the Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a Collateral Test Notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following a day on which such Collateral Test Notice is given by the Issuer (or the Collateral Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

13. NOTIFICATION OF SETTLEMENT FAILURE

The Collateral Custodian shall notify the Issuer, the Collateral Agent and the Collateral Monitoring Agent if the settlement of any transfer of Collateral Assets has not completed within the common market practice timeframe for settlement of the type of Collateral Asset being so transferred. For the avoidance of doubt, such notification shall be taken into account when assessing whether settlement has occurred during the Required Settlement Period described above.

14. EARLY REDEMPTION FOLLOWING THE OCCURRENCE OF A COLLATERAL DISRUPTION EVENT

If the Issuer or the Collateral Agent determines that a Collateral Disruption Event has occurred, the Issuer may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Secured Notes at the Early Redemption Amount following the occurrence of a Collateral Disruption Event calculated on the basis of the Market Value (as defined Condition 5.9 of the General Terms and Conditions of the Notes), as specified in the applicable Final Terms.

Collateral Disruption Events are defined in the Conditions and include, but are not limited to, the Issuer being unable, after using commercially reasonable efforts, to acquire the necessary Collateral Assets or being subject to materially increased costs in acquiring Collateral Assets or the Issuer being unable, after using commercially reasonable efforts, to find a suitable substitute or replacement Collateral Arrangement Party (as defined below) following the termination of the relevant agreements or resignation or removal, for any reason, of any Collateral Arrangement Party.

For the avoidance of doubt, the occurrence of a Collateral Disruption Event will not constitute an Event of Default.

15. DEFAULT IN PROVISION OF COLLATERAL ASSETS

The Issuer shall be deemed to have defaulted in relation to its obligation to provide the required level of Collateral Assets in relation to a particular Collateral Pool if:

- (i) following receipt of a Collateral Monitoring Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice):
 - (A) no First Level Revised Collateral Test Notice or Dispute Notice has been sent; or
 - (B) no Second Level Revised Collateral Test Notice or Dispute Resolution Procedure Notice has been sent; or
 - (C) no Post Dispute Collateral Test Notice has been sent,

in each case on or before the fifth Collateral Business Day following the date on which the Collateral Agent had the obligation to send such notice to the Collateral Monitoring Agent; or

- (ii) except in the case of a Collateral Settlement Disruption, the Issuer or the Collateral Agent (on behalf of the Issuer) fails to deliver the additional necessary Collateral Assets within the Required Settlement Period and such failure results in the Collateral Test not being satisfied for 5 consecutive Collateral Business Days following the end of such Required Settlement Period (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have been actually been transferred to the relevant Collateral Account shall be taken into account). For the avoidance of doubt, in the case of a Collateral Settlement Disruption, if at the end of the 60 Collateral Business Day period (i) the External Event(s) continue(s) to exist or (ii) the Collateral Assets for which the regular settlement period is greater than 10 Collateral Business Days under normal market conditions have not been settled, this shall constitute a Collateral Disruption Event and not an Event of Default.

The occurrence of an event specified in paragraph 15(i) or 15(ii) above is hereinafter referred to as a **Required Collateral Default**.

Following the occurrence of a Required Collateral Default, the Collateral Monitoring Agent will send a notice (a **Required Collateral Default Notice**) to the Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian, the Security Trustee or the Security Agent (as the case may be), specifying that a Required Collateral Default has occurred as soon as reasonably practicable and in any case within two Collateral Business Days. The Issuer or failing which the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes) shall give notice as soon as reasonably practicable to all relevant Noteholders if a Required Collateral Default Notice has been received.

16. EVENTS OF DEFAULT, GUARANTEE AND COLLATERAL ENFORCEMENT

Secured Notes will be subject to the same Events of Default as are applicable to Unsecured Notes. In addition, Secured Notes will be subject to an additional Event of Default if the Collateral Monitoring Agent delivers a Required Collateral Default Notice in relation to a Collateral Pool securing such Secured Notes.

Following the occurrence of an Event of Default in relation to a Series of Secured Notes, a Noteholder (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) may give written notice to the Issuer, the Guarantor and the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes) that the Notes held by such Noteholder (or by a Noteholder represented by the Representative of the Masse in the case of French Law Notes) are immediately due and repayable at their Early Redemption Amount (as defined in the General Terms and Conditions of the Notes) (the delivery of such a notice being hereafter referred to as a **Secured Note Acceleration Event**). If a Secured Note Acceleration Event

occurs in relation to one or more Secured Notes (such Notes being **Accelerated Secured Notes**), all Secured Notes which are secured by the same Collateral Pool as the one securing such Accelerated Secured Note(s) will also become immediately due and repayable at their Early Redemption Amount. This applies both in the case of a Single Series Collateral Pool and in the case of a Multiple Series Collateral Pool. The Issuer or failing which the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes) shall give notice as soon as reasonably practicable to all relevant Noteholders if a Secured Note Acceleration Event has occurred in relation to one or more Secured Notes which are secured by the same Collateral Pool as the relevant Accelerated Secured Notes.

Following the occurrence of a Secured Note Acceleration Event, all Noteholders whose Notes have become immediately due and payable will first be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee. If neither the Issuer nor the Guarantor (pursuant to the terms of the Guarantee) has paid all amounts due to Noteholders within a period of 3 Collateral Business Days following the occurrence of a Secured Note Acceleration Event, Noteholders (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a Noteholder) may send a notice in writing (a **Collateral Enforcement Notice**) to the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes) requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof.

Following receipt of a Collateral Enforcement Notice, the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes) will enforce the relevant Pledge Agreement relating to the Collateral Pool in accordance with the terms thereof and the Additional Terms and Conditions for Secured Notes (as completed by the applicable Final Terms) and will either (i) liquidate or realise or will give instructions to The Bank of New York Mellon, London Branch, acting as disposal agent (the **Disposal Agent**) or any successor, pursuant to the terms of a disposal agency agreement between, *inter alia*, the Issuer and the Disposal Agent (the **Disposal Agency Agreement**) to liquidate or realise the Collateral Assets in the Collateral Pool in relation to which a Collateral Enforcement Notice has been delivered and subsequently distribute the relevant Collateral Enforcement Proceeds Share (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders or (ii) if Physical Delivery of Collateral Assets applies, arrange for delivery of the relevant Collateral Assets Entitlement (as defined in the Additional Terms and Conditions for Secured Notes) to the relevant Noteholders, in each case in accordance with the Order of Priority specified in the applicable Final Terms. The payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, may, at the request of the Security Trustee or the Security Agent, as the case may be, be undertaken by the Substitute Paying Agent (as defined below) or any replacement entity thereof.

For the avoidance of doubt, following the payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any due and unpaid amounts.

Although the Pledge Agreement relating to a particular Collateral Pool may only be enforced following a failure by the Issuer or the Guarantor to pay accelerated amounts due after the occurrence of a Secured Note Acceleration Event within the 3 Collateral Business Days period referred to above, the security provided pursuant to the Pledge Agreement remains security granted by the Issuer in relation to the Issuer's payment obligations under the Secured Notes and does not secure the payment obligations of the Guarantor under the Guarantee.

17. PHYSICAL DELIVERY OF COLLATERAL ASSETS DISRUPTION EVENT

If Physical Delivery of Collateral Assets applies, in certain circumstances, if, in the opinion of the Substitute Paying Agent, the Security Trustee or the Security Agent, as the case may be, delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement is not possible for a specified period of time, then the Security Trustee or the Security Agent, as the case may be, or the

Disposal Agent on their behalf, in lieu of physical settlement, shall sell or realise such undeliverable Collateral Assets and deliver the proceeds thereof to Noteholders.

18. REPLACEMENT OF PROGRAMME PARTIES

Each of the Collateral Agency Agreement, the Collateral Monitoring Agency Agreement, the Collateral Custodian Agreement, the Note Valuation Agency Agreement, the Substitute Paying Agency Agreement, the Disposal Agency Agreement and the Security Agency Agreement contain, and each Pledge Agreement and Security Trust Deed will contain, provisions for the termination of such agreement and, as the case may be, the removal and/or replacement of the role of any party appointed thereunder (each a **Collateral Arrangement Party**). Any such termination, removal and/or replacement will be effected in accordance with the provisions of such agreements and the Additional Terms and Conditions for Secured Notes and may be effected without the consent of Noteholders. In accordance with the terms of such agreements and/or the Additional Terms and Conditions for Secured Notes, the Issuer shall be required to give notice to Noteholders of any such termination, removal and/or replacement.

In particular, the replacement of the Collateral Custodian may only be effected when certain conditions relating to the substitute Collateral Custodian are fulfilled. Such conditions include, but are not limited to a requirement that the substitute Collateral Custodian is:

- (i) incorporated in an Organisation for Economic Co-operation and Development (OECD) member country,
- (ii) a fully licensed credit institution in Luxembourg,
- (iii) , in the reasonable opinion of the Issuer and the Arranger, able to act as Collateral Custodian and fulfil the obligations and duties expressed to be binding on it pursuant to the terms of the Collateral Custodian Agreement and
- (iv) chosen from a pre-established list of entities (including BBH, Citi, HSBC, JP Morgan, Northern Trust, RBC Dexia Investor Services, BNP Paribas Securities Services, State Street or Wells Fargo & Company Inc) or otherwise is a custodian of similar repute and good standing.

19. SUBSTITUTE PAYING AGENT

The Issuer has appointed The Bank of New York Mellon, London Branch or any successor thereto as substitute paying agent in relation to all Secured Notes (the **Substitute Paying Agent**) pursuant to the terms of a substitute paying agency agreement (the **Substitute Paying Agency Agreement**) between, *inter alia*, the Issuer and the Substitute Paying Agent. Following the delivery of a Collateral Enforcement Notice, the Substitute Paying Agent shall act as agent pursuant to the terms of the Substitute Agency Agreement solely for the purposes of assisting with the payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement to Noteholders (if so requested by the Security Trustee (in the case of English Law Notes or Uncertificated Notes) or the Security Agent (in the case of French Law Notes)).

ADDITIONAL TERMS AND CONDITIONS RELATING TO SECURED NOTES

The provisions of these Additional Terms and Conditions for Secured Notes apply if the applicable Final Terms specify that the clause "*Secured Notes Provisions*" is stated as being "*Applicable*".

The terms and conditions applicable to Secured Notes shall comprise (a) either (i) the Terms and Conditions of the English Law Notes and Uncertificated Notes or (ii) the Terms and Conditions of the French Law Notes and (b) these Additional Terms and Conditions, in each case subject to completion and/or amendment in the applicable Final Terms.

In the event of any inconsistency between the Terms and Conditions of the English Law Notes and Uncertificated Notes or the Terms and Conditions of the French Law Notes on the one hand and these Additional Terms and Conditions on the other hand, these Additional Terms and Conditions shall prevail.

In the event of any inconsistency between (i) the Terms and Conditions of the English Law Notes and Uncertificated Notes or the Terms and Conditions of the French Law Notes and/or these Additional Terms and Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail.

3.2 Single and Multiple Series Collateral Pools

A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool. Where the applicable Final Terms in respect of a Series of Secured Notes specify that "Single Series Collateral Pool" will be applicable to the Series of Secured Notes, such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool. Where the applicable Final Terms specify that "Multiple Series Collateral Pool" will be applicable to the relevant Series of Secured Notes, such Series of Secured Notes may be secured by a Collateral Pool which secures more than one Series of Secured Notes.

Noteholders acquiring and holding Secured Notes where "Multiple Series Collateral Pool" is specified as being applicable in the applicable Final Terms will, by acquiring and holding such Secured Note, be deemed to acknowledge, accept and agree to the rights of other Noteholders of different Series of Secured Notes to share equally in the security created over the Collateral Assets in the Multiple Series Collateral Pool.

If "Collateral Substitution" is specified as applicable in the applicable Final Terms, SG Issuer (or the Collateral Agent on its behalf) may withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. SG Issuer (or the Collateral Agent on its behalf) will send or cause to be sent a notice to the Collateral Monitoring Agent and the Collateral Custodian (copied to SG Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed). The Collateral Business Day immediately following a day on which such notice is given by SG Issuer (or the Collateral Agent on its behalf) for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date.

3.6 Delegation to Collateral Agent

SG Issuer may, pursuant to the terms of the Collateral Agency Agreement, delegate to the Collateral Agent the role of managing each Collateral Pool to comply with the requirements of these Additional Terms and Conditions (including, but not limited to, compliance with Conditions 3.4 and 3.5).

All calculations and determinations made in respect of the Secured Notes by the Collateral Agent, Collateral Monitoring Agent and Note Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on SG Issuer, the Guarantor, the Noteholders and the Security Trustee or the Security Agent.

Each of the Collateral Agent, Collateral Monitoring Agent and Note Valuation Agent may, with the consent of SG Issuer, delegate any of their obligations and functions to a third party as provided for in the Collateral Agency Agreement, Collateral Monitoring Agency Agreement and Note Valuation Agency Agreement, as applicable.

5. DEFAULT, ENFORCEMENT AND REALISATION

5.1 Default and Enforcement of Collateral

If a Secured Note Acceleration Event occurs, all Secured Notes which are secured by the same Collateral Pool as the one securing the relevant Accelerated Secured Note will also become immediately due and repayable at their Early Redemption Amount. SG Issuer or failing which the Security Trustee or the Security Agent shall give notice in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable, as soon as reasonably practicable to all relevant Noteholders if a Secured Note Acceleration Event has occurred in relation to one or more Secured Notes which are secured by the same Collateral Pool as such Noteholders.

Following the occurrence of a Secured Note Acceleration Event in relation to a Secured Note, the Pledge Agreement relating to the Collateral Pool securing such Series of Secured Notes will not become immediately enforceable but instead Noteholders whose Notes have become immediately due and repayable in accordance with this Condition 5.1 will initially be entitled to claim for any outstanding amounts due to them under the terms of the Guarantee.

If neither SG Issuer nor the Guarantor has paid all amounts due to Noteholders of a Series of Secured Notes in relation to which a Secured Note Acceleration Event has occurred within a period of 3 Collateral Business Days following notification to Noteholders of the occurrence of a Secured Note Acceleration Event, any holder of Notes of such Series (or the Representative of the Masse in the case of French Law Notes acting pursuant to the request of a holder of Notes of such Series) will be entitled to send a Collateral Enforcement Notice to the Security Trustee or the Security Agent requesting that the relevant Pledge Agreement be enforced in accordance with the terms thereof.

The Security Trustee or the Security Agent shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to SG Issuer, the Guarantor, the Collateral Agent, the Collateral Custodian and the other Noteholders whose Notes are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.

5.2 Enforcement and Realisation of Collateral Assets

Upon receipt of a Collateral Enforcement Notice, the Security Trustee or the Security Agent will enforce the relevant Pledge Agreement relating to the relevant Collateral Pool in accordance with the terms thereof and these Additional Terms and Conditions (as completed by the applicable Final Terms) and will (i) give instructions to the Disposal Agent to liquidate or realise the Collateral Assets in each Collateral Pool which secures a Series of Secured Notes in accordance with Condition 5.6 and subsequently distribute the relevant Collateral Enforcement Proceeds Share to relevant Noteholders in accordance with Condition 5.5 or (ii) where Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Collateral Assets Entitlement to the relevant Noteholders in accordance with Condition 5.8, in each case after payment of any amounts payable to the Secured Parties ranking prior to the holders of the Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms (such amounts to be paid either out of the proceeds of such liquidation or realisation of Collateral Assets or out of the proceeds transferred by the Noteholders in accordance with Condition 5.8)).

5.3 Liability of the Security Trustee and the Security Agent

Neither the Security Trustee nor the Security Agent will, in the absence of negligence, fraud and wilful misconduct, have any liability as to the consequence of any enforcement or realisation action and neither will have regard to the effect of such action on individual Noteholders.

5.4 Enforcement and Realisation by Noteholders

No Noteholder or the Representative of the Masse in the case of French Law Notes shall be entitled to enforce a Pledge Agreement or to proceed directly against SG Issuer to enforce the other provisions of a Pledge Agreement unless the Security Trustee or the Security Agent, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Trustee or the Security Agent is prevented from enforcing a Pledge Agreement by any court order.

5.5 Application and distribution of proceeds of enforcement

Unless "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, in connection with the enforcement of a Pledge Agreement, after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with Condition 5.6, the Security Trustee or the Security Agent shall use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms. Following

such payment the Security Trustee or the Security Agent shall determine the Collateral Enforcement Proceeds Share in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable.

Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of Noteholders under the Secured Notes which are secured by the relevant Collateral Pool (taking into account any amounts which have been paid to Noteholders by the Guarantor pursuant to the terms of the Guarantee) *pro rata* to the Collateral Enforcement Proceeds Share of each such Secured Note. Such claim will be adjusted in accordance with the following rules:

- If the Collateral Enforcement Proceeds Share for a particular Secured Note is greater than the Owed Amount defined as the difference between (A) the amount due to such Noteholder, by the Issuer in respect of the Notes, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid to such Noteholder by the Issuer or the Guarantor in respect of this particular Secured Note, then such excess amount will not be distributed to such Noteholder but will be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;
- otherwise, if the Collateral Enforcement Proceeds Share for a particular Secured Note is lower than, the Owed Amount then, in accordance with Condition 6 below, such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

5.6 Method of realisation of Collateral Assets

Subject as may otherwise be provided for in these Additional Terms and Conditions or the applicable Final Terms, in effecting the sales, the Security Trustee (in relation to English Law Notes or Uncertificated Notes), the Security Agent (in relation to French Law Notes) or, in either case, the Disposal Agent on their behalf may sell the Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf may effect sales of the Collateral Assets (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or in the over-the counter market.

In general the Security Trustee and the Security Agent shall be able to exercise any right regarding the realisation of the Collateral Assets in accordance with article 11 of the Collateral Act 2005 including but not limited to the appropriation of the Collateral Assets at their value as determined by the Collateral Agent as at the most recent Collateral Test Date.

Where the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is required or requested to dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then, in compliance with the relevant provisions of the Collateral Act 2005:

- (a) the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of designated tranches thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf may itself provide a bid in respect of the relevant Collateral Assets or any tranche thereof; and

- (c) the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf shall be authorised to accept in respect of each relevant tranche or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf (when providing such quotations themselves, the Security Trustee, the Security Agent or the Disposal Agent shall act in a commercially reasonable manner)).

5.7 Inability to realise Collateral Assets

If the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Condition 5.6, for a period of one year from the date of the relevant Secured Note Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee or the Security Agent shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant Noteholders in accordance with Condition 5.8 and the Order of Priority specified in the applicable Final Terms.

If Delivery of any Non-Realised Collateral Assets is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, the Security Trustee, the Security Agent or the Disposal Agent on their behalf, shall be entitled to either (i) sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (ii) Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible.

5.8 Physical Delivery of Collateral Assets

Where "*Physical Delivery of Collateral Assets*" is specified in the applicable Final Terms, following enforcement of a Pledge Agreement, the Security Trustee or the Security Agent will determine the Collateral Assets Entitlement in respect of each Secured Note and shall notify such amounts to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable.

Subject as provided below, the Security Trustee or the Security Agent will either:

- realise and liquidate sufficient Collateral Assets in accordance with Condition 5.6, to ensure payment of any amounts payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms, or
- upon transfer of sufficient funds by the Noteholders, pay any such amount payable to the Secured Parties ranking prior to the holders of Non Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payment, the Security Trustee or the Security Agent will notify Noteholders of the relevant Collateral Delivery Date and will Deliver the Collateral Assets Entitlement to the Noteholders of the Secured Notes secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in the applicable Final Terms, subject to the following provisions:

- If the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is greater than the Owed Amount defined as the difference between (A) the amount due to such Noteholder, by the Issuer in respect of the Notes, or by the Guarantor under the terms of the Guarantee and (B) any amounts which have been paid by the Issuer or the Guarantor to such Noteholder in respect of this particular Secured Note, then assets from the Collateral Assets Entitlement for a value equal to such excess amount will be liquidated and the

proceeds thereof will then be distributed to the Secured Parties ranking after the holders of Non-Waived Notes in accordance with the Order of Priority specified in the applicable Final Terms;

- otherwise, when the market value of the Collateral Assets contained in a Collateral Assets Entitlement (based on the valuations of the market value of such assets by the Collateral Monitoring Agent on the Collateral Test Date immediately preceding the delivery of the Collateral Enforcement Notice) for a particular Secured Note is lower than the Owed Amount, then, in accordance with Condition 6 such Noteholder shall not be entitled to any further recourse against the Issuer for such shortfall amount, but may claim any payment of such shortfall amount from the Guarantor under the terms of the Guarantee.

5.9 Physical Delivery of Collateral Assets Disruption Event

- 5.9.1 ***If, in the opinion of the Substitute Paying Agent, the Security Trustee or the Security Agent, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Substitute Paying Agent, the Security Trustee or the Security Agent has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Substitute Paying Agent, the Security Trustee or the Security Agent may elect in its sole discretion to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Substitute Paying Agent, the Security Trustee or the Security Agent deems appropriate in connection with delivery of the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner.***

For the avoidance of doubt, where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be delivered to a Noteholder, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.

- 5.9.2 ***If Delivery of any Collateral Assets forming part of the Collateral Assets Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days (or such other period specified in the applicable Final Terms), then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Trustee or the Security Agent, or, in either case, the Disposal Agent on their behalf, shall sell or realise the Undeliverable Collateral Assets and deliver the proceeds thereof to Noteholders in the manner set out in Conditions 5.5 and 5.6.***
- 5.9.3 ***If the Security Trustee, the Security Agent or, in either case, the Disposal Agent on their behalf is unable to either (i) sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Condition 5.6 or (ii) Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Secured Note Acceleration Event, the Security Trustee, the Security Agent or the Disposal Agent shall be entitled to accept the first available price for such Collateral Assets.***

The Security Trustee or the Security Agent or the Substitute Paying Agent on their behalf, shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 of the General Terms and Conditions of the Notes, as applicable, that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Secured

Notes in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to SG Issuer, the Guarantor, the Security Trustee or the Security Agent.

5.10 Use of Substitute Paying Agent

The payment of any Collateral Enforcement Proceeds Share or the delivery of any Collateral Assets Entitlement, may, at the request of the Security Trustee or the Security Agent, be undertaken by the Substitute Paying Agent pursuant to the terms of the Substitute Paying Agency Agreement.

6. SEGREGATION OF COLLATERAL POOLS AND LIMITED RECOURSE AND NON-PETITION

6.1 Limited Recourse against SG Issuer

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of SG Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes. If:

- (a) there are no relevant Collateral Assets in the relevant Collateral Pool remaining which are capable of being realised or otherwise converted into cash;
- (b) all amounts available from the relevant Collateral Assets in the relevant Collateral Pool have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions; and
- (c) there are insufficient amounts available from the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Pledge Agreement and these Additional Terms and Conditions, amounts outstanding under the Secured Notes (including payments of principal, premium (if any) and interest),

then the Noteholders of such Secured Notes shall have no further claim against SG Issuer in respect of any amounts owing to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Notes). In particular, no Noteholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Notes held by such Noteholder.

For the avoidance of doubt, in such a scenario, Noteholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts.

6.2 Non-petition

By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that no Noteholder shall be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of SG Issuer.

7. COLLATERAL DISRUPTION EVENTS

Upon the occurrence, as determined by SG Issuer or the Collateral Agent, in each case acting in good faith, of a Collateral Disruption Event, SG Issuer may at its option and in its sole discretion consider such event as an event triggering an early redemption of the relevant Secured Notes at the Early Redemption Amount following occurrence of a collateral disruption event specified in the applicable Final Terms.

FORM OF DEED OF GUARANTEE

THIS DEED OF GUARANTEE is made on 26 October 2015 by Société Générale (the **Guarantor**) in favour of the Noteholders (as defined in the Programme Agreement (as defined below)) and the holders for the time being of interest coupons (if any) appertaining to the Notes (the **Coupons**, which expression shall include the receipts for the repayment of principal in instalments (if any) appertaining to the Notes), the Coupons being attached on issue to Definitive Bearer Note(s) (as defined below). Each Noteholder and each holder of a Coupon is a **Holder**.

WHEREAS:

1. SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe (the **Issuers** and each an **Issuer**) and the Guarantor have entered into a Programme Agreement dated 26 October 2015 (the **Programme Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) with the Dealers named therein under which each Issuer proposes from time to time to issue Debt Instruments (the **Notes**, such expression to include each Definitive Bearer Note, each Definitive Bearer SIS Note, each Definitive Registered Note, each Global Note, each Uncertificated Note, each Registered Note, each Materialised Note and each Dematerialised Note issued by an Issuer (the terms "Definitive Bearer Note", "Definitive Registered Note", "Global Note", "Uncertificated Note" and "Registered Note" have the meanings ascribed thereto in the Terms and Conditions of the English Law Notes and the Uncertificated Notes (as set out in the base prospectus dated 26 October 2015 (the **Base Prospectus**)), and the terms "Materialised Note" and "Dematerialised Note" have the meanings ascribed thereto in the Terms and Conditions of the French Law Notes (as set out in the Base Prospectus), and to include any receipts issued in respect of Notes repayable in instalments);
2. each Issuer has executed a Deed of Covenant (the **Deed of Covenant**) dated 26 October 2015 relating to Global Notes (other than Permanent Global SIS Notes) issued by that Issuer pursuant to the Programme Agreement; with effect from the date hereof, this Deed of Guarantee (the **Deed of Guarantee**) will apply only in relation to Notes issued on or after such date; and
3. the Issuers and the Guarantor have entered into an Agency Agreement dated 26 October 2015 in relation to the English Law Notes and a French Law Agency Agreement dated 26 October 2015 in relation to the French Law Notes (respectively, the **Agency Agreement** and the **French Law Agency Agreement** and together, the **Agency Agreements**, which expressions include the same as they may be amended, supplemented or restated from time to time) with the Fiscal Agent, the Registrar and other parties named therein.

NOW THIS DEED WITNESSES as follows:

1. Guarantee

Subject as provided herein, the Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Holder that, if for any reason, the relevant Issuer does not pay any sum payable by it to such Holder in respect of any Note or Coupon or (if applicable) under the Deed of Covenant (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing), as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Holder on demand the amount payable by the relevant Issuer to such Holder as if such payment was made by the Issuer in accordance with the terms and conditions of the Notes.

All references in this Guarantee to sums or amounts payable by the Issuer shall (if applicable) be to such sums and/or amounts as reduced or otherwise modified from time to time resulting from the application of a bail-in by any relevant authority and, for the avoidance of doubt, the provisions of clauses 2 and 5 shall be construed accordingly.

Notes issued before 26 October 2015 continue to have the benefit of any previous deed of guarantee applicable thereto made by the Guarantor prior to this Deed of Guarantee. Notes issued prior to 19

December 2003 by SG Australia Limited (ABN 72 002 093 021) shall continue to have the benefit of any deed of guarantee applicable thereto made by the Guarantor prior to such date.

2. Guarantor as Principal Debtor

This Guarantee is one of payment and not of collection. Without affecting the relevant Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the relevant Issuer or any other person, (b) any amendment to any Note, any Coupon or (if applicable) the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the relevant Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Note, any Coupon, (if applicable) the Deed of Covenant or of any security or other guarantee or indemnity, (e) any contractual defences such as set-off, recoupment and counterclaim not available to the Issuer, (f) the release of any such security, guarantee or indemnity, (g) the dissolution, amalgamation, reconstruction or reorganisation of the relevant Issuer or any other person, or (h) the illegality, invalidity or unenforceability of or any defect in any provision of any Note, any Coupon or (if applicable) the Deed of Covenant or any of the relevant Issuer's obligations under any of them).

3. Guarantor's Obligations Continuing

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Note, any Coupon or (if applicable) the Deed of Covenant. Any amendments to this Deed of Guarantee prejudicial to the interest of the Noteholders shall only apply to Notes issued after the date of such amendments. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Holder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

4. Repayment to the Issuer

If any payment received by a Holder is, on the subsequent liquidation or insolvency of the relevant Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the relevant Issuer.

5. Indemnity

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable by the relevant Issuer under any Note, any Coupon or (if applicable) the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the relevant Issuer, the Guarantor or any Holder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Holder on demand. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Holder.

6. Status of Guarantee

In respect of any Notes, the obligation of the Guarantor under this Guarantee constitutes a direct, unconditional, unsecured and general obligation of the Guarantor and ranks and will rank *pari passu* with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits.

7. Incorporation of Conditions

So long as any of the Notes remain outstanding (as defined in the Agency Agreements) the Guarantor will comply with the provisions applicable to it in the Conditions of the Notes as though the same were set out in full herein.

8. Power to execute

The Guarantor hereby warrants, represents and covenants with each Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms, subject to any obligations mandatorily preferred by law.

9. Deposit of Guarantee

This Guarantee shall take effect as a deed poll for the benefit of the Holders from time to time and for the time being. This Guarantee shall be deposited with and held by Société Générale Bank & Trust, for the benefit of the Holders until all the obligations of the Guarantor have been discharged in full.

10. Production of Guarantee

The Guarantor hereby acknowledges the right of every Holder to the production of, and the right of every Holder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Holder, and that each Holder shall be entitled severally to enforce the said obligations against the Guarantor.

11. Subrogation

Until all amounts which may be payable under the Notes, the Coupons and/or (if applicable) the Deed of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Holder or claim in competition with the Holders against the relevant Issuer.

12. Transfer/assignment

Upon any Substitution pursuant to the terms and conditions of the Notes, this Guarantee shall remain in full force and effect and thereafter be construed as if each reference herein to the Issuer were a reference to the Substituted Debtor.

13. Contracts (Rights of Third Parties) Act 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

14. Governing Law and Jurisdiction

This Guarantee and any non-contractual obligations arising out of or in connection with it are governed by and shall be construed in accordance with English law. The Guarantor irrevocably agrees that the courts of England are to have jurisdiction to settle any dispute which may arise out of or in connection with this Guarantee (including any dispute relating to any non-contractual obligations arising out of or in connection with this Guarantee) and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with this Guarantee (including any Proceedings relating to any non-contractual obligations arising out of or in connection with this Guarantee) may be brought in the courts of England.

The Guarantor irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any Proceedings in the courts of England and irrevocably agrees that a final judgment in any

Proceedings brought in the courts of England shall be conclusive and binding upon the Guarantor and may be enforced in the courts of any other jurisdiction. Nothing contained in this Clause shall limit any right to take Proceedings against the Guarantor in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.

The Guarantor hereby appoints Société Générale, London Branch (SGLB), currently of SG House, 41, Tower Hill, London EC3N 4SG, as its agent for service of process in England in respect of any Proceedings and undertakes that in the event of SGLB ceasing so to act, it will appoint another person as its agent for that purpose.

IN WITNESS whereof this Guarantee has been executed and delivered as a deed on behalf of the Guarantor.

1. INDEX RULES OVERVIEW

The Index is calculated and published by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (the "**Index Calculation Agent**") and is sponsored by Société Générale (the "**Index Sponsor**"). Lyxor AM (the "**Index Advisor**") advises the scientific committee of the Index, composed of Index Sponsor and Index Advisor representatives, as to certain parameters of the Index, such as the composition of the underlying basket.

Main Characteristics

Bloomberg ticker:	SGIXHETR <Index>
Type of Return:	Net Total Return
Calculation Frequency:	Daily
Publication Time:	End of Day
Index Launch Date:	June 6, 2011
Currency:	EUR
Fees and Costs:	As specified under the "Index Fees and Costs" section below
Index Asset Class:	Multi-Asset
Index Components:	Equity Instrument, Debt Instrument, Commodity Instrument and Market Data

1.2 Mechanism

1.2.1 Index Composition

The Index is composed of a dynamic basket of indices and funds (each, a "**Basket Component**", together the "**Underlying Basket**") where the weightings are determined on a monthly basis by the Index Advisor in accordance with a methodology described under 1.2.2 below.

In order to keep the risks associated with the Index under a certain limit, the Index also includes a volatility control mechanism, where the exposure of the Index to such Underlying Basket varies on a daily basis in accordance with input parameters described under 1.2.3 below.

1.2.2 Composition and Monthly Review of the Underlying Basket

The composition and allocation of the Underlying Basket is reviewed on a monthly basis according to a proprietary model based on a momentum filter and the Equal-Risk Contribution methodology developed by the Index Advisor. The resulting weightings are applied to the Basket Components so as to determine the composition of the Underlying Basket. The non-Euro-denominated Basket Components are hedged against currency risk on a daily basis. The allocation of the Underlying Basket as of 11th September 2015 is displayed in Appendix 1.

1.2.3 Daily "Vol Target" Mechanism

The Index is constructed pursuant to a daily Vol Target process where the deemed exposure of the Index to the Underlying Basket (the "**Exposure**") is based on a formula using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;

- (ii) a target volatility of 6%; and
- (iii) the historical volatility of the Index itself;

so that, in most cases:

- when the volatility of the Underlying Basket exceeds 6%, the Exposure will generally be less than 100% (subject to a minimum Exposure of 0%) and the Index will be exposed to money market instruments referencing the Euribor Rate for the difference between 100% and the Exposure.
- when the volatility of the Underlying Basket falls below 6%, the Exposure will generally be greater than 100% (subject to a maximum Exposure of 150%), such leveraged Exposure being obtained at a rate based on the Euribor Rate.

1.3 Index Fees and Costs

The Index is calculated net of the following fees and costs:

Index Advisory Fees:	0.20% per annum accrued daily calculated on the Index Level
Replication Costs:	As per Appendix 1 under RC(i,t)
Transaction Costs:	As per Appendix 1 under TC(i,t)

Such fees and costs may be modified by the Index Sponsor from time to time based on prevailing market conditions.

1.4 Information available on the SGI website

The Index Level (as well as performance and volatility of the Index derived thereof), further Index data and important disclaimers relating to the Index are available on the SGI website at the following address: <https://www.sgindex.com/index.php?id=122&bbg=SGIXHETR>.

Net reinvested return reflects the return to an investor where dividends are reinvested after the deduction of a withholding tax. The tax rate applied is the rate to non-resident institutions that do not benefit from double taxation treaties. The net reinvested return series approximate the returns available to an investor based in Luxembourg and reflect the minimum possible dividend reinvestment as the highest tax rates are theoretically applied to Luxembourg-based investors. The rates applied are the current effective rates and are sourced from Ernst & Young's Worldwide Corporate Tax Guide and the Economic Intelligence Unit. These rates are maintained and updated to reflect any ongoing changes.

- a) if the Basket Component Type is a Fund

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times [(FNAV(i,t) + Div(i,t)) / FNAV(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360]$$

3. REVIEW OF THE BASKET COMPONENTS TARGET WEIGHTS**3.1 Weights Optimization****3.1.1 General Principle**

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of risk-budgeting. The objective the ERC portfolio (**ERC Portfolio**) is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed to build an ERC Portfolio is the covariance matrix (the **Covariance Matrix**) of the ERC Portfolio's components.

3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution (**MRC**) corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Basket Component. It is calculated by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

Where,

$\partial_{x_i} \sigma(I)$ means the MRC of Basket Component i to the volatility of the Index

$\sigma(I)$ means the volatility of the Index

x_i means the weight considered for Basket Component i

3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Index Advisor on the Review Date using 3-day returns for each Basket Component over the last 262 trading days according to the following formula:

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

Where:

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$ means the kth 3-day return of Basket Component i

\bar{r}_i means the average of the n 3-day returns of Basket Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns "over the last 262 trading days" shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Calculation Date following the day that is 262 Scheduled Calculation Dates before the Review Date (included) up to the Review Date.

3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive
- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i (\Sigma x)_i - x_j (\Sigma x)_j)^2$$

3.2 Underlying Basket Composition

The weights resulting from optimization process described in 3.2 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Basket Component must be strictly positive
- the sum of the weightings of the Basket Components must be equal to 1
- the weighting of each Basket Component must not exceed the Maximum Target Weight (as defined in Appendix 1) applicable to it as per its Basket Component Asset Class
- the tracking error of the resulting allocation vs the ERC Portfolio shall remain close to or below 3%

The composition of the Underlying Basket shall be implemented on the close of the subsequent Rebalancing Dates, effective on the immediately following Scheduled Calculation Dates.

4. INDEX DISRUPTION EVENTS

4.1 Index Disruption Remedies

If an Index Disruption Event occurs on a Scheduled Calculation Date (a "**Disrupted Day**"), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a "**Disrupted Calculation Date**"), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Calculation Date and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:
 - (a) if the Index Disruption Event is a Basket Component Disruption Event in relation to one or some of the Basket Component(s) only (such Basket Component(s) the "**Affected Basket Component(s)**"):
 - (x) the level or price of the Affected Basket Component(s) using (α) the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case as determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination as if no Index Disruption Event existed;

- (b) if the Index Disruption Event is a Market Data Disruption Event in relation to one or some of the Market Data only (such Market Data the "**Affected Market Data**"):
 - (x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination as if no Index Disruption Event existed; and
 - (y) the level of the Affected Market Data determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination; or
- (c) If the Index Disruption Event is a Basket Component Disruption Event in relation to one or some of the Basket Component(s) (the "**Affected Basket Component(s)**") and a Market Data Disruption Event in relation to one or some of the Market Data (such Market Data the "**Affected Market Data**"):
 - (x) the level or price of the Affected Basket Component(s) using (α) the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of the Affected Market Data determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination.

Notwithstanding the foregoing Section 4.1, on any day from the first Disrupted Calculation Date but no later than the twentieth Scheduled Calculation Date following the initial Disrupted Day, if an Index Disruption Event has been continuing on each such days, the Index Sponsor shall convene the Index Scientific Committee, which will decide to (each an "**Index Disruption Remedy**"):

- (i) adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or
- (ii) continue the determination of the Index Level pursuant to section 4.1(ii) for another maximum period of twenty Scheduled Calculation Dates (a "**Disruption Period Extension**"), provided that after such period, the Index Scientific Committee shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one; or
- (iii) permanently cancel the Index if neither of the Index Disruption Remedies (i) and (ii) above constitute suitable remedies for such Index Disruption Event, as determined by the Index Scientific Committee.

For the purposes of this section 4.1:

"Index Disruption Event" means (i) in respect of any Index Component that is a Basket Component, the occurrence or existence of a Basket Component Disruption Event or, (ii) in respect of an Index Component that is Market Data, a Market Data Disruption Event, which in any case the Index Calculation Agent, after instruction from the Index Sponsor, determines is material.

7.2 Exceptional Review

The Index Rules may, by decision of the Index Scientific Committee pursuant to the Index Scientific Committee Governance, be supplemented, amended or revised in whole or in part, which may lead to changes in the way the Index is compiled and calculated or affect the Index in another way, notably (but without limitation) in order to resume the calculation of the Index following the occurrence of an Index Disruption Event or an Index Extraordinary Event.

7.3 Index Scientific Committee Governance

8. ADDITIONAL PROVISION

In circumstances where the Index Sponsor makes a decision or where a resolution is adopted by the Index Scientific Committee as the case may be (together the "**Decisions**"), with respect to the methodology of calculation and/or the allocation of the Index, and the Index Calculation Agent determines that it can no longer calculate the Index to obtain the Index Level according to the Index Rules as amended by such Decisions, the Index Calculation Agent shall notify the Index Sponsor of such impossibility together with the grounds thereof. Upon receipt of such notification, the Index Sponsor shall modify its decision or, as the case may be, convene a new meeting of the Index Scientific Committee in order to adopt a new resolution, in a manner which would allow the calculation of the Index by the Index Calculation Agent provided that it preserves the economic construction of the Index (the "**New Decisions**"). II. Harmonia Index (EUR – Excess Return)

1.1 Index Description

The SGI Harmonia Index – EUR Excess Return (the "**Index**") is designed to provide the excess return of the SGI Harmonia Index – EUR Net Total Return (the "**Sub-Index**") over the Euribor 3-Month Rate (the "**EURIBOR Rate**").

The Index is calculated and published by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (the "**Index Calculation Agent**") and is sponsored by Société Générale (the "**Index Sponsor**").

Main Characteristics

Bloomberg ticker:	SGIXHEER <Index>
Type of Return:	Excess Return
Calculation Frequency:	Daily
Publication Time:	End of Day
Index Launch Date:	June 6, 2011
Currency:	EUR
Fees and Costs:	As specified under the "Description of Sub-Index" section below
Index Asset Class:	Multi-Asset
Index Components:	Equity Instrument, Debt Instrument, Commodity Instrument and Market Data

1.2 Sub-Index description

The Sub-Index is designed to track the performance of a dynamic exposure to a Euro-hedged multi asset allocation (the "**Underlying Basket**") of indices and funds (each a "**Sub-Index Component**"), where weights are determined in order to make the risk contribution of each component of the Underlying Basket equal.

The allocation of the Underlying Basket is reviewed on a monthly basis according to a systematic allocation model as provided by Lyxor Asset Management (the "**Sub-Index Advisor**"). The Sub-Index is constructed pursuant to a variable exposure to the Underlying Basket used to optimize, under certain circumstances, the exposure to the Underlying Basket while keeping the risk level of the Sub-Index close to a pre-defined target level. The exposure to the Underlying Basket, through the use of the hypothetical borrowing, can reach a maximum of 150% of the level of the Sub-Index.

Certain parameters of the Sub-Index, like *inter alia* the composition of the Underlying Basket, may be reviewed periodically by a scientific committee (the "**Sub-Index Scientific Committee**").

The Sub-Index Scientific Committee will comprise three (3) members: two (2) of whom shall be a representative of Société Générale (the "**Sub-Index Sponsor**") and one (1) of whom shall be a representative of the Sub-Index Advisor.

In addition, the rules of Sub-Index (the "**Sub-Index Rules**") may, by decision of the Sub-Index Scientific Committee pursuant to the Sub-Index Scientific Committee Governance (as specified in the Index Rules), be supplemented, amended or revised in whole or in part, which may lead to changes in the way the Sub-Index is compiled and calculated or affect the Sub-Index in another way.

The Sub-Index level is determined net of

- advisory and administration fees of 0.20% per annum;
- transaction costs; and
- replication costs

The initial transaction costs and replication costs are displayed in Appendix 1.

These costs may be reviewed by the Sub-Index Sponsor to reflect a change in market conditions.

1.3 Sub-Index and Underlying Basket strategy

1.3.1 Sub-Index strategy

The constituents of the Sub-Index are (a) the Underlying Basket, (b) a hypothetical deposit based on the 3-Month Euro Interbank Offered Rate (the "**EURIBOR Rate**") and (c) a hypothetical borrowing based on the EURIBOR Rate. The deemed percentage exposure of the Sub-Index to the Underlying Basket (the "**Exposure**") is determined based on formulas (defined in the Sub-Index Rules) using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;
- (ii) a target volatility of 6%;
- (iii) the historical volatility of the Sub-Index itself;

such that, in most cases, when the short-term historical volatility of the Underlying Basket increases, the deemed exposure to the Underlying Basket decreases, and when the short-term historical volatility of the Underlying Basket decreases, the deemed exposure to the Underlying Basket increases.

The Exposure is capped at 150% of the Sub-Index Level and can be as low as 0%.

If the short-term historical volatility is greater than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be less than 100%. If the Exposure is less than 100%, (a) a percentage of the Sub-Index's level is deemed invested in the Underlying Basket in an amount equal to the product of (i) the Exposure and (ii) the Sub-Index Level; and (b) the remaining percentage of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is equal to the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be 100%. If the Exposure is equal to 100%, then 100% of the Sub-Index's level is deemed invested in the Underlying Basket and no portion of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is less than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be greater than 100% (subject to a maximum Exposure of 150%). If the Exposure of the Sub-Index to the Underlying Basket is greater than 100%, then 100% of the Sub-Index's level is deemed invested in the Underlying Basket and no portion of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate. Furthermore, (a) the Sub-Index is deemed to have invested an additional amount into the Underlying Basket equal to the product of (i) the Sub-Index Level and (ii) the difference of the Exposure and 100% (the "**Additional Exposure**") and (b) the Sub-Index is deemed to have borrowed funds equal to the product of (i) the Sub-Index Level and (ii) the Additional Exposure at a rate based on the EURIBOR Rate. The deemed additional investment in the Underlying Basket will increase the Sub-Index's exposure to the Underlying Basket, while the deemed borrowing will reduce the level of the Sub-Index.

1.3.2 Underlying Basket strategy

The Underlying Basket Index reflects the performance of an optimized allocation across the Sub-Index Components. Each month, this allocation is reviewed according to the Equal-Risk Contribution ("ERC") methodology developed by the quantitative research team of the Sub-Index Advisor. The resulting weighting scheme is applied to the Sub-Index Components to determine the composition of the Sub-Index for the following month.

The non Euro-denominated Sub-Index Components are hedged against currency risk using 1-month FX forward swaps.

The allocation of the Underlying Basket as of 11th September 2015 is displayed in Appendix 1.

$$IL(t) = IL(t-1) \times [SIL(t) / SIL(t-1) - ER(t-1) \times ACT(t-1, t) / 360]$$

3. REVIEW OF THE SUB-INDEX COMPONENTS 3.1 Weights Optimization

3.1.1 General Principle

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of risk-budgeting. The objective the ERC portfolio ("**ERC Portfolio**") is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed the build an ERC Portfolio is the covariance matrix (the "**Covariance Matrix**") of the portfolio's components.

3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution ("MRC") corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Sub-Index Component. It is given by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

With

$\partial_{x_i} \sigma(I)$ means the MRC of Sub-Index Component i to the volatility of the Index

$\sigma(I)$ means the volatility of the Index

x_i means the weight considered for Sub-Index Component i

3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Sub-Index Sponsor on the Review Date (as defined in the Sub-Index rules) using 3-day returns for each Sub-Index Component over the last 262 trading days according to the following formula :

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

With

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$ means the kth 3-day return of Sub-Index Component i

\bar{r}_i means the average of the n 3-day returns of Sub-Index Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns "over the last 262 trading days" shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Valuation Day following the day that is 262 Scheduled Valuation Days before the Review Date (included) up to the Review Date.

3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive
- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i (\Sigma x)_i - x_j (\Sigma x)_j)^2$$

3.2 Index Composition

The weights resulting from optimization process described in 3.1 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Sub-Index Component must be strictly positive
- the sum of the weightings of the Sub-Index Components must be equal to 1
- the weighting of each Sub-Index Component must not exceed the Maximum Target Weight (as defined in Appendix 1) applicable to it as per its Sub-Index Component Asset Class
- the tracking error of the resulting allocation vs the ERC portfolio shall remain close to or below 3%

The composition shall be implemented on the close of the subsequent Rebalancing Dates, (as defined in the Sub-Index rules), effective on the immediately following Scheduled Valuation Day.

4. INDEX DISRUPTION EVENT REMEDIES:

If an Index Disruption Event occurs on a Scheduled Valuation Day (a "**Disrupted Day**"), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Valuation Day that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Valuation Days immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Valuation Day following the initial Disrupted Day, and each Scheduled Valuation Day that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a "**Disrupted Calculation Date**"), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Valuation Day and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:
 - (a) if the Index Disruption Event is a Sub-Index Disruption Event in relation to the Sub-Index only:
 - (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case as determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of each of the EURIBOR Rate as described in the definition of such EURIBOR Rate on the relevant date(s) of determination as if no Index Disruption Event existed;
 - (b) if the Index Disruption Event is a EURIBOR Disruption Event in relation to the EURIBOR Rate only:
 - (x) the level or price of the Sub-Index as described in the definition of such Sub-Index, on the relevant date(s) of determination as if no Index Disruption Event existed; and

- (y) the level of the EURIBOR Rate determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination; or
- (c) If the Index Disruption Event is a Sub-Index Disruption Event in relation to the Sub-Index and a EURIBOR Disruption Event in relation to the EURIBOR Rate:
 - (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case determined in good faith, after instruction from the Index Sponsor; and
 - (y) the level of the EURIBOR Rate determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination.

Notwithstanding the foregoing Section 4, on any day from the first Disrupted Calculation Date but no later than the twentieth Scheduled Valuation Day following the initial Disrupted Day, if an Index Disruption Event has been continuing on each such days, the Index Sponsor will decide to (each a **"Index Disruption Remedy"**):

- a. adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or
- b. continue the determination of the Index Level pursuant to section 4(ii) for another maximum period of twenty Scheduled Valuation Days (a **"Disruption Period Extension"**), provided that after such period, the Index Sponsor shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one; or
- c. permanently cancel the Index if neither of the Index Disruption Remedies (i) and (ii) above constitute suitable remedies for such Index Disruption Event, as determined by the Index Sponsor.

5. EXTRAORDINARY EVENT REMEDIES:

If an Index Extraordinary Event or an Additional Extraordinary Event occurs on a Scheduled Valuation Day (an **"Extraordinary Event Day"**), then the Index Calculation Agent, after instruction from the Index Sponsor, may suspend the calculation of the Index Level on such Extraordinary Event Day, in which case the next Calculation Date shall be the first succeeding Scheduled Valuation Day on which the Index Extraordinary Event or Additional Extraordinary Event has been remedied as follows; provided that no later than the twentieth Scheduled Valuation Day following the initial Extraordinary Event Day, the Index Sponsor shall decide to (each, an **"Extraordinary Event Remedy"**):

- (a) adjust any relevant terms of the Index Rules (including, without limitation, a reduction of the weight of or a full removal of the relevant Index Component) in a manner that preserves the economic characteristics of the Index; or
- (b) replace the relevant Index Component with a new component of similar characteristics; or
- (c) permanently cancel the Index if neither of the Extraordinary Event Remedies provided in sections (a) and (b) above constitute suitable remedies for such Index Extraordinary Event, as determined by the Index Sponsor.

For the purposes of this Section:

Upon receipt of such notification, the Index Sponsor shall modify its decision or, as the case may be convene a new meeting of the Index Scientific Committee in order to adopt a new resolution, in a manner which would allow the calculation of the Index by the Index Calculation Agent provided that it preserves the economic construction of the Index (the **"New Decisions"**). Once made by the Index Sponsor or adopted by the Index Scientific Committee as the case may be, such New Decisions shall be sent to the Index Calculation Agent and be conclusive and binding.

The Harmonia Index (EUR – Excess Return) is the exclusive property of SG. SG has contracted with S&P to maintain and calculate the index. S&P shall have no liability for errors or omissions in calculating the index.

3. REVIEW, REBALANCING AND CALCULATION OF THE INDEX LEVEL

3.1 Eligible Components

The list of eligible shares (each, an "**Eligible Component**") that may be included in the Index comprises:

- (i) Shares of Companies that derive the largest part of their revenues and/or have exploring assets in South-Africa, Northern Africa including Egypt and Morocco and Sub-Sahara excluding South Africa (each a "**Zone**");
- (ii) Shares listed on the Exchanges specified under Appendix 1; where Shares traded on the Johannesburg Exchange are only Shares issued by Companies headquartered in South-Africa.

3.2 Index Composition

The Shares in the Index are then selected by the Index Sponsor among the Eligible Components pursuant to a two-step process:

Step 1 – Components Selection

For each Zone, the Index Sponsor ranks the Eligible Components according to (1) their free-float market capitalization and (2) their average daily volume, and selects the 10 highest ranked Shares, provided that at least 10 Eligible Components exist for such Zone.

Step 2 – Components Weighting

The Index Sponsor determines the weighting of each Share in order to maximize the diversification and liquidity of the Index, pursuant to the following process:

- (i) Inside each Zone, the Shares are initially weighted according to their relative free float market capitalization;
- (ii) The Share weightings are then adjusted in order to match the following constraints while minimizing the variation relative to the initial weightings:
 - a. each Share weighting shall not exceed 10% of the Index;
 - b. each Share weighting shall not exceed 10 times the average daily volume divided by EUR 200 million (the "**Index Capacity**");
 - c. each Zone shall represent a weighting close to 33.33% of the Index.

3.3 Index Review and Rebalancing

The list of Eligible Components is reviewed quarterly by the Index Sponsor and the Share selection and their weighting in the Index are reviewed accordingly in order to ensure the continuous relevance of the composition of the Index and to maintain the Index.

On each Scheduled Review Date and Scheduled Rebalancing Date, the Index Sponsor may revise the number of components, the Index Capacity and the Zone breakdown to be able to match the

diversification and liquidity constraints defined by the systematic allocation process described above, provided however that no Zone may represent less than 25% and more than 50% of the Index.

3.4 Index Level Calculation and Adjustment

THE INDEX SHALL BE CALCULATED AND ADJUSTED BY THE INDEX CALCULATION AGENT AS PER THE RELEVANT PROVISIONS OF THE S&P DOW JONES INDICES – INDEX MATHEMATICS METHODOLOGY DATED DECEMBER 2012, AS AMENDED FROM TIME TO TIME THEREAFTER (THE "**INDEX CALCULATION AGENT METHODOLOGY**"), AVAILABLE FROM THE INDEX CALCULATION AGENT WEBSITE AT THE FOLLOWING ADDRESS :

<http://www.spindices.com/documents/index-policies/methodology-index-math.pdf>

- For the Net Total Return calculations and the dividend reinvestment : Section 7 – Total Return Calculations

The withholding tax applicable to dividends is determined pursuant to the reference Index Calculation Agent reference table "Withholding Tax Rates" as amended from time to time thereafter, available from the Index Calculation Agent website at the following address: <http://us.spindices.com/resource-center/index-policies/>

In order to complete the information extracted from the Index Calculation Agent website Section 3 - Modified Market Capitalization Weighted Indices and Section 7 – Total Return Calculations, definitions relating to the reproduced formulas are also included below :

Modified Market Capitalization Weighted Indices)

Definition

A modified market cap weighted index is one where index constituents have a user- defined weight in the index. This methodology is typically used for indices where some constituents are confined to a maximum weight, and the excess weight is distributed proportionately among the remaining index constituents. Between index rebalancings, corporate actions generally have no effect on index weights, as they are fixed through the processes defined below. As stock prices move, the weights will shift and the modified weights will change. Therefore, as in the case of an equal-weighted index, a modified market cap weighted index must be rebalanced from time to time to re-establish the proper weighting.

The overall approach to calculate modified market cap weighted indices is the same as in the cap-weighted indices; however, the constituents' market values are re-defined to be values that will achieve the user-defined weighting at each rebalancing. Recall two basic formulae:

Formule (17) :

$$\text{Index Level} = \frac{\text{Index Market Value}}{\text{Divisor}}$$

et

Formule (18) :

$$\text{Index Market Value} = \sum_i P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}$$

To calculate a modified market cap weighted index, the market capitalization for each stock used in the calculation of the index is redefined so that each index constituent has the appropriate user-defined weight in the index at each rebalancing date.

In addition to being the product of the stock price, the stock's shares outstanding, and the stock's float factor (IWF), as written above – and the exchange rate when applicable – a new adjustment factor is also introduced in the market capitalization calculation to establish the appropriate weighting.

Formule (19) :

$$\text{Adjusted Stock Market Value}_i = P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}_i * \text{AWF}_i$$

where AWF_i is the adjustment factor of stock i assigned at each index rebalancing date, t , which adjusts the market capitalization for all index constituents to achieve the user-defined weight, while maintaining the total market value of the overall index.

The AWF for each index constituent, i , on rebalancing date, t , is calculated by:

Formule (20) :

$$\text{AWF}_{i,t} = \frac{Z}{\text{FloatAdjustedMarketValue}_{i,t}} * W_{i,t}$$

where Z is an index specific constant set for the purpose of deriving the AWF and, therefore, each stock's share count used in the index calculation (often referred to as modified index shares). $W_{i,t}$ is the user-defined weight of stock i on rebalancing date t .

The index divisor is defined based on the index level and market value from equation (17). The index level is not altered by index rebalancings. However, since prices and outstanding shares will have changed since the last rebalancing, the divisor will change at the rebalancing.

So:

Formule (20a) :

$$(\text{Divisor})_{\text{after rebalancing}} = \frac{(\text{Index Market Value})_{\text{after rebalancing}}}{(\text{Index Value})_{\text{before rebalancing}}}$$

Where,

Formule (20b) :

$$\text{Index Market Value} = \sum_i P_i * \text{Shares}_i * IWF_i * FxRate_i * AWF_i$$

Corporate Actions and Index Adjustments

The tables below shows the necessary adjustments to the index and the divisor for managing a modified market cap weighted index. *For more information on the treatment of corporate actions, please refer to the S&P Dow Jones Indices' Corporate Actions Policies & Practices Methodology. For more information on the specific treatment within an index family, please refer to that index methodology.*

TOTAL RETURN CALCULATIONS

The preceding discussions were related to price indices where changes in the index level reflect changes in stock prices. In a total return index changes in the index level reflect both movements in stock prices and the reinvestment of dividend income. A total return index represents the total return earned in a portfolio that tracks the underlying price index and reinvests dividend income in the overall index, not in the specific stock paying the dividend.

The total return construction differs from the price index and builds the index from the price index and daily total dividend returns. The first step is to calculate the total dividend paid on a given day and convert this figure into points of the price index:

Formula (40) :

$$TotalDailyDividend = \sum_i Dividend_i * Shares_i$$

Where Dividend is the dividend per share paid for stock i and Shares are the shares. This is done for each trading day. Dividend_i is generally zero except for four times a year when it goes ex-dividend for the quarterly dividend payment. Some stocks do not pay a dividend and Dividend is always zero. TotalDailyDividend is measured in dollars. This is converted to index points by dividing by the divisor for the underlying price index:

Formula (41) :

$$IndexDividend = \frac{TotalDailyDividend}{Divisor}$$

The next step is to apply the usual definition of a total return from a financial instrument to the price index. Equation (40) gives the definition, equation (41) applies it to the index:

$$Total\ Return = \left(\frac{P_t + D_t}{P_{t-1}} \right) - 1$$

and

Formula (43)

$$DTR_t = \left(\frac{IndexLevel_t + IndexDividend_t}{IndexLevel_{t-1}} - 1 \right)$$

Formula (43) :

where the TotalReturn and the daily total return for the index (DTR) is stated as a decimal. The *DTR* is used to update the total return index from one day to the next:

Formula (44) :

$$Total\ Return\ Index_t = (Total\ Return\ Index_{t-1}) * (1 + DTR_t)$$

4. CAS DE PERTURBATION D'INDICE

4.1 Conséquences d'un Cas de Perturbation d'Indice

Si un Cas de Perturbation d'Indice survient à une Date de Calcul Prévue (un « **Jour de Perturbation** »), l'Agent de Calcul de l'Indice, sur instruction du Sponsor de l'Indice, ne calculera pas le niveau de l'Indice ce Jour de Perturbation. La Date de Calcul suivante sera la première Date de Calcul Prévue suivante qui n'est pas un Jour de Perturbation pour l'un quelconque des Composants de l'Indice, tel que déterminé par l'Agent de Calcul de l'Indice, sur instruction du Sponsor de l'Indice, à moins que chacune des cinq Dates de Calcul Prévues qui suit immédiatement le premier Jour de Perturbation ne soit également un Jour de Perturbation pour l'un quelconque des Composants de l'Indice, dans ce cas :

- (i) la cinquième Date de Calcul Prévue suivant le premier Jour de Perturbation, et chacune des Dates de Calcul Prévues suivantes qui est un Jour de Perturbation sera réputée être une Date de Calcul (chacune, une « **Date de Calcul Perturbée** »), nonobstant l'existence d'un Cas de Perturbation d'Indice à cette date et uniquement pour les besoins du calcul du Niveau de l'Indice ; et
- (ii) cette cinquième Date de Calcul Prévue et chaque Date de Calcul Perturbée suivante, l'Agent de Calcul de l'Indice calculera le Niveau de l'Indice sur la bases des niveaux et prix suivants :

- (a) Si le Cas de Perturbation d'Indice est un Cas de Perturbation du Composant du Panier affectant un ou plusieurs Composant(s) du Panier uniquement (ce Composant du Panier étant le « **Composant du Panier Affecté** »):
 - (x) le niveau ou prix du Composant du Panier Affecté en utilisant le dernier niveau ou prix de ce(s) Composant(s) du Panier Affecté(s) disponible avant la survenance du Cas de Perturbation du Composant du Panier; et
 - (y) le niveau de chacune des Données du Marché spécifié dans sa définition à la ou aux dates(s) de détermination comme si aucun Cas de Perturbation de l'Indice n'existait;
- (b) si le Cas de Perturbation d'Indice est un Cas de Perturbation Donnée du Marché affectant une ou plusieurs Données du Marché uniquement (une telle ou de telles Donnée(s) du Marché étant la ou les « **Donnée(s) du Marché Affectée(s)** »):
 - (x) le niveau ou le prix de chaque Composant du Panier spécifié dans sa définition à la ou aux date(s) de détermination comme si aucun Cas de Perturbation d'Indice n'existait ; et
 - (y) le niveau de la ou des Donnée(s) Affectée(s) déterminé de bonne foi, sur instruction du Sponsor de l'Indice, en utilisant les paramètres de marché appropriés à la date ou aux date(s) de détermination concernée(s), ou
- (c) si le Cas de Perturbation d'Indice est un Cas de Perturbation du Composant du Panier affectant un ou plusieurs Composant(s) du Marché (le ou les « **Composant(s) du Marché Affecté(s)** ») et un Cas de Perturbation Donnée du Marché affectant une ou plusieurs Donnée(s) du Marché (cette ou ces Donnée(s) du Marché étant la ou les « **Donnée(s) du Marché Affectée(s)** »):
 - (x) le niveau ou le prix du ou des Composant(s) du Panier Affecté en utilisant le dernier niveau ou prix relevé de ce Composant de Marché Affecté avant la survenance du Cas de Perturbation du Composant du Panier en question, et
 - (y) le niveau de la ou des Donnée(s) Affectée(s) déterminé de bonne foi, sur instruction du Sponsor de l'Indice, en utilisant les paramètres de marché appropriés à la date ou aux date(s) de détermination concernée(s).

Nonobstant la précédente Clause 4.1, et au plus tard vingt Dates de Calcul Prévue suivant le Jour de Perturbation initial si un Cas de Perturbation d'Indice a perduré au cours de chacun de ces jours, le Sponsor de l'Indice annulera définitivement l'Indice à cette vingtième Date de Calcul Prévue, à moins que le Sponsor de l'Indice ne décide que l'une des conséquences visées aux points (i) et (ii) ci-après (chacune une "**Conséquence en cas de Perturbation de l'Indice**") constitue une conséquence convenable à ce Cas de Perturbation de l'Indice :

- (i) d'ajuster les termes des Règles de l'Indice concernés de façon à préserver les caractéristiques économiques de l'Indice ; ou
- (ii) de poursuivre la détermination du Niveau de l'Indice conformément à la Clause 4.1.ii pour une autre période de vingt Dates de Calcul Prévue (une « **Extension de la Période de Perturbation** »), à la condition qu'à la suite de cette période, le Sponsor de l'Indice décidera à nouveau entre les Conséquences d'un Cas de Perturbation d'Indice, incluant un reconduite de l'Extension de la Période de Perturbation, sous réserve d'un maximum de trois extensions de ce type, incluant la première.

Pour les besoins de cette Clause :

« **Cas de Perturbation d'Indice** » désigne (i) pour tout Composant de l'Indice qui est un Composant du Panier, la survenance ou existence d'un Cas de Perturbation d'un Composant du Panier, ou (ii) pour tout Composant de l'Indice qui est une Donnée du Marché, un Cas de Perturbation Donnée du Marché, dont l'Agent de Calcul de l'Indice déterminera, sur instruction du Sponsor de l'Indice, dans chaque cas, qu'elle est substantielle.

« **Cas de Perturbation du Composant du Panier** » désigne un Cas de Perturbation Action.

4.2 Cas de Perturbation Action

« **Cas de Perturbation Action** » désigne (a) une Perturbation des Négociations, (b) une Perturbation du Marché, dont l'Agent de Calcul de l'Indice déterminera, sur instruction du Sponsor de l'Indice, dans chaque cas, qu'elle est substantielle, ou (c) une Clôture Anticipée.

A cet effet:

- (a) « **Perturbation des Négociations** » désigne, pour un Instrument Titre de Capital qui est une Action, toute suspension ou limitation des négociations imposée par le Marché ou le Marché Lié concerné ou autrement, que ce soit en raison de fluctuations de cours excédant les limites permises par le Marché ou le Marché Lié concerné ou autrement, (a) de l'Action, ou (b) sur les contrats à terme ou les contrats d'options sur tout Marché Lié concerné relatifs à ces Actions ;
- (b) « **Perturbation du Marché** » désigne, pour un Instrument Titre de Capital qui est une Action, tout événement (autre qu'une Clôture Anticipée) qui perturbe ou réduit la capacité des participants au marché en général d'effectuer des transactions sur ou d'obtenir des cours de marché pour (a) l'Action, ou (b) des contrats à terme ou contrats d'options relatifs à l'Action;
- (c) « **Clôture Anticipée** » désigne la clôture, lors de tout Jour de Bourse, dans le cas d'un Instrument Titre de Capital qui est une Action, de (α) tout(tous) Marché(s) concerné(s) pour l'Action, ou (β) de tout Marché Lié pour des contrats à terme ou contrats d'options relatifs à l'Action, avant leur Heure de Clôture, à moins que cette clôture anticipée ne soit annoncée par ce Marché ou par ce Marché Lié (selon le cas) une heure au moins avant la première des heures suivantes: (x) l'heure réelle de clôture de la séance normale de négociation sur ce Marché ou ce Marché Lié (selon le cas) lors de ce Jour de Bourse, ou (y) l'heure limite de soumission des ordres devant être entrés dans le système du Marché ou du Marché Lié pour exécution à l'Heure de Clôture Prévue pour ce Jour de Bourse.

4.3 Cas de Perturbation Donnée du Marché

« **Cas de Perturbation Donnée du Marché** » désigne, pour un Composant de l'Indice qui est une Donnée du Marché la non-publication du niveau de toute Donnée du Marché utilisée par l'Agent de Calcul de l'Indice afin de calculer l'Indice.

5. EVÉNEMENTS EXTRAORDINAIRES

5.1 Conséquences d'un Événement Extraordinaire

Si un Événement Extraordinaire affectant l'Indice survient au titre d'un ou plusieurs Composants de l'Indice à une Date de Calcul Prévue (un "**Jour d'Événement Extraordinaire**"), l'Agent de Calcul de l'Indice, après avoir reçu une instruction à cet effet du Sponsor de l'Indice, pourra suspendre le calcul du Niveau de l'Indice lors de ce Jour d'Événement Extraordinaire, auquel cas la prochaine Date de Calcul sera la première Date de Calcul Prévue suivante lors de laquelle il aura été remédié à l'Événement Extraordinaire affectant l'Indice dans les conditions suivantes ; étant précisé que le Sponsor de l'Indice annulera définitivement l'Indice dès que possible et au plus tard lors de la vingtième Date de Calcul Prévue suivant le Jour d'Événement Extraordinaire, à moins que le Sponsor de l'Indice ne décide que l'une des conséquences visées aux points (a) et (b) ci-après (chacune une "**Conséquence en cas d'Événement Extraordinaire**") constitue une conséquence convenable à cet Événement Extraordinaire affectant l'Indice :

- a. ajuster les dispositions pertinentes des Règles de l'Indice (y compris, sans caractère limitatif, en procédant à une réduction de la pondération du ou des Composants de l'Indice concernés, ou en supprimant totalement ce ou ces Composants de l'Indice) d'une manière qui préserve les caractéristiques économiques de l'Indice ; ou

- b. remplacer le Composant de l'Indice concerné par un nouveau composant présentant des caractéristiques similaires.

Pour les besoins de la présente Section :

"Événement Extraordinaire affectant l'Indice" désigne un Événement Extraordinaire Action, un Événement Extraordinaire affectant des Données du Marché ou un Événement Extraordinaire Additionnel, tels que définis ci-dessous, dont l'Agent de Calcul de l'Indice détermine dans chaque cas, après avoir reçu une instruction du Sponsor de l'Indice à cet effet, qu'il est significatif.

- C. **"Nationalisation"** désigne le cas dans lequel toutes les Actions ou la totalité ou la quasi-totalité des actifs d'une société seraient nationalisés ou expropriés ou devraient autrement être cédés à toute agence, autorité ou entité gouvernementale ou à toute émanation de celle-ci.

- B. un « **Changement de Donnée du Marché** » signifie que la Donnée du Marché est remplacée par une donnée du marché ou un indice lui succédant ce qui n'est pas acceptable pour l'Agent de Calcul de l'Indice, après instruction du Sponsor de l'Indice.

3.1 Determination of the Excess Return Index Closing Level "ER(t)" and Excess Return Index Level "ER(t,v)":

3.1.1 Determination of the Excess Return Index Closing Level "ER(t)":

The Excess Return Index Closing Level will be calculated and published by the Index Calculation Agent on every Calculation Date (t) at the Closing Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$ER(t) = ER(t-1) \times \left(\frac{CRW(t-1, C_{Active}) \times CSL(t, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t, C_{NextActive})}{CRW(t-1, C_{Active}) \times CSL(t-1, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t-1, C_{NextActive})} \right)$$

with,

$$ER(t_0) = 10000 \text{ (as of the Index Launch Date)}$$

3.1.2 Determination of the Index Level "ER(t,v)":

The Excess Return Index Level will be calculated and published by the Index Calculation Agent on every Calculation Date (t) at the Valuation Time (v), subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$\begin{aligned} &ER(t, v) \\ &= ER(t-1) \\ &\times \left(\frac{CRW(t-1, C_{Active}) \times CL(t, v, C_{Active}) + CRW(t-1, C_{NextActive}) \times CL(t, v, C_{NextActive})}{CRW(t-1, C_{Active}) \times CSL(t-1, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t-1, C_{NextActive})} \right) \end{aligned}$$

3.2 Determination of the Contract Roll Weights, "CRW(t,C)":

The composition of the Index, determined according to the rules set out in the Sections above, is implemented progressively from the Roll Start Date (included) to the Roll End Date (included) (the "**Roll Period**").

In effect, during the Roll Period, the composition of the Index is modified, i.e. the active composition of the Index, defined as the selection of Active Contracts and their related Contract Roll Weights (CRW_{Active}) (the "**Active Composition**"), is replaced by the next active composition of the Index, defined as the selection of Next Active Contracts and their related Contract Roll Weights ($CRW_{NextActive}$) (the "**Next Active Composition**").

Subject to the occurrence of an Index Disruption Event affecting a Contract comprising the Index, the Contract Roll Weight (CRW) for any date (t) between the Calculation Date immediately preceding the Roll Start Date and the Roll End Date is determined as follows:

Calculation Date (t)	Active Contract Weight, CRW(t-1, C _{Active})	Next Active Contract Weight, CRW(t-1, C _{NextActive})
$t \leq t_{\text{RollStart}}$	100%	0%
$t_{\text{RollStart}} + 1$	80%	20%
$t_{\text{RollStart}} + 2$	60%	40%
$t_{\text{RollStart}} + 3$	40%	60%

- (iii) the material suspension of trading, on the relevant Exchange, in such Index Component, provided that such suspension shall be deemed material only if (i) all trading in the relevant Contract is suspended for the entire Scheduled Trading Day or (ii) trading in the relevant Contract is suspended during the relevant Scheduled Trading Day on the relevant Exchange, such suspension is announced less than one hour preceding the commencement of such suspension and trading does not recommence prior to the regularly scheduled close of trading in such Index Component;

4.2 Consequences of an Index Disruption Event

4.2.1 Consequences of an Index Disruption Event outside of the Roll Period

If an Index Disruption Event affects, on any Calculation Date, one or more Contracts comprising the Index, and such Calculation Date is not during a Roll Period, then the Index Calculation Agent shall determine the level of the Index on such Calculation Date as follows:

For the Contract affected by the Index Disruption Event, a settlement price will be determined, after instruction from the Index Sponsor, by retaining either (i) the settlement price of the Contract as determined or made public on that Scheduled Trading Day or (ii) the last trading price observed for such Contract prior to the occurrence of the relevant Index Disruption Event, using relevant market indicia on the relevant date(s) of determination.

4.2.2 Consequences of an Index Disruption Event during a Roll Period

- (a) on the first Calculation Date on which a Market Disruption Event affects one or more Index Components then the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{NextActive})$ of such Index Component at the close of such Calculation Date will be equal to the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{nextactive})$ of such Calculation Date. The Daily Roll Proportion at the close of such Calculation Date will be equal to 0.
- (b) Following such occurrence, on each Calculation Date immediately following such first Calculation Date on which a Market Disruption Event still affects such Index Components, the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{nextactive})$ of such Index Component with respect to such Calculation Date will be equal to the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{NextActive})$ on the immediately preceding Calculation Date.
- (c) Within the Roll Period, on the first Calculation Date on which there is no Market Disruption Event affecting such Index Component, the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{nextactive})$ of such Index Component with respect to such Calculation Date will be equivalent to the $CRW(t-1, C_{Active})$ and the $CRW(t-1, C_{nextactive})$ on the immediately preceding Calculation Date. The Daily Roll Proportion on such Calculation Date will be equal to the sum of (1) the portion of Index Components that did not roll due to the occurrence of a Market Disruption Event affecting such Index Component and (2) the portion of Index Components scheduled to roll on such day, if any.
- (d) If, at the close of the Roll End Date, a Market Disruption Event affects one or more Index Component, the entire roll (or the portion of the roll that remains) will occur on the first day on which a Market Disruption Event does not exist.

Notwithstanding the foregoing, In the event that a Market Disruption Event continues to affect one or more Index Components on the fifth Business Day following the Roll End Date, the Index Calculation Agent shall:

- (i) roll the portion of Index Components that did not roll due to the occurrence of a Market Disruption Event affecting such Index Component on the fifth Business Day. As a consequence, the entire roll (or the portion of the roll that remains) will occur on the fifth Business Day following the Roll End Date, and
- (ii) determine the Contract Settlement Level by using:
 - (1) the Contract Settlement Level determined and published on the fifth Business Day following the Roll End Date, if any, or

- (2) the Contract Settlement Level calculated by the Calculation Agent in good faith and in a commercially reasonable manner.

4.3 Cancellation

Notwithstanding the foregoing Section 4.1, if an Index Disruption Event continues for twenty consecutive Scheduled Trading Days, then the Index Sponsor shall, after consultation with the Index Calculation Agent, either (each a "**Disruption Remedy**").

- (i) amend the Index Rules in a manner that preserves the economic characteristics of the Index,
- (ii) permanently cancel the Index, or
- (iii) decide to continue the determination of the Excess Return Index Level (or, if the real time determination of an Index Level is rendered impractical, the Excess Return Index Closing Level) as provided in section 3.1. above for another period of twenty (20) Scheduled Trading Days (a "**Disruption Period Extension**"), provided that after such period, the Index Sponsor shall decide again between the Disruption Remedies above, subject to a maximum of three Period Extension, including the first one.

5. INDEX EXTRAORDINARY EVENT:

5.1 Replacement in a Contract

If an Index Component is (i) not calculated and announced by the relevant Exchange but is calculated and announced by a successor Exchange acceptable to the Index Calculation Agent, after instruction from the Index Sponsor, or (ii) replaced by a successor Contract using, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index Component, then in each case that successor Contract will replace such Index Component.

In the event that the Contract is replaced under any circumstance described in the previous paragraph, that replacement Contract will be deemed a "Successor Contract" for such Contract. Such Successor Contract will be used as a substitute for the original Contract for all purposes, including for purposes of determining a settlement price and whether an Index Disruption Event exists with respect to such Contract.

5.2 Contract Cancellation

If the relevant Exchange cancels an Index Component on or prior to any Calculation Date and no Successor Contract exists, the Index Calculation Agent shall not determine the level for the Index for such Calculation Date. If such cancellation without replacement continues for twenty Scheduled Trading Days, then the Index Sponsor shall, after consultation with the Index Calculation Agent either (each a "**Extraordinary Event Remedy**")

- (i) amend the Index Rules in a manner that preserves the economic characteristics of the Index,
- (ii) permanently cancel the Index, or
- (iii) decide to postpone such decision for another period of twenty (20) Scheduled Trading Days (an "**Extraordinary Event Period Extension**"), provided that after such period, the Index Sponsor shall decide again between the Extraordinary Event Remedies above, subject to a maximum of three Extraordinary Event Period Extension, including the first one.

5.3 Settlement price correction

If the relevant Exchange fails to make available a relevant settlement price on a day that is a Calculation Date, or, in the reasonable judgment of the Index Sponsor, the settlement price made available by the Exchange reflects a manifest error, the relevant calculation will be delayed until such time as such level is made available or corrected, as the case may be, provided that, if a settlement price has not been made available, or the error has not been corrected by the Exchange prior to the Valuation Time, the Index Sponsor may, if it deems such action appropriate under the circumstances, determine the appropriate settlement price for the relevant Contract in its reasonable judgment for purposes of calculating the Index. In that event, the Index Sponsor will disclose the basis for its determination of settlement price.

2.3 Index Calculation Rules

2.3.1 Determination of the Price Index Level, PIL(t)

The Price Index Level, PIL(t) is given by the following formula:

$$PIL(t) = PIL(t-1) \times [-1/3 \times (Brent(N(t+1),t) / Brent(N(t+1),t-1) + Brent(N(t+2),t) / Brent(N(t+2),t-1) + Brent(N(t+3),t) / Brent(N(t+3),t-1)) + 2]$$

With,

$$PIL(t_0) = 100 ;$$

2.3.2 Determination of the Risk Free Rate Return, RF(t)

The Risk Free Rate Return, RF(t) is computed in accordance with the below formula:

$$RF(t) = [1 / (1 - 91 / 360 \times TBR(t-1))]^{(1/91)} - 1$$

with:

TBR(t-1) means in respect of Calculation Date (t-1) the latest available Treasury Bill Rate.

2.3.3 Determination of the Index Level, IL(t)

The Index Level is calculated and published by the Index Calculation Agent on every Calculation Date (t) at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or Extraordinary Event relating to a Brent Future.

2.3.4 Rounding Rules

The rounding policy is defined as follows:

- Index Level: 2 decimal places.

3. CONSEQUENCES OF AN INDEX DISRUPTION EVENT

3.1 If an Index Disruption Event exists on a Scheduled Trading Day for one of the Brent Future (each, a "**Disrupted Scheduled Trading Day**"), then the Index Calculation Agent shall not determine the level for the Index on such Scheduled Trading Day. The next Calculation Date following such Disrupted Scheduled Trading Day for which the Index Calculation Agent shall determine the level for the Index shall be the first succeeding Scheduled Trading Day on which the Index Calculation Agent determines that an Index Disruption Event no longer exists; provided that if the Index Calculation Agent determines that an Index Disruption Event exists on the five consecutive Scheduled Trading Days immediately following the initial Disrupted Scheduled Trading Day, then:

- (i) the fifth Scheduled Trading Day following the initial Disrupted Scheduled Trading Day, and each Scheduled Trading Day thereafter on which an Index Disruption Event continues to exist, shall be deemed to be a Calculation Date, notwithstanding the existence of an Index Disruption Event on such date(s), and
- (ii) the Index Calculation Agent shall determine, the level of Index as of the Valuation Time on that fifth Scheduled Trading Day following the initial Disrupted Scheduled Trading Day, and as of the Valuation Time on each Scheduled Trading Day thereafter on which an Index Disruption Event continues to exist (each, a "**Disrupted Calculation Date**"), based on the following:
 - (a) if the Index Disruption Event exists in relation to the Brent Future, the Brent Future Level determined, in consultation with the Index Sponsor, in accordance with the formula for and method of calculating that Brent Future Level last in effect prior to the occurrence of the first day on which the relevant Index Disruption Event occurred using relevant market indicia on the relevant date(s) of determination;

3.2 Notwithstanding the foregoing Section 3.1, if an Index Disruption Event continues for twenty consecutive Scheduled Trading Days, then the Index Calculation Agent shall permanently cancel the Index on such twentieth Scheduled Trading Day.

4 CONSEQUENCES OF AN INDEX EXTRAORDINARY EVENT:

- 4.1 If the Brent Future is (i) not calculated and announced by the Brent Future Sponsor but is calculated and announced by a successor Brent Future Sponsor acceptable to the Index Calculation Agent, in consultation with the Index Sponsor, or (ii) replaced by a successor index using, in the determination of the Index Calculation Agent, in consultation with the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of such Brent Future, then in each case that successor index will replace such Brent Future. Additionally, if the Brent Future ceases to be the underlying reference asset of an exchange-traded futures or option contract (if applicable), the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, replace the Brent Future with a new index; provided that such new index uses, in the determination of the Index Calculation Agent, in consultation with the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of the original Brent Future.

In the event that the Brent Future is replaced under any circumstance described in the previous paragraph, that replacement index will be deemed a "Successor Brent Future" for such Brent Future. Such Successor Brent Future will be used as a substitute for the original Brent Future for all purposes, including for purposes of determining the Brent Future Level and whether an Index Disruption Event exists with respect to such Brent Future.

- 4.2 If, with respect to the Brent Future and a Scheduled Trading Day, the Brent Future Sponsor announces on or prior to such Scheduled Trading Day that it will make a material change in the formula for or the method of calculating such Brent Future or in any other way materially modifies such Brent Future (other than a modification prescribed in that formula or method to maintain such Brent Future for routine events), the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, calculate the Brent Future Level on such Scheduled Trading Day in accordance with the formula for and method of calculating such Brent Future last in effect prior to such change or cancellation, but using only those securities or instruments that comprised such Brent Future immediately prior to such change or cancellation.

If at any time the method of calculating the Brent Future, or the level thereof, is changed in a material respect, or if the Brent Future is in any other way modified so that such Brent Future does not, in the opinion of the Index Calculation Agent, in consultation with the Index Sponsor, fairly represent the Brent Future Level had such changes or modifications not been made, then the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, make such calculations and adjustments as the Index Calculation Agent, in consultation with the Index Sponsor, determines necessary in order to arrive at a level of an index comparable to such Brent Future as if such changes or modifications had not been made, and the Index Calculation Agent, in consultation with the Index Sponsor, will calculate the level of the Index with reference to such Brent Future, as adjusted.

If the Index Calculation Agent makes any alternate calculations or adjustments in accordance with Section 4.2, the Index Calculation Agent shall permanently cancel the Index on the twentieth Scheduled Trading Day following the first day on which the Index Calculation Agent makes such alternate calculations or adjustments.

- 4.3 If the Brent Future Sponsor cancels the Brent Future on or prior to any Scheduled Trading Day and no Successor Brent Future exists, the Index Calculation Agent shall not determine the level for the Index for such Scheduled Trading Day. If such event exists and is not cured for twenty Scheduled Trading Days, the Index Calculation Agent shall permanently cancel the Index on such twentieth Scheduled Trading Day.
- 4.4 If the relevant Exchange fails to make available a Brent Future Level on a day that is a Scheduled Trading day, or, in the reasonable judgment of the Index Sponsor, the Brent Future Level made available by the Exchange reflects a manifest error, the relevant calculation will be delayed until such time as such Level is made available or corrected, as the case may be, provided that, if a Brent Future

Level has not been made available, or the error has not been corrected by the Exchange prior to the Valuation Time, the Index Sponsor may, if it deems such action appropriate under the circumstances, determine the appropriate Brent Future Level for the relevant Brent Future in its reasonable judgment for purposes of calculating the Index. In that event, the Index Sponsor will disclose the basis for its determination of such Brent Future Level.

1. EUROPEAN UNION

On 3 June 2003, the Council of the European Union adopted Council Directive 2003/48/EC regarding the taxation of savings income (the **EU Savings Tax Directive**). The EU Savings Tax Directive has been applied by EU Member States since 1 July 2005.

According to the EU Savings Tax Directive, EU Member States are required to provide to the tax authorities of other EU Member States details of payments of interest or other similar income paid (or deemed to be paid) by a paying agent within its jurisdiction to an individual resident in another EU Member State or certain other types of entities established in such other EU Member State (the **Disclosure of Information Method**).

On 24 March 2014, the Council of the European Union adopted a Council Directive (the **Amending Directive**) amending and broadening the scope of the requirements described above. Member States are required to adopt national rules for transposing the Amending Directive by 1 January 2016 and to apply these new requirements from 1 January 2017. The changes will expand the range of payments covered currently by the EU Savings Tax Directive, in particular to include additional types of income payable on securities. The Amending Directive will also apply a "look through approach" to payments made via certain entities or legal arrangements (including trusts and partnerships), where certain conditions are satisfied, where an individual resident in a Member State is regarded as the beneficial owner of the payment for the purposes of the Amending Directive. This approach may in some cases apply where the entity or legal arrangement is established or effectively managed outside of the European Union.

Throughout a transitional period, Austria will withhold an amount on such payments instead of using the Disclosure of Information Method, except if the beneficiaries of the interest payments opt for the Disclosure of Information Method. Certain associated or dependent territories to the EU and certain other jurisdictions, which have signed an agreement with EU Member States (Switzerland, Liechtenstein, British Virgin Island, Guernsey, Isle of Man, Jersey, former Netherlands Antilles, San Marino, Monaco, Turks & Caicos Island and Andorra), have adopted similar measures to those included in the EU Savings Tax Directive.

On 18 March 2015, the European Commission presented a tax transparency package (the **Tax Transparency Package**). The Tax Transparency Package also contains a proposal for a Council Directive repealing the EU Savings Tax Directive (the **Proposed Council Directive**). The Proposed Council Directive strongly relates to Council Directive 2014/107/EU amending Council Directive 2011/16/EU on the mandatory automatic exchange of information (the **Amending Directive on Administrative Cooperation**).

The Amending Directive on Administrative Cooperation provides for mandatory automatic exchange of information to a full range of income, including the automatic exchange of financial account information, in accordance with the Global Standard released by the OECD Council in July 2014. The Amending Directive on Administrative Cooperation is generally broader in scope than the EU Savings Tax Directive and provides that in cases of overlap of scope, the Amending Directive on Administrative Cooperation

prevails. In order to avoid dual reporting obligations, it has been proposed to repeal the EU Savings Tax Directive.

If the Proposed Council Directive is adopted in its current (proposed) form, Member States must adopt and publish laws, regulations and administrative provisions necessary to comply with the Amending Directive on Administrative Cooperation by 31 December 2015. They are required to apply these provisions from 1 January 2016 and to start to exchange information by September 2017. If the Proposed Council Directive is adopted, the EU Savings Tax Directive will be repealed with effect from 1 January 2016 and the Amending Directive would no longer have to be transposed. However, for a transitional period, certain obligations under the EU Savings Tax Directive shall continue to apply.

2. JURISDICTIONS OF THE ISSUERS AND THE GUARANTOR

2.1 France

2.1.1 Withholding Tax

2.1.1.1 Payments made by Société Générale or SG Option Europe as Issuers

The following is an overview of certain withholding tax considerations that may be relevant to holders of the Notes who do not concurrently hold shares of the Issuer and who are not otherwise affiliated with the Issuer within the meaning of Article 39,12 of the *Code général des impôts* (the French Tax Code – the **FTC**). Persons who are in doubt as to their tax position should consult a professional advisor.

2.1.1.1.1 Notes issued by Société Générale or SG Option Europe which are not consolidated (assimilables for the purposes of French law) and do not form a single series with Notes issued before 1 March 2010.

Following the introduction of the French loi de finances rectificative pour 2009 n°3 (n° 2009-1674 dated 30 December 2009) (the **Law**), as interpreted by the French tax authorities in their official guidelines under the reference BOI-INT-DG-20-50-20140211, payments of interest and other income made by Société Générale or SG Option Europe with respect to Notes on or after 1 March 2010 (other than Notes (as described below) which are consolidated (assimilables for the purpose of French law) and form a single series with Notes issued before 1 March 2010 having the benefit of article 131 quater of the FTC) will not be subject to the withholding tax provided by article 125 A III of the FTC unless such payments are made outside France in a non-cooperative State or territory (Etat ou territoire non coopératif) within the meaning of article 238-0 A of the FTC (a **Non-Cooperative State**). If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable (regardless of the tax residence of the holders of the Notes) (subject to exceptions, certain of which are set forth below and to the more favourable provisions of any applicable double tax treaty) by virtue of article 125 A III of the FTC. The list of Non-Cooperative States is published by a ministerial executive order and is updated on annual basis.

Furthermore, according to article 238 A of the FTC, interest and other income on such Notes will not be deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to a bank account opened in a financial institution located in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other income may be recharacterised as constructive dividends pursuant to article 109 et seq. of the FTC, in which case such non-deductible interest and other income may be subject to the withholding tax provided by article 119 bis 2 of the FTC, at a rate of 30 per cent. or 75 per cent., subject to the more favourable provisions of any applicable double tax treaty.

Notwithstanding the foregoing, the Law provides that neither the 75 per cent. withholding tax provided by article 125 A III of the FTC nor the Deductibility Exclusion will apply in respect of a particular issue of Notes solely by reason of the relevant payments being made to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State if the relevant Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other income to be made in a Non-Cooperative State (the **Exception**) and that the relevant interest or

income relate to genuine transactions and are not in an abnormal or exaggerated amount. Pursuant to the official guidelines issued by the French tax authorities under the references BOI-INT-DG-20-50-20140211, no. 990, BOI-RPPM-RCM-30-10-20-40-20140211, no. 70, and BOI-IR-DOMIC-10-20-20-60-20150320, no. 10, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of article L.411.1 of the *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of article L.561-2 of the *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

2.1.1.1.2 Notes issued by Société Générale or SG Option Europe which are consolidated (*assimilables* for the purposes of French law) and form a single series with Notes issued before 1 March 2010

Payments of interest and other income with respect to Notes which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued (or deemed issued) outside France within the meaning of article 131 *quater* of the FTC before 1 March 2010, will continue to be exempt from the withholding tax provided by article 125 A III of the FTC. Pursuant to the official guidelines issued by the French tax authorities under the reference BOI-RPPM-RCM-30-10-30-30-20140211, no. 100, the exemption will also apply if the payments are made outside France in a Non-Cooperative State.

Notes issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting obligations under French law, or *titres de créances négociables* within the meaning of the official guidelines of the French tax authorities under the reference BOI-RPPM-RCM-30-10-30-30-20140211, no. 50, or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside France for the purpose of article 131 *quater* of the FTC, in accordance with the above-mentioned guidelines.

In addition, interest and other income paid by the relevant Issuer on Notes issued on or after 1 March 2010 and which are to be consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 will be subject neither to the Deductibility Exclusion, nor to the withholding tax provided by article 119 *bis* 2 of the FTC solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

2.1.1.1.3 Payments made to French tax resident individuals

Pursuant to article 125 A of the the FTC, subject to certain limited exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 24 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5 per cent. on interest and assimilated income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

2.1.1.2 **Payments made by the Guarantor**

There is no direct authority under French law on the withholding tax status of payments by the Guarantor (if applicable) under the Guarantee. Hence, the statements below are based on the interpretation of general French tax principles and may be affected, potentially with retroactive effect, by future legislative, judicial or administrative developments.

2.1.1.2.1 *Payments in respect of Notes issued by SG Issuer and SGA Société Générale Acceptance N.V.:*

Under one interpretation of French tax law, payments made by the Guarantor of any amount due by SG Issuer or SGA Société Générale Acceptance N.V., as the case may be, to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by SG Issuer or SGA Société Générale Acceptance N.V. with respect to the Notes. Accordingly, under this interpretation, payments made by the Guarantor of any amounts due by SG Issuer or SGA Société Générale Acceptance N.V., under the Notes should not be subject to the withholding tax provided by article 125 A III of the FTC, to the extent that interest payments made or to be made by SG Issuer or SGA Société Générale Acceptance N.V., would not be subject to withholding tax by reason of SG Issuer or SGA Société Générale Acceptance N.V. not being resident of, or otherwise established in, France.

Under another interpretation, any such payment may be treated as a payment independent from the payments to be made by SG Issuer or SGA Société Générale Acceptance N.V., with respect to the Notes. In the absence of any specific provision in article 125 A III of the FTC, such payments should not be subject to the withholding tax provided by article 125 A III of the FTC.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the FTC, such payments would not be subject to the 75 per cent. withholding tax referred to above, unless such payments are made outside France in a Non-Cooperative State (see above "*Payments made by Société Générale or SG Option Europe as Issuers*").

2.1.1.2.2 *Payments in respect of Notes issued by SG Option Europe:*

In accordance with a first interpretation of French tax law, payments made by the Guarantor of any amount due by SG Option Europe to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by SG Option Europe with respect to the Notes. Accordingly, under this interpretation, payments made by the Guarantor of any amounts due by SG Option Europe under the Notes should not be subject to the 75 per cent. withholding tax referred to above, unless such payments are made outside France in a Non-Cooperative State.

In accordance with the second interpretation, any payment made by the Guarantor in respect of the Notes issued by SG Option Europe may be treated as a payment independent from the payments to be made by SG Option Europe with respect to the Notes. In the absence of any specific provision in article 125 A III of the FTC, such payments should not be subject to the withholding tax provided by article 125 A III of the FTC.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the FTC, such payments would not be subject to the 75 per cent. withholding tax set out under Article 125 A III of the FTC, unless such payments are made outside France in a Non-Cooperative State (see above "*Payments made by Société Générale or SG Option Europe as Issuers*").

2.1.2 **EU Savings Tax Directive**

The EU Savings Tax Directive was implemented into French law under article 242 *ter* of the FTC and articles 49 I *ter* to 49 I *sexies* of Schedule III to the FTC. These provisions impose on paying agents

based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State (or in certain territories), including, among other things, the identity and address of the beneficial owner, and a detailed list of the different categories of interest (within the meaning of the EU Savings Tax Directive) paid to that beneficial owner.

Please refer to the section "*EU Savings Tax Directive*" above for more details.

2.1.3 **Transfer taxes and other taxes**

Please note that the following may be relevant in connection with Notes which are settled, redeemed or otherwise repaid by way of physical delivery of certain French listed shares (or certain assimilated securities).

Pursuant to article 235 *ter* ZD of the FTC, a financial transaction tax (the **Financial Transaction Tax**) applies to any acquisition for consideration, resulting in a transfer of ownership, of an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the *Code monétaire et financier*, or of an assimilated equity security, within the meaning of Article L 211-41 of the *Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the year in which the acquisition occurs. The rate of the Financial Transaction Tax is 0.2% of the acquisition value of the securities. There are a number of exemptions from the Financial Transaction Tax and investors shall revert to their counsel to identify whether they can benefit from them.

If the Financial Transaction Tax applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) provided by article 726 of the FTC which generally apply at a rate of 0.1% to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

2.2 **Curaçao**

SGA Société Générale Acceptance N.V. has been advised that, under present Curaçao law, payments in respect of the Notes held by persons not resident in, or engaged in trade or business through a permanent establishment in, Curaçao and gains realised on the sale or redemption thereof by such persons will not be subject to Curaçao taxes and that no inheritance tax arises in Curaçao on the death of a Noteholder not domiciled in Curaçao at the time of death.

As far as the Noteholders are EU residents, no withholding tax is due on interest payments (as defined in the Curaçao Savings Tax Act) as long as these Noteholders will agree in writing to exchange of information if this obligation from the Curaçao Savings Tax Act is applicable.

As far as SGA Société Générale Acceptance N.V. is granted an exemption on the basis of the Regulation Foreign Exchange Transaction (*Regeling Deviezenverkeer Curaçao en Sint Maarten*), no bank license fee of 1% will be due on payments from SGA Société Générale Acceptance N.V.

Curaçao has concluded Tax Information Exchange Agreements with several countries.

2.3 **Luxembourg**

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes. The

information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposal of the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

2.3.1 Withholding Tax

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to Luxembourg resident individual holders of the Notes and certain entities, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or upon repayment of principal in case of redemption or repurchase of the Notes.

2.3.1.1 Non-resident holders of Notes

Under Luxembourg general tax laws currently in force, there is no Luxembourg withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of the Notes.

2.3.1.2 Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Relibi Law**), there is no Luxembourg withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a so-called residual entity (within the meaning of the amended Luxembourg laws of 21 June 2005 implementing the Council Directive 2003/48/EC on the taxation of savings income and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the "**Territories**"), as amended) established in an EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10 %. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 10%.

3. OTHER JURISDICTIONS

Any terms defined in this section 0, in connection with a particular jurisdiction, relate only to the information provided in connection with that jurisdiction.

3.1 Austria

The following is a brief summary of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences that could potentially be relevant with respect to the Notes, particularly the acquisition, ownership, disposition or redemption of the Notes. In some cases a different tax regime may apply. Further, this summary does not take into account or discuss the tax laws of any country other than Austria and does not take into account the investors' individual circumstances. Further, the following assumes that the Notes were offered to the public ("in legal and factual respects")

as referred to in the Austrian Income Tax Act and are held as private assets, unless explicitly stated otherwise, respectively. Prospective investors are advised to consult their own professional advisors to obtain further information about the tax consequences of the acquisition, ownership, disposition, exchange, exercise, settlement or redemption of the Notes. Only personal advisors are in a position to adequately take into account special tax aspects of the particular Notes in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor.

This summary is based on Austrian Law as in force when drawing up this Prospectus Supplement. The laws and their interpretation by the tax authorities may change at any time and such changes may also have retroactive effect. Prospective investors are therefore explicitly advised to consult their own professional advisers to obtain further information about the tax consequences of the acquisition, ownership, disposition, exchange, exercise, settlement or redemption of the Notes.

This summary does not describe the tax consequences for a holder of Notes that are redeemable in exchange for, or convertible into, shares or other securities or rights or which in other way provide for physical settlement, or the consequences of the exchange, exercise, physical settlement or redemption of such Notes and/or any tax consequences after the moment of exchange, exercise, physical settlement or redemption.

3.1.1 Austrian Resident Holders

Income derived by individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or place of management in Austria (considered as "residents") are taxable pursuant to the Austrian Income Tax Act (*Einkommensteuergesetz*) or the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*). The corporate income tax rate amounts to 25%, the income tax rate is progressive with the highest level of progression amounting to 50%. Generally, for investment income a uniform tax rate of 25% applies. Legislative changes regarding the tax rates are currently discussed, but such changes should not affect the 25% rate imposed on interest income.

3.1.1.1 Risk of requalification of Notes as foreign investment fund units

- a) The Issuers are of the opinion that the Notes do not qualify as units or shares of an alternative investment fund (AIF) whose home member state is not Austria, as defined in the Alternative Investment Fund Managers Act, due to the lack of a collective investment undertaking, of pooled investor assets and of a defined investment policy.
- b) Certain Notes such as non-capital guaranteed basket or index linked notes might be re-qualified by the tax authorities as units of an undertaking subject to foreign law investing in accordance with the principles of risk-spreading under certain conditions. Pursuant to the Austrian Investment Fund Act, any undertaking subject to foreign law whose assets are invested in accordance with the principles of risk-spreading is qualified as foreign investment fund for tax purposes, without regard to its legal form (substance over form approach), if one of the following requirements are fulfilled:
 - (i) the undertaking is neither directly nor indirectly subject to a tax in the foreign country comparable to Austrian corporation tax;
 - (i) the profits of the undertaking are in the foreign country subject to a tax comparable to Austrian corporation tax the applicable rate of which is more than 10%-points lower than the Austrian corporation tax;
 - (ii) the undertaking is subject to a comprehensive tax exemption in the foreign state.

Income from investment funds is taxed at a flat rate tax at the level of the investors and includes distributions as well as retained earnings of the fund deemed to be distributed to the investor ("ausschüttungsgleiche Erträge"). Such retained earnings are deemed to be distributed to the investor for tax purposes to the extent of the share interest of the investor no later than four months after the end of the business year of the investment fund in which the

earnings were derived by the fund. If no Austrian tax representative is appointed for the fund and the retained earnings of the fund deemed to be distributed to the investor are also not reported to the securities account keeping agent by the investors themselves, the non-Austrian fund will be qualified a "black fund" and the retained earnings of the fund deemed to be distributed each calendar year will be determined on a lump-sum basis which will result in a tax base of 90 per cent. of the difference between the first and the last redemption price of the fund units fixed in a calendar year, but will be minimum 10 per cent. of the last redemption price of the fund units fixed in a calendar year. As the applicable tax rate is 25 per cent. for corporate investors as well as, in general, for individuals, this minimum lump sum tax base results in a minimum tax of 2.5 per cent. per year on the last redemption price (NAV) in any calendar year before maturity.

In the case of sales or redemptions of black foreign investment fund units, the whole difference amount between the sale price of the fund unit on the one hand and its acquisition cost plus already taxed retained earnings of the fund deemed to be distributed to the investor on the other hand will be subject to Austrian withholding tax of 25%.

Pursuant to the Investment Fund Guidelines 2008 published by the Austrian Federal Ministry of Finance a requalification of index and other reference linked notes into fund units requires, *inter alia*, (i) that an investment is effected in line with the principle of risk diversification and (ii) that the Issuer (or a trustee mandated by the Issuer) factually and predominantly acquires the (underlying) securities or that the investment qualifies as actively managed portfolio. This should, *inter alia*, exclude capital guaranteed notes and notes with less than six underlyings from requalification. Pursuant to the Investment Fund Guidelines 2008 "directly held index linked certificates should not be requalified as foreign investment fund units, irrespective, whether the underlying index is a recognized or individually composed, fixed or flexible index". Therefore index linked notes should also be prevented from a requalification as foreign investment fund units.

In the following we assume that the Notes do not qualify as foreign investment funds for income tax purposes. It may be derived from a recent ruling of the European Court of Justice regarding the flat-rate taxation of foreign investment funds in Germany that such flat-rate taxation violates EU law.

3.1.1.2 Resident Individuals

Generally for Notes held as private assets, income arising from the Notes qualifies as investment income (*Einkünfte aus Kapitalvermögen*). Index (and other underlying) and formula linked Notes bearing interest or bearing index (and other underlying) or formula linked interest are treated as debt type claims (*Kapitalforderungen jeder Art*), whereas index (and other underlying) linked certificates without interest are treated as (securitized) derivatives (*verbriefte Derivate*) under the Austrian Income Tax Act. Investment income from the Notes comprises:

- (i) income from the provision of capital (*Überlassung von Kapital*) including interest payments on the Notes (*Zinserträge*),
- (ii) realised capital gains (*Einkünfte aus realisierten Wertsteigerungen*) derived from assets which may generate income from the provision of capital, and
- (iii) for Notes bearing no interest and structured as index (or other underlying) linked certificates, income from derivatives including income from the sale, pay-off or redemption of (securitized) index (or other underlying) linked Notes.

Hence, not only interest payments but also realised capital gains will, irrespective of the period of time the Notes have been held for, qualify as investment income (*Einkünfte aus Kapitalvermögen*) and be subject to income tax at a special rate of 25% provided that the realisation of capital gains or of income from derivatives does not form a focus of a business investor's activities. Investment income includes

income derived from the sale, redemption or other pay-off of the Notes and, in the case of derivative financial instruments, from any other settlement of the Notes. The tax base is, in general, the difference between (a) the amount realized (e.g., the sale proceeds or, the redemption or other pay-off amount) and (b) the acquisition costs, in all cases including accrued interest, if any. Expenses and Costs which are directly connected with income subject to the special tax rate of 25% are non-deductible. For Notes held as private assets, the acquisition costs shall not include ancillary acquisition costs. For the calculation of the acquisition costs of Notes held within the same account and having the same identification number which are acquired at different points in time, an average price applies.

If an Austrian securities account keeping agent or an Austrian paying agent is involved and pays out or settles the realization of the income or capital gain, income tax will be deducted by applying a 25% withholding tax. The 25% withholding tax deduction will generally result in a final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities account keeping agent.

Capital gains are not only taxed upon an actual disposition or redemption of the Notes, but also upon a deemed realisation, particularly upon the loss of the Austrian taxing right for the Notes (e.g., due to moving abroad) or a donation to a person not resident in Austria, or upon withdrawals (Entnahmen) and other transfers of Notes from the securities account, unless specified exemptions are fulfilled like the transfer of the Notes to a securities account owned by the same taxpayer (i) with the same Austrian bank, (ii) with another Austrian bank if the account holder instructs the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder instructs the transferring bank to transmit the pertaining information to the competent tax office or (iv) with a non-Austrian bank, if the Notes are transferred from another non-Austrian bank and the account-holder himself notifies the competent Austrian tax office within a month; or further like the gratuitous transfer to a securities account held by another taxpayer, if the gratuitous transfer is evidenced to the securities account keeping agent or the agent is instructed to inform the Austrian tax office thereof or if the taxpayer himself notifies the competent Austrian tax office within a month. An exemption applies in case of moving to another EU Member State if the Noteholder has timely notified the Austrian securities keeping agent of his/her migration and presents to the Austrian securities keeping agent a tax assessment notice of the year of migration in which the option for a deferral of tax has been exercised.

To the extent that no withholding tax deduction will be effected due to the lacking of an Austrian paying agent and of an Austrian securities account keeping agent, the investment income derived from the Notes will have to be included into the income tax return in line with the provisions of the Austrian Income Tax Act.

Taxpayers, whose regular personal income tax rate is lower than 25% may opt for taxation of the income derived from the Notes at such regular personal income tax rate. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in connection with income subject to final taxation or to the special 25% income tax rate and incurred by the investor are also not deductible for persons having opted for taxation at the regular personal income tax rate.

Losses from Notes held as private assets may only be set off with other investment income (excluding, *inter alia*, interest income from bank deposits or donations from private foundations and other claims against banks) and must not be set off with any other income. Mandatory loss off-setting by the Austrian securities account keeping agent applies to investment income achieved in all securities accounts at the same agent qualifying as private assets but excluding joint securities accounts and fiduciary securities accounts at the same agent. A carry-forward of such losses is not permitted.

Income (including capital gains) derived from the Notes which are held as business assets will also be subject to the special tax rate of 25% deducted by way of a withholding tax provided that the realisation of capital gains or of income from derivatives does not form a focus of a business investor's activities. However, realised capital gains and income from derivatives, contrary to the income from the provision of capital (i.e. interest income), have to be included in the annual income tax return. No final taxation

applies. Write-downs to the going concern-value and losses derived from the sale, redemption or other pay-off regarding the Notes held as business assets must primarily be set off against positive income from realised capital gains that are investment income in the first place, and only half of the remaining loss may be set off or carried forward against any other income. Loss off-setting is not made by the securities keeping agent, but can only be made in the assessment of the individual.

The acquisition costs of Notes held as business assets may also include ancillary costs incurred upon the acquisition.

For income derived from Notes which have upon issue not been offered to the public ("in legal and factual respects") as referred to in the Austrian Income Tax Act, the general income tax rate (as opposed to the 25% special tax rate) will apply. Such income has to be declared in the annual income tax return.

It is noted that expenses and costs directly connected with investment income are also not tax effective if the Notes are held as business assets.

3.1.1.3 Resident Corporations

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian entity obliged to deduct the withholding tax. Income including any capital gain derived from the Notes by corporate investors is subject to corporate income tax at the general rate of 25 per cent. There is, *inter alia*, a special tax regime for Private Foundations established under Austrian law (*Privatstiftungen*).

3.1.1.4 Certain aspects of the tax treatment of certain notes

Any income and capital gain from the sale or redemption of Notes acquired against consideration will be subject to income tax of 25% and the tax will be deducted by way of a withholding tax, if an Austrian paying agent or an Austrian securities account keeping agent will be involved. The tax base is, in general, the difference between (a) the amount realized (e.g., the sale proceeds or, the redemption or other pay-off amount) and (b) the acquisition costs, in all cases including accrued interest, if any. Please also refer to the above described tax laws applying to "Resident Individuals" (1.2).

Zero coupon Notes, index linked and credit linked Notes bearing interest (including index linked interest) and callable yield notes will qualify as notes and be subject to the taxation, as described above, of the difference between (a) the amount realised (e.g., the sales price, the redemption amount) including accrued interest, if any and (b) the acquisition costs (including accrued interest) and therefore subject to 25% withholding tax if paid out by an Austrian securities account keeping agent or an Austrian paying agent. If held as business assets, interest upon redemption of the zero coupon Notes is not subject to final taxation, but taxed like capital gains.

Index certificates (not bearing interest) and credit linked notes without interest, discount certificates, leveraged certificates (*Hebelzertifikate*) and other derivative securities will qualify as (securitized) derivative financial instruments and be subject to the 25% withholding tax on capital gains and other income from such financial instruments.

3.1.2 Non-Residents

Income including any realised capital gain derived from the Notes by individuals who have neither a domicile nor their habitual abode in Austria or corporate investors who have neither their corporate seat nor their place of management in Austria ("non-residents") is not taxable in Austria provided the income is not attributable to a permanent establishment in Austria (for withholding tax under the EU Savings Directive see below).

Thus, non-resident investors in case they receive income from the Notes through a paying agent or a securities account keeping agent located in Austria may avoid the application of Austrian withholding tax if they evidence their non-resident-status vis-à-vis the entity obliged to deduct the Austrian withholding

tax by disclosing information as required in the Austrian income tax guidelines. The provision of evidence that the investor is not subject to Austrian withholding tax is the responsibility of the investor.

If any Austrian withholding tax is deducted by the agent, the tax withheld shall be refunded to the non-resident investor upon his application, which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax.

Where non-residents receive income from the Notes as part of business income taxable in Austria (permanent establishment), they will be, in general, subject to the same tax treatment as resident investors.

As of 1 January 2015, interest (as defined in the EU Withholding Tax Act) paid to individuals that fall outside the territorial scope of the EU Withholding Tax Act (*EU-Quellensteuergesetz*), is generally subject to limited tax liability in Austria, provided that they are also subject to the domestic withholding tax (*Kapitalertragsteuerabzug*). However, this new rule does not apply with respect to interest payments owed by a debtor that has neither its seat nor its place of management in Austria and is further no branch of a foreign bank.

3.1.3 **EU Council Directive on Taxation of Savings Income**

EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments ("**EU Savings Tax Directive**") provides for an exchange of information between the authorities of EU member states regarding interest payments made in one member state to beneficial owners who are individuals and resident for tax purposes in another member state. Austria has implemented the Savings Directive by way of the EU Withholding Tax Act (*EU-Quellensteuergesetz*) which provides for a withholding tax as an alternative to an exchange of information if the investor decides to remain anonymous. Such EU Withholding tax is levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual resident for tax purposes in another member state of the European Union or certain dependent associated territories. The EU Withholding Tax rate amounts to 35%.

Withholding tax will be deducted upon actual or deemed interest payments as well as upon sale, refund or redemption of debt claims. Further, withholding tax will be deducted - on a pro rata temporis basis - in case of changes of the individual's withholding tax status such as changes of his country of residence or transfer of his securities to a non Austrian account.

Deduction of EU Withholding Tax can be avoided if the EU-resident investor provides the paying agent with a certificate drawn up in his name by the tax office of his member state of residence. Such certificate has to indicate, *inter alia*, the name and address of the paying agent as well as the account number of the investor or the identification of the Notes.

The scope of the definition of interest payments for EU Withholding Tax purposes may differ from the scope of interest payments for Austrian income and withholding tax purposes. Generally, the interest payments derived from any form of debt claims (including Notes and debentures) are within the scope of the EU Withholding Tax regime, even though the terms interest income as used under purely domestic law and under the EU Withholding Tax regime differ in certain respects.

3.1.4 **Other Taxes**

There is no transfer tax, registration tax or similar tax payable in Austria by holders of bearer Notes as a consequence of the acquisition, ownership, disposition or redemption of the Notes. The sale and purchase of bearer securities as well as the redemption of Notes is in general not subject to Austrian stamp duty.

The Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) has been abolished as of August 1, 2008. No such tax is levied anymore upon a transfer of assets by way of inheritance or gifts occurring after July 31, 2008. However, according to the Gift Notification Act 2008 (*Schenkungsmitteilungsgesetz 2008*) gifts have to be notified to the tax authorities within a three-month

notification period. There are certain exemptions from such notification obligation, e.g., for gifts among relatives that do not exceed EUR 50,000 within a year or gifts among unrelated persons that do not exceed EUR 15,000 within five years."

3.2 Belgium

Set out below is a summary of certain Belgian tax consequences of acquiring, holding and selling the Notes. This summary is not intended to be an exhaustive description of all relevant Belgian tax considerations and investors should consult their own tax advisers regarding such considerations in relation to their own particular circumstances. The description of certain Belgian taxes set out below is for general information only and does not purport to be comprehensive.

This summary is based on current legislation, published case law and other published guidelines and regulations as in force at the date of this Base Prospectus and remains subject to any future amendments, which may or may not have retroactive effect.

3.2.1 Belgian income tax

The interest component of payments on the Note made by or on behalf of the Issuer is as a rule subject to Belgian withholding tax, currently at a rate of 25% on the gross amount. Double taxation conventions may, under certain conditions, provide for a lower rate or an exemption.

For Belgian income tax purposes, interest includes (i) periodic interest income, (ii) any amounts paid by the Issuer in excess of the issue price (upon full or partial redemption whether or not at maturity, or upon purchase by the Issuer), and (iii) if the Notes qualify as fixed income securities pursuant to Article 2, §1, 8° of the Belgian Income Tax Code 1992 (ITC 92), in case of a sale of the Notes between interest payment dates to any third party, excluding the Issuer, the pro rata of accrued interest corresponding to the detention period.

For the purpose of the summary below, a Belgian resident is (i) an individual subject to Belgian personal income tax (i.e., an individual who has his domicile in Belgium or has his seat of wealth in Belgium, or a person assimilated to a Belgian resident), (ii) a company subject to Belgian corporate income tax (i.e., a company that has its registered office, its main establishment, its administrative seat or its seat of management in Belgium), or (iii) a legal entity subject to Belgian legal entities tax (i.e., an entity other than a company subject to corporate income tax having its registered office, its main establishment, its administrative seat or its seat of management in Belgium).

A non-resident is a person who is not a Belgian resident.

3.2.1.1 Belgian resident individuals

For individuals subject to Belgian personal income tax who are not holding Notes as professional investors, all interest payments (as defined in the Belgian Income Tax Code) will be subject to the tax regime described below.

If interest is paid through a Belgian intermediary, such intermediary must levy withholding tax. For Belgian resident individuals (i.e. individuals subject to Belgian personal income tax *Personenbelasting/Impôt des personnes physiques*) holding the Notes as a private investment the withholding tax, currently at 25%, will fully discharge them from their tax liability with respect to these interest payments (*précompte mobilier libérateur / bevrijdende roerende voorheffing*). Therefore, they do not have to declare the interest obtained on the Notes in their personal income tax return, provided withholding tax was levied on these interest payments. Belgian resident individuals may nevertheless elect to declare the interest in their personal income tax return. Where the beneficiary opts to declare them, interest payments will normally be taxed at the interest withholding tax rate of 25 %, (or, if it is lower, at the progressive personal tax rates taking into account the taxpayer's other declared income), and no local surcharges will be due. If the interest payment is declared, any withholding tax retained may be credited is refundable to the extent that it exceeds the total personal income tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian resident individuals must declare the interest in their personal income tax return and this interest payment will normally be taxed at a separate tax rate of 25 %, (or, if it is lower, at the progressive personal tax rates taking into account the taxpayer's other declared income), and no local surcharges will be due.

Any capital gain upon a sale of Notes, not allocated to the professional activity of the individual, to a party other than the Issuer, except for that part of the sale price attributable to the pro rata interest component, is in principle tax exempt (unless the tax authorities can prove that the capital gain does not result from the normal management of a non-professional investment). Losses on the Notes held as a non-professional investment cannot usually be deducted.

3.2.1.2 Belgian resident companies

Interest paid through an intermediary established in Belgium to a Belgian company (i.e. companies subject to Belgian corporate income tax - impôt des sociétés/Vennootschapsbelasting, currently at 33.99% or, subject to certain conditions, at the lower rates applicable for small and medium sized companies), will generally be subject to Belgian withholding tax (the current applicable withholding tax rate is 25 %). If Belgian withholding tax is applicable, Belgian companies are, in principle, entitled to set off Belgian withholding tax against their corporate income tax liability. The withholding tax is also refundable to the extent that it exceeds the total corporate income tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian companies must declare the interest in their income tax return.

Capital gains realised in respect of the Notes will be part of taxable income. Capital losses realised upon the sale of the Notes are in principle tax deductible.

3.2.1.3 Non-resident companies

Non-resident companies holding the Notes via a Belgian permanent establishment are subject to a tax of 33.99%. Interest paid through an intermediary established in Belgium to a Belgian permanent establishment will generally be subject to Belgian withholding tax (the current applicable withholding tax rate is 25 %). If Belgian withholding tax is applicable, Belgian permanent establishments are, in principle, entitled to set off Belgian withholding tax against their tax due. The withholding tax is also refundable to the extent that it exceeds the total tax due.

If no withholding tax has been levied (because the interest was not paid through a Belgian intermediary), Belgian permanent establishments must declare the interest in their tax return.

Capital gains realised in respect of the Notes will be taxable. Capital losses realised upon the sale of the Notes are in principle tax deductible.

3.2.1.4 Other Belgian legal entities subject to the legal entities income tax

Legal entities resident in Belgium (i.e. legal entities subject to Belgian legal entities tax) are subject to a withholding tax of 25% on interest payments. The withholding tax constitutes the final taxation. Legal entities resident in Belgium which have received gross interest income are required to pay the amount of the Belgian withholding tax themselves.

Capital gains realised on the disposal of the Notes are as a rule tax exempt (unless it qualifies as interest on Notes considered fixed income securities referred to under "Belgian income tax" section). Capital losses are in principle not tax deductible. Capital gains realised in respect of the Notes will be part of taxable income. Capital losses realised upon the sale of the Notes are in principle tax deductible.

3.2.1.5 Organisations for financing pensions

Interest and capital gains derived by Organisations for Financing Pensions as defined in the Law of 27 October 2006 on the activities and supervision of institutions for occupational retirement provision, are in

principle subject to Belgian corporate income tax, but have a limited taxable base. Capital losses are in principle not tax deductible. Any Belgian withholding tax that has been levied can, in general, be credited against any corporate income tax due and any excess amount is in principle refundable.

3.2.2 *Tax on stock exchange transactions*

A stock exchange tax (Taxe sur les opérations de bourse/Taks op de beursverrichtingen) will be levied on the purchase and sale in Belgium of the Notes on a secondary market through a professional intermediary. The rate applicable for secondary sales and purchases in Belgium through a professional intermediary is 0.09 % with a maximum amount of Euro 650 per transaction and per party. The tax is due separately by each party to any such transaction, i.e. the seller (transferor) and the purchaser (transferee), both collected by the professional intermediary.

However, the tax referred to above will not be payable by exempt persons acting for their own account, including investors who are Belgian non-residents, provided, however, that they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status and certain Belgian institutional investors, as defined in Article 126/1.2^o of the Code of various duties and taxes (Code des droits et taxes divers/Wetboek diverse rechten en taken).

3.2.3 *EU Savings Directive*

Under EC Council Directive 2003/48/EC on the taxation of savings income (the Savings Income Directive), EU Member States are required to provide to the tax authorities of another Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

For a transitional period, Austria is instead required (unless during that period Austria elects otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories (including Switzerland) have adopted similar measures (a withholding system in the case of Switzerland).

While previously operating a withholding system, Luxembourg has opted for automatic exchange of information under the Savings Income Directive with effect from 1 January 2015.

On 24 March 2014, the Council of the European Union adopted a Council Directive (the Amending Directive) which, when implemented, will amend and broaden the scope of the Savings Income Directive. These changes will expand the range of payments covered by the Savings Income Directive, in particular to include additional types of income payable on securities. The Savings Income Directive will also apply a "look through approach" to payments made via certain persons, entities or legal arrangements (including trusts and partnerships) where an individual resident in a Member State is regarded as the beneficial owner of such payments for the purposes of the Savings Income Directive. This approach may in some cases apply where such persons, entities or legal arrangements are established or effectively managed outside the European Union.

The Member States will have until 1 January 2016 to adopt the national legislation necessary to comply with the amending directive, with application of the new requirements from 1 January 2017.

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

Investors who are in any doubt as to their position should consult their professional advisors.

Belgium also entered into an agreement with the Kingdom of the Netherlands in respect of Curaçao concerning the automatic exchange of information regarding savings income in the form of interest payments. Individual investors should seek professional advice to verify what obligation a paying agent in Curaçao is under to withhold any tax from the interest payable by the agent on the Notes under the aforementioned agreement.

3.2.4 **The Proposed Financial Transaction Tax**

On 14 February 2013, the European Commission published a proposal for a Directive for a common financial transactions tax (the "FTT") in the participating Member States which are Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**Participating Member States**").

The proposed FTT has very broad scope. If introduced in the form proposed on 14 February 2013, it could apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions (the issuance and subscription of Notes) should, however, be exempt.

Under the 14 February 2013 proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including: (a) by transacting with a person established in a participating Member State; or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The rates of the FTT shall be fixed by each Participating Member State but for transactions involving financial instruments other than derivatives shall amount to at least 0.1% of the taxable amount. The taxable amount for such transactions shall in general be determined by reference to the consideration paid or owed in return for the transfer. The FTT shall be payable by each financial institution established or deemed established in a Participating Member State which is a party to the financial transaction, acting in the name of a party to the transaction or where the transaction has been carried out on its account.

In May 2014 the Participating Member States indicated an intention to implement the FTT progressively. Progress is currently being made towards an agreement by the end of the year, which would allow the FTT to enter into force by the beginning of 2016 and would initially apply to shares and certain derivatives. The FTT proposal remains subject to negotiation between the participating Member States. Additional EU Member States may decide to participate, although certain other Member States have expressed strong objections to the proposal. The FTT proposal may therefore be altered prior to any implementation, the timing of which remains unclear. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

3.3 **Croatia**

The statements herein regarding taxation are based on the laws in force in Croatia and are subject to any subsequent changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Notes.

3.3.1 *Taxation of individuals*

Tax obligor of personal income tax is a natural person - income earner and heir to all tax obligations arising from income earned by the decedent until his death. The heir is at the same time tax obligor to income accrued from inherited sources of income.

Sources of income are:

- (i) income from salaried employment,
- (ii) income from self-employment,
- (iii) income from property and property rights,
- (iv) income from capital,
- (v) income from insurance,
- (vi) other income.

Resident is a natural person whose residence or habitual abode is in the Republic of Croatia. Resident is also a natural person not having the place of residence or habitual abode in the Republic of Croatia and is employed with a governmental office of the Republic of Croatia and receives salary on that basis.

Non-resident is a natural person not having the place of residence or habitual abode in the Republic of Croatia and earning income in the Republic of Croatia which is taxable according to the Income Tax Act.

Taxable basis i.e. tax base:

- a. for a resident is the total amount of income gained from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the resident in the country and abroad (world income principle) less resident's personal deduction,
- b. for a non-resident is the total amount of income from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the non-resident in the country (domicile land principle) less non-resident's personal deduction depending whether the non-resident is an EU/EEA resident or not.

Income from capital are deemed receipts from interests, withdrawals of assets and use of services charged against income of the current period, capital gains and shares in profit realised from allocation or option purchase of treasury shares, which are realised in the tax period.

Income tax prepayments on the basis of receipts from interest, dividends or profit sharing on the basis of shares in capital (or their prepayments) withheld at a rate of 12% with no deduction of personal allowance.. The company, payer of dividends or shares in profit is obliged to assess, withhold and prepay tax simultaneously with the payment of dividends or profit (in accordance with the cash-basis accounting). It should be noted that on top of income tax the income tax surcharge is levied which is defined in the city or municipal regulations depending on the place of residence or habitual abode of the tax obligor. The tax basis for surcharge tax is the assessed income tax and the payer of the receipts is obliged to assess, withhold and prepay tax simultaneously with the payment of receipts.

Personal income taxation is progressive, and maximum rate is 40% (increased for surcharge tax). Hence, under certain conditions, income from capital may be taxed with 40% (increased for surcharge tax).

If the resident receives income from capital from abroad, he is obliged to prepay tax within 8 days from the payment of the receipts. The amount of income tax paid by the resident abroad is deducted from the income tax in the domicile country unless provided for otherwise by the double tax agreement or multilateral international treaties and agreements. The tax amount paid abroad may be deducted only if it corresponds to the domicile income tax, in which case it is deducted up to the amount of the assessed

domicile tax for income earned abroad. The tax paid by the resident abroad may be deducted from the annual assessment of tax on the basis of a tax return filed to the tax authority, on the basis of a foreign tax authority's confirmation of the tax paid abroad. The amounts of income and tax paid abroad are converted into HRK by applying the mean exchange rate of the Croatian National Bank on payment date.

If domicile payers pay receipts to non-residents having their place of residence or habitual abode in the countries with which the Republic of Croatia applies a double taxation treaty (residents of treaty countries) then the domicile payers of receipts are obliged to assess, withhold and pay income tax simultaneously with the payment of income in conformity with the provisions of the treaty if the residents of the treaty countries provided to them the required forms duly completed prior to the payment of income.

Capital gains shall be taxed from 2016.

3.3.2 *EU Savings Directive*

EU Savings Directive has been implemented by the Croatian General Tax Act and has come into force on 1st July 2013 which is expressly provided in Article 1 of the General Tax Act (Official Gazette 147/08, 18/11, 78/12, 136/12, 73/13). However, the revised Savings Taxation Directive has not yet been implemented in Croatian taxation legislation.

3.3.3 *No gross-up for taxes withheld*

Purchasers of the Notes should note that according to the Terms and Conditions neither the Issuer nor any other person will assume any liability for taxes withheld from payments under the Notes, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply if a withholding tax is imposed.

3.3.4 *EU Financial Transaction Tax*

On the European Union level negotiations are underway in order to implement a harmonized financial transaction tax which might have a negative impact on the receipts deriving from the Notes.

3.3.5 *Other Taxes*

No stamp, issue or registration taxes or duties will be payable in Croatia in connection with the issuance, delivery or execution of the Notes.

3.3.6 *Taxation of corporations*

Corporate (profit) tax obligors are:

1. companies and other legal entities and natural persons residing in the Republic of Croatia that are self-employed and perform operations independently and permanently and for the purpose of making the profit, income or revenues or other valuable commercial benefits;
2. local business units of a foreign entrepreneur (non-resident);
3. tax obligor is also a natural person gaining income according to income tax regulations if he/she declares that he/she will pay corporate (profit) tax instead of income tax;
4. tax obligor is also an entrepreneur-natural person, receiving income from trade and operations comparable to trade:
 - if the total turnover in the previous tax period exceeded HRK 3,000,000, or
 - fulfils two out of the three following conditions:
 - if the income earned in the previous tax period exceeded HRK 400,000,

- if the value of his long-term assets exceeds HRK 2,000,000,
 - if he in the previous tax period had more than 15 employees on average;
5. exceptionally, government administration bodies, regional self-administration bodies, local self-administration bodies, Croatian National Bank, institutions of regional self-administration units, institutions of local self-administration units, state institutes, religious communities, political parties, trade unions, chambers, associations, artists associations, voluntary fire-fighting societies, technical culture communities, tourist communities, sports clubs, sports societies and associations, trusts and funds, if they perform commercial activities whose non-taxation would lead to unjustified advantages on the market (they are subject to corporate (profit) tax for such commercial activities). The tax authority will at own initiative or at the proposal of other tax obligors declare in its decision that the above stated persons are obliged to pay corporate (profit) tax for such commercial activities;
6. each entrepreneur not counted to entrepreneurs counted in items 1 through 5 who is not an income tax obligor according to the income tax regulations and whose profit is not taxable elsewhere.

In the event that subjects from item 5 above perform an economic activity in accordance with special legislation and if non-taxation of these subjects would lead to unjustified advantages on the market, they are bound to register with the register of tax obligors of the Tax administration within 8 days from starting performance of the activity.

Open end investments funds established and acting in accordance with local law are not corporate tax obligors.

Withholding tax obligors are payers of interests, dividends, shares in profit, royalties for copyrights and other intellectual property rights (copyrights, patents, licences, trademarks, designs or models, production processes, production formulae, drawings, plans, industrial or scientific experience and similar rights) to foreign persons other than natural persons. Withholding tax is also paid on payments for market research services, tax and business consulting or audit services to foreign persons and any other kinds of services paid to persons having their registered seats or places of actual administration or supervision in a non EU Member State in which a general or average nominal corporate (profit) tax rate is less than 12.5% and the state is listed in the List of States passed by the finance minister.

The subject of taxation is the profit determined according to accounting regulations as difference between income and expenses before profit tax, increased or decreased according to the Profit Tax Act.

In case of withholding tax the subject of taxation is the gross amount of payment paid by a payer in the country to a non-resident - foreign recipient.

Corporate (profit) tax rate is 20% and withholding tax rate 15%, except for dividends and shares in profit for which the withholding tax rate is 12%, and 20% for all kinds of services paid to persons having their registered seat or place of actual administration or supervision in a state considered to be a tax haven or a financial centre, except EU Member States and states with which the Republic of Croatia has entered into and is applying a double taxation treaty and the state is listed in the List of States passed by the finance minister.

From the admission of the Republic of Croatia to the European Union the withholding tax for dividends and shares in profit is not payable if dividends or shares in profit are paid to companies having a form to which applies a consolidated taxation system which applies to parent companies and affiliated companies from different EU Member States provided that the relevant recipient of dividends or shares in profit holds in an uninterrupted period of 24 months at least 10% share in the capital of the company that pays dividends or shares in profit.

3.4 Czech Republic

3.4.4 General

Unless specifically stated otherwise the information set out below relates only to Czech withholding tax and does not deal with any other Czech tax consequences of the purchase, holding and disposal of the Notes and it does not purport to be a complete analysis of all Czech tax considerations relating to the Notes that may be relevant to a decision to purchase the Notes and, therefore, each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes.

This information is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

For the purposes of this information, it has been assumed that (i) neither of the Issuers has been, as of the date hereof, and the Issuers shall not, after the date of this Base Prospectus, become resident in the Czech Republic for tax purposes and (ii) the interest on the Notes will not be paid through a permanent establishment of an Issuer in the Czech Republic.

3.4.2 Interest Income

All payments of interest made by Issuers under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Czech Republic or any political subdivision or taxing authority thereof or therein.

3.4.3 Capital gains

3.4.3.1 Czech residents

Taxpayers other than individuals, which are residents of the Czech Republic, generally tax the capital gains in general corporate income tax base (currently at 19% rate for corporations, 5% for certain mutual and investment funds and 0% for pension funds). Losses on the sale of debt securities are fully tax deductible (except for promissory notes).

Individuals, which are Czech residents, tax the capital gains (defined as the difference between the proceeds from the sale of an item and the cost of its acquisition) as ordinary income. If the securities have been held for more than 3 years, the capital gain is exempt from taxation (provided the securities were not part of the individual's entrepreneurial assets). The capital loss is tax non-deductible (unless realizes within 3 years following the acquisition when it can be deducted from prospective capital gains realized on sale of other securities within the same calendar year). Furthermore, income from the sale of securities realized by an individual is exempt from taxation, if the annual (worldwide) income of that individual from the sale of securities does not exceed the amount of CZK 100,000.

3.4.3.2 Czech non residents

Income realised by a taxpayer who is not for tax purposes treated as a resident of the Czech Republic (**Non-Czech Holder**), whether holding the Notes through a permanent establishment in the Czech Republic or not, from the sale of the Notes to a taxpayer who is for tax purposes treated as a resident of the Czech Republic (**Czech Holder**) or to a Non-Czech Holder acquiring the Notes through a permanent establishment in the Czech Republic, will generally be subject to taxation in the Czech Republic, unless:

- (A) the Non-Czech Holder realising that income is resident in a country within the meaning of a double taxation treaty concluded between that country and the Czech Republic, pursuant to the terms of which the right to tax that income is conferred exclusively to the former country;
- (B) the income realised by a Non-Czech Holder is exempt from tax which, in the case of a Non-Czech Holder who is an individual, is generally true if (i) the Notes have been held by the Non-

Czech Holder for more than 3 years prior to their sale and have not been held in connection with a business activity of such Non-Czech Holder or (ii) the annual (worldwide) income of such Non-Czech Holder from the sale of securities (including the Notes) does not exceed the amount of CZK 100,000.

If income realised by a Non-Czech Holder, whether holding the Notes through a permanent establishment in the Czech Republic or not, from the sale of the Notes is subject to taxation in the Czech Republic (as discussed in the previous paragraph), the Czech Holder or a permanent establishment in the Czech Republic of a Non-Czech Holder paying the income, will be obliged to withhold an amount of one per cent. on a gross basis representing tax security, unless the Non-Czech Holder is for tax purposes a resident of a Member State of the European Union or the EEA, or unless the obligation to withhold is waived or the percentage is reduced based on the tax authority's decision. The tax security withheld is generally creditable against the final tax liability of a Non-Czech Holder with any amount in excess of such liability constituting a tax overpayment which is, subject to certain conditions, refundable to a Non-Czech Holder.

3.4.4 **EU Savings Directive**

Under European Council Directive 2003/48/EC on the taxation of savings income (Directive), Member States (including the Czech Republic which implemented the Directive into Section 38fa (Paying Agent) of the Czech Income Tax Act) are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Austria is instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments¹ (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has recently proposed a new directive intended to replace the Directive which may, if adopted, broaden the scope of the requirements described above.

3.5 **Denmark**

The following relates only to Danish withholding tax and does not deal with any other Danish tax implications of acquiring, holding or disposing of the Notes.

As the Issuer is not resident in Denmark, payments of interest or principal on the Notes will not be subject to Danish withholding tax.

As a matter of Danish domestic tax law, payments of interest or principal made by a Danish borrower to a creditor under a loan are, as a rule, not subject to any Danish withholding tax.

However, interest payments and certain principal payments made by a Danish borrower pursuant to an intra-group loan to an affiliated foreign company (as defined in Section 3B of the Danish Tax Control Act of 27 June 2011, as amended) are subject to a Danish withholding tax of 25 per cent., unless they fall under at least one of the following categories under Danish tax law:

- the affiliated foreign creditor has a permanent establishment in Denmark to which such interest income is attributed;
- withholding tax must be waived or reduced under the Interest/Royalty Directive (2003/49/EU), provided that the Danish borrower and the foreign creditor are associated as defined under this Directive for a consecutive period of a minimum of one year, during which the interest payments are effected;

¹

Belgium and Luxembourg previously also operated a transitional withholding system but has opted to provide details of payments of interest in accordance with the EC Council Directive 2003/48/EC, as from 1 January 2010 and 1 January 2015 respectively.

- withholding tax must be waived or reduced under a tax treaty to which Denmark is a party;
- the affiliated foreign creditor is directly or indirectly controlled by a Danish parent company as defined in Section 31 C of the Danish Company Taxation Act for a consecutive period of minimum one year, during which the interest payments are effected;
- the affiliated foreign creditor is controlled by an entity resident in a country that has concluded a tax treaty with Denmark, provided that such entity is subject to CFC taxation on the interest payments pursuant to the CFC taxation rules of that country; or
- the affiliated foreign creditor can demonstrate that the foreign taxation of the interest payments corresponds to at least three-quarters of the Danish corporate tax rate and it does not forward payments of interest to another foreign company which is taxed on such interest payments at a rate of less than three-quarters of the Danish corporate tax rate.

Payments may be subject to Danish withholding tax irrespective of the above if the beneficiary of the payments is not the beneficial owner (e.g. if the beneficiary of the payments reassigns the payments to a person or entity resident in a jurisdiction other than Denmark).

3.6 Finland

The following is a summary based on current Finnish tax laws relating only to persons who are generally tax liable in Finland (i.e. residents of Finland for tax purposes) and regarding the Finnish withholding tax treatment of payments in respect of the Notes. Investors are advised to seek professional advice relating to tax consequences in respect of acquiring, holding or disposal of Notes.

As the Issuer is not resident in Finland for tax purposes, there is no Finnish withholding tax (*fi. lähdevero*) applicable to the payments made by the Issuer in respect of the Notes. However, Finland operates a system of preliminary taxation (*fi. ennakonpidätysjärjestelmä*) to secure payment of taxes in certain circumstances. In the context of the Notes, a tax of 30 per cent will be deducted and withheld from all payments that are treated as interest or as compensation comparable to interest (normally including also gains (such as yield spread or premium) arising from the redemption (but not the disposal) of the Notes), when such payments are made to individuals by certain Finnish financial institutions when acting as Paying Agents. Such preliminary tax (*fi. ennakonpidätys*) will be used for the payment of the individual's final taxes (which means that it will be taken into account as paid tax in the individual's final taxation).

3.7 Germany

The following discussion of certain German tax consequences of buying, holding or disposing of the Notes is based on tax laws, regulations, decisions, judgments and administrative decrees currently in effect, which may be amended or construed differently, potentially with retroactive or retrospective effect. However, this section does not refer to all possible tax considerations which are relevant to the decision of any potential purchaser with respect to buying, holding or disposing of a Note; in particular, it does not refer to specific circumstances which may be relevant to certain purchasers such as church tax (Kirchensteuer) or individual tax privileges. This means that the following text exclusively refers to Notes as an investment as such (unless expressly indicated otherwise) and does not address any persons in their specific tax situation. The information contained in the following section is not intended as and does not purport to be legal or tax advice.

Potential investors in the Notes are therefore advised to consult their own tax advisers as to the German and other tax consequences of buying, holding or disposing of the Notes.

As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. If necessary, the prospectus regarding the respective Tranche of Notes will contain more specific but also general information on the possible tax treatment of

the respective Notes. Potential investors should therefore always review the respective Final Terms also with respect to additional tax information.

3.6.1 German taxation of residents

3.6.1.1 Notes held as a private asset

Taxation of interest income

Under German tax law, payment of interest on the Notes to persons who are tax residents of Germany (including persons whose residence, habitual abode, statutory seat or place of management is located in Germany, a "German Holder") and who held the Note as a private asset is subject to German income tax as capital income in the meaning of § 20 German Income Tax Act. From the year 2009, a final taxation ("Abgeltungsteuer") is charged on capital income at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon, resulting in a total final taxation of 26.375%. Taxable base is the received interest without any deduction of expenses actually incurred. The total capital income of the individual will be deducted by a personal annual exemption ("Sparer-Pauschbetrag") of EUR 801 (EUR 1,602 for married couples filing their tax return jointly). The personal income tax liability regarding the capital income is, in principle, settled by the tax withheld. If no withholding tax was charged on the payment of the interest, the German Holder will have to include this interest income in its tax return. The final taxation will then be charged by way of assessment. The German Holder may also apply for assessment of the capital income based on the general rules if the personal income tax rate of the German Holder is lower than the final taxation rate. In such assessment, (i) still no deduction of expenses actually incurred is available (except for the deduction of the personal annual exemption ("Sparer- Pauschbetrag") of EUR 801 or EUR 1,602 for married couples filing their tax return jointly) and (ii) the withholding tax will be credited.

Withholding tax on interest income

If the Notes are held in a custodial account maintained by a German Holder with a German branch of a German or foreign bank or financial services institution (a "German Disbursing Agent"), which pays or credits the interest, a 25% withholding tax ("Kapitalertragsteuer") on interest payments, plus a 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon will be levied, resulting in a total withholding tax charge of 26.375% on the gross amount of interest paid. Accrued Interest paid by a German Holder upon the purchase of the Notes may be set-off against the amount of interest income received by such German Holder and, under certain circumstances, may reduce the amount subject to withholding tax.

If the Noteholder is an individual to whom income from the Notes constitutes income from a capital investment and such Noteholder has filed a certificate of exemption ("Freistellungsauftrag") with the German Disbursing Agent, no tax will be withheld by the German Disbursing Agent to the extent that the interest income derived from the Notes together with other investment income administered by the German Disbursing Agent does not exceed the maximum exemption amount shown on this certificate. Similarly, no tax will be withheld if the Noteholder submits to the German Disbursing Agent a certificate of non-assessment ("Nichtveranlagungsbescheinigung") issued by the competent local tax office.

Disposal or redemption of the Notes

Capital gains resulting from the disposal or redemption of Notes (or, as the case may be, from the payment at maturity of the Notes) realised by individual German Holders holding the Notes as private assets are taxable as capital gains. They are also subject to the final taxation ("Abgeltungsteuer") at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon, resulting in a total final taxation of 26.375%.

Base for this taxation is the capital gain, which is in general the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. The taxable capital gains from Notes issued in a currency other than Euro also include any currency gains (and losses). In case of a physical settlement of certain Notes which grant the Issuer or

the individual Noteholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment in cash, generally no taxable capital gain may result, because the acquisition costs of the Notes are regarded as acquisition costs of the underlying securities received by the individual Noteholder upon physical settlement. Therefore, only losses can arise from the deduction of directly related expenses.

Capital losses in respect of the Notes held as a private asset may only be set-off against capital income within the same financial year and in subsequent years. However, if losses result from Notes held in a custodial account maintained by a German Disbursing Agent, initially the German Disbursing Agent will take these losses into account when calculating the withholding tax. In case the losses cannot be compensated in the current year the losses will be set off against the income of the subsequent year. Upon request of the German Holder the German Disbursing Agent will provide a certificate of all losses, which could not be set off during the current year within the custodial account. This certificate enables the German Holder to claim a deduction within the assessment of capital income.

Withholding tax on disposal or redemption of the Notes

Like the treatment of interest income a withholding tax at an amount of 25%, plus a 5.5% solidarity surcharge ("Solidarit tszuschlag") thereon (in total 26.375%) will be levied on capital gains from disposal or redemption of the Notes, if the Note is held in a custodial account maintained by a German Disbursing Agent. A withholding tax will not be charged if the German Holder has provided a certificate of exemption ("Freistellungsauftrag") or a certificate of non-assessment ("Nichtveranlagungsbescheinigung") to the German Disbursing Agent.

Base for this taxation is again the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. However, in case the Notes have not been kept in a custodial account with the same German Disbursing Agent since the time of acquisition, upon the disposal, redemption or repayment the withholding applies to 30% of the disposal proceeds, unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank or financial services institution within the EEA or certain other countries in accordance with art. 17 para. 2 of the European Council Directive 2003/48/EC. Furthermore, the special provision for a physical settlement of certain Notes applies for purposes of the withholding. Therefore, in principle, redemption accompanied by physical settlement may not result in a withholding tax.

3.6.1.2 Notes held as business assets or by a corporate body

If the Notes are held as business assets or by a corporate body all income received from the Notes (interest as well as capital gains) is subject to German income tax or German corporate income tax. The income from the Notes will be taxed at the German Noteholder's individual tax rate. The income tax or the corporate income tax is not settled by the tax withheld. Withholding tax and the solidarity surcharge thereon might be credited as prepayments against the German Holder's final tax liability for German personal or corporate income tax purposes and the respective solidarity surcharge, or, if in excess of such final tax liability, refunded upon application.

If the Notes are held in a German business establishment for trade tax purposes, interest income derived from the Notes will also be subject to trade tax on income, which is a municipal tax levied whose effective tax rate depends on the trade tax factor applied by the relevant municipality.

The taxation of the investment in the Notes might be calculated on an accruals basis. The income might therefore be taxed before the German Holder receives a payment from the Notes.

In general, withholding tax will be deducted in accordance with the same provisions as the withholding with respect to Notes held as private assets. The withholding tax on capital gains might not apply under certain circumstances and for certain capital income if the Notes are held by a tax resident corporate or if the Notes are held by an individual or by a partnership as part of the business assets as long as the

German Holder provides the German Disbursing Agent with a certificate of the character of the Notes as business assets.

3.6.2 German taxation of non-residents

Income derived from the Notes by persons who are not tax residents of Germany (Non-German Holders) is in general exempt from German income or corporate income taxation, and no withholding tax shall be withheld (even if the Notes are held with a German Disbursing Agent), provided (i) the Notes are not held as business assets of a German permanent establishment of the Non-German Holder, including a permanent representative, or fixed base of the Noteholder, (ii) the income derived from the Notes does not otherwise constitute German source income (such as income from the letting and leasing of certain German situs property), (iii) the Notes or coupons are not presented for payment at the offices of a German branch of a German or foreign bank or financial services institution, that do not hold in custody or manage the Notes, in an over-the-counter-transaction ("Tafelgeschäft") by a person who is not a foreign bank or financial service institution and, (iv) in the event that the Notes are held in a custodial account maintained by a German Disbursing Agent, the Noteholder complies with the applicable procedural rules under German law and provides evidence of the fact that the Notes are not subject to taxation in Germany. Unjustified retained withholding tax shall be refunded upon request to the Local Tax Office ("Finanzamt") to whom the withholding tax was paid.

If the interest is subject to German taxation (for example, if the Notes are held as business assets of a German permanent establishment of a Non-German Holder), such holder is subject to a tax treatment similar to that described above under the caption "German Taxation of Residents". The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

If the Notes are offered by the Issuer other than in Germany, information relating to withholding tax may be disclosed in the applicable Final Terms or, in the event of an offer which is made after completion of the applicable Final Terms, in a supplement to this Base Prospectus.

3.6.3 Gift or Inheritance Taxation

No estate, inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of estate and inheritance taxes, both the decedent and the beneficiary, and, in the case of gift taxes, both the donor and the donee, are tax non-residents and are not deemed to be a tax resident of Germany at the time of the transfer and such Notes are not attributable to a permanent establishment in Germany. In the case of a decedent, donor or heir who is a German national, this only applies if such person has been a non-resident of Germany for more than five consecutive years.

3.6.4 Stamp Duty

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

3.8 Hungary

The following is a general discussion of certain Hungarian tax consequences relating to the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. It is based on laws currently in force in Hungary and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive effect. Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Hungary and each country of which they are residents.

3.8.1 Withholding tax (foreign resident individual Noteholders)

Payments of interest on and capital gains realised upon the redemption or sale of publicly offered and traded Notes (**Interest Income**) are taxed at 16 per cent. personal income tax and a 6 per cent. health

care contribution may also apply². Notes listed on a regulated market of an EEA Member State are considered publicly offered and traded Notes.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA Member State is considered as other income (**Other Income**) which is part of the individual's aggregated income and is taxed at 16 per cent. and may also be subject to a health care contribution of 27 per cent³. Capital gains realised on the sale of such Notes is considered, as a general rule, capital gains income (**Capital Gains Income**). The tax rate applicable to Capital Gains Income is 16 per cent. while a health care contribution of 14 per cent. (capped at 450,000 Hungarian Forint (**HUF**) may also be payable on the basis of Capital Gains Income. Subject to certain conditions, individual Noteholders realising Capital Gains Income in a transaction entered into with a Hungarian or EEA investment firm can opt to treat their Capital Gains Income from such transaction as 'Income from controlled capital market transaction' which is subject to Hungarian personal income tax at a rate of 16 per cent. and no health care contribution is payable.

Foreign resident individual Noteholders are subject to tax in Hungary if they realise interest income from Hungarian sources or income that is otherwise taxable in Hungary if the international treaty or reciprocity so requires. Interest income should be treated as having a Hungarian source where:

- (1) the Issuer is resident in Hungary for tax purposes;
- (2) the Issuer has a permanent establishment in Hungary and interest income realised on the basis of the Notes is paid by the Hungarian permanent establishment of the Issuer;
- (3) the foreign resident individual Noteholder has a permanent establishment in Hungary to which the interest income is attributable.

The tax and health care contribution (if due) on payments of the Interest Income, Capital Gains Income and Other Income is to be withheld by the "Payor" (*kifizető*) (as defined below).

Pursuant to Act XC11 of 2003 on the Rules of Taxation (the **ART**) the definition of a payor (**Payor**) covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, Payor shall mean the borrower of a loan or, the issuer of a note, including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, Payor shall mean such stockbroker. The Hungarian permanent establishment of a foreign resident entity is also considered as a Payor.

Please note that the provisions of applicable treaties on the avoidance of double taxation, if any, should be considered when assessing the Hungarian tax liabilities of a foreign resident individual Noteholder. Such treaty may fully exempt Noteholders from withholding tax or may reduce the applicable withholding tax rate.

Interest, as defined by Schedule 7 of the ART (which implements the provisions of the Savings Directive), realised on Notes by citizens of any other Member State of the European Union is not subject to Hungarian tax where a paying agent based in Hungary provides data to the Hungarian state tax authority on the basis of Schedule 7 of the ART.

Subject to the applicable treaty on the avoidance of double taxation, a foreign resident individual Noteholder who does not have a permanent establishment in Hungary is not subject to tax in Hungary on the basis of realising Capital Gains Income or 'Income from controlled capital market transaction' from Hungary since such income is not considered as Hungarian source income.

² Unless the recipient provides proof of its social security insured status in another EEA Member State to the Payor.
³ Unless the recipient provides proof of its social security insured status in another EEA Member State to the Payor.

3.8.2 **Withholding tax (foreign resident corporate Noteholders)**

Interest on Notes paid to foreign resident corporate Noteholders, who do not have a permanent establishment in Hungary, by resident legal entities or other persons and any capital gains realised by such foreign resident Noteholders on the sale of Notes are not subject to tax in Hungary.

The tax liability of a foreign resident corporate Noteholder, which has a permanent establishment in Hungary is limited, in general, to the income from business activities realised through its Hungarian permanent establishment.

3.8.3 **Taxation of Hungarian resident individual Noteholders**

Act CXVII of 1995 on Personal Income Tax (the **Personal Income Tax Act**) applies to the tax liability of Hungarian and foreign private individuals. The tax liability of Hungarian resident private individuals covers the worldwide income of such persons.

According to the provisions of the Personal Income Tax Act, in the case of individual Noteholders, Interest Income is the income paid as interest and the capital gains realised upon the redemption or the sale of publicly offered and publicly traded debt securities. Notes listed on a regulated market of an EEA Member State are considered publicly offered and traded Notes. The personal income tax of 16 per cent. and a 6 per cent. health care contribution will be withheld by a Payor on the Interest Income.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA Member State are considered as Other Income which is taxable as part of the individual's aggregated income and is taxed at 16 per cent. and is also subject to a health care contribution of 27 per cent to be borne by the Payor. Capital gains realised on the sale or redemption of such Notes is considered, as a general rule, Capital Gains Income. The personal income tax rate applicable to Capital Gains Income is 16 per cent., while a health care contribution of 14 per cent. (capped at HUF450,000) may also be borne by the recipient on the basis of Capital Gains Income.

Subject to certain conditions, individual Noteholders realising Capital Gains Income in a transaction entered into with a Hungarian or EEA investment firm can opt to treat their Capital Gains Income from such transaction as 'Income from controlled capital market transaction' which is subject to Hungarian personal income tax at a rate of 16 per cent. and no health care contribution is payable in relation to such Capital Gains Income.

The rules of the Personal Income Tax Act may in certain circumstances impose a requirement upon the "Payor" (*kifizető*) (as defined below) to withhold tax on the interest payments to individual Noteholders.

Pursuant to the ART the definition of a Payor covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, Payor shall mean the borrower of a loan or the issuer of a note including, the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, Payor shall mean such stockbroker. In respect of income that is earned in a foreign country and taxable in Hungary, Payor shall mean the "paying agent" (*megbízott*) (legal person, organization, or private entrepreneur) having tax residency in Hungary, except in cases where the role of a financial institution is limited to performing the bank transfer or payment

3.8.4 **Taxation of Hungarian resident corporate Noteholders**

Under Act LXXXI of 1996 on Corporate Tax and Dividend Tax (the **Corporation Tax Act**), Hungarian resident taxpayers have a full, all-inclusive tax liability. In general, resident entities are those established under the laws of Hungary (i.e. having a Hungarian registered seat). Foreign persons having their place of management in Hungary are also considered as Hungarian resident taxpayers.

In general, interest and capital gains realised by Hungarian resident corporate Noteholders on Notes are taxable in the same way as the regular profits of the relevant Noteholders. The general corporation tax rate in Hungary is 10 per cent. up to the first HUF500 million of the taxpayer's corporate income tax base and 19 per cent. for the part above this threshold.

Financial institutions, financial enterprises, insurance companies and investment enterprises may be subject to local business tax and innovation tax on the basis of the proceeds realised on Notes.

3.9 Ireland

The following is a summary of the principal Irish withholding tax consequences of ownership of the Notes for individuals who are resident and ordinarily resident in Ireland for tax purposes and for companies that are resident in Ireland for tax purposes. It is based on the laws and practice of the Irish Revenue Commissioners currently in force in Ireland as in effect on the date of this Base Prospectus and may be subject to prospective or retroactive change. The statements in this summary are based on the understanding that the Notes will be treated as debt for Irish tax purposes. It deals with Noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, including dealers in Notes and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of payments thereon under any laws applicable to them.

3.9.1 Irish Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Notes so long as such payments do not constitute Irish source income. Interest paid on the Notes should not be treated as having an Irish source unless:

- (i) the Issuer is resident in Ireland for tax purposes; or
- (ii) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Notes; or
- (iii) the Issuer is not resident in Ireland for tax purposes but the register for the Notes is maintained in Ireland or (if the Notes are in bearer form) the Notes are physically held in Ireland.

It is anticipated that, (i) the Issuer is not and will not be resident in Ireland for tax purposes; (ii) the Issuer will not have a branch or permanent establishment in Ireland; (iii) that bearer Notes will not be physically located in Ireland; and (iv) the Issuer will not maintain a register of any registered Notes in Ireland.

3.9.2 Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from any interest paid on Notes issued by a company not resident in Ireland, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder who is Irish resident. Encashment tax does not apply where the Noteholder is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank.

3.10 Italy

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Programme and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to

special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

3.10.1 Tax treatment of the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended (Decree 239), provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

3.10.1.1 Italian resident Noteholders

Where an Italian resident Noteholder is (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless he has opted for the application of the "risparmio gestito" regime – see under "Capital gains tax", below); (b) a non-commercial partnership; (c) a non-commercial private or public institution; or (d) an investor exempt from Italian corporate income taxation, then interest, premium and other income relating to the Notes, accrued during the relevant holding period, are subject to a withholding tax referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. If the Noteholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Noteholder, also to IRAP – the regional tax on productive activities).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001, as clarified by the Italian Ministry of Economic Affairs and Finance through Circular No. 47/E of 8 August 2003, payments of interest premium or other proceeds in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and article 14-bis of Law No. 86 of 25 January 1994, or a close-ended real estate investment company are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund.

Where the Noteholder is an Italian investment funds (which includes *Fondi Comuni d'Investimento*), or open-ended investment company (*società di investimento a capitale variabile – SICAV*) or an close-ended investment company, other than a real estate investment company (*società di investimento a capital fisso – SICAF*), as well as Luxembourg investment funds regulated by article 11-bis of Law Decree No. 512 of 30 September 1983 (collectively, the Funds), Interest is subject neither to substitute tax nor to any other income tax in the hands of the Fund. A withholding tax may apply in certain circumstances at 26 per cent. on distributions made by the Funds.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an Intermediary).

An Intermediary must (a) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary; and (b) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the imposta sostitutiva, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the imposta sostitutiva is applied and withheld by any entity paying interest to a Noteholder.

Where an Italian resident Noteholder is a company or similar commercial entity and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to imposta sostitutiva, but must be included in the relevant Noteholder's income tax return and are therefore subject to general Italian corporate taxation.

3.10.1.2 *Non-Italian resident Noteholders*

No Italian imposta sostitutiva is applied on payments to a non-Italian resident Noteholder of interest or premium relating to the Notes provided that, if the Notes are held in Italy, the non-Italian resident Noteholder declares itself to be a non-Italian resident according to Italian tax regulations.

3.10.2 **Atypical securities**

Interest payments relating to Notes that are not deemed to fall within the category of bonds (obbligazioni) or debentures similar to bonds (titoli similari alle obbligazioni) may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

The 26 per cent. withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Noteholder and to an Italian resident Noteholder which is (a) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (b) a commercial partnership, or (c) a commercial private or public institution.

3.10.3 **Certificates**

Pursuant to Italian Legislative Decree 21st November, 1997, No. 461 payments in respect of Notes falling within the category of Certificates, qualifying as securitised derivative financial instruments, received by Noteholders as well as capital gains realised by Italian resident individuals (not engaged in entrepreneurial activities to which the Italian Certificates are connected) on any sale or transfer for consideration of the Notes or redemption or exercise thereof are subject to a 26 per cent capital gain tax ("*imposta sostitutiva*") (for further details please see under *Capital Gain Tax* below).

It must however be noted that, according to a different interpretation of the applicable provisions in force, the Certificates, in case representing debt instruments implying a "use of capital", could be qualified as "atypical security".

3.10.4 **Payments made by a non resident Guarantor**

With respect to payments made to Italian resident Noteholders by a non Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payment made by the non Italian resident guarantor could be treated, in certain circumstances, as a payment made by the relevant Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

3.10.5 **Capital gains tax**

Where the Italian resident Noteholder, who is the beneficial owner of the Notes, is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected, (ii) a non-commercial partnership, pursuant to article 5 of Presidential Decree No. 917 of 22 December 1986 (TUIR) (with the

exception of general partnership, limited partnership and similar entities), (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, and the Notes generate capital gains pursuant to article 67 TUIR, capital gains accrued on the sale of the Notes are subject to a 26 per cent. substitute tax (*imposta sostitutiva*). The recipient who is an Italian resident individual not engaged in an entrepreneurial activity to which the Certificates are connected may opt for three different taxation criteria provided for by article 67 TUIR and Legislative Decree No. 461 of 21 November 1997 (Decree 461), as subsequently amended, and below summarized.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the *risparmio amministrato* regime). Such separate taxation of capital gains is allowed subject to (a) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries, and (b) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in its annual tax return.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any decrease in value of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in its annual tax return.

Where an Italian resident Noteholder, who is the beneficial owner of the Notes, is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Notes are effectively connected, capital gains arising from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's income tax return and are therefore subject to IRES and, in certain circumstances, depending on the "status" of the Certificateholder, also as a part of the net value of production for IRAP purposes.

Any capital gains realised by a Noteholder which is a Fund will not be subject to *imposta sostitutiva*. A withholding tax may apply in certain circumstances at 26 per cent. on distributions or redemptions made by the Fund to certain categories of investors.

Any capital gains realised by a Noteholder which is an Italian pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax.

Capital gains realised by Italian resident real estate funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-bis of Italian Law No. 86 of 25 January 1994, or by a close-ended real estate investment company on the Notes are not taxable at the level of the real estate funds or real estate SICAF.

Capital gains realised by non-Italian resident Noteholders from the sale or redemption of the Notes are not subject to imposta sostitutiva, provided that the Notes (i) are transferred on regulated markets, or (ii) if not transferred on regulated markets, are held outside Italy.

3.10.6 Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding EUR1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding EUR100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

3.10.7 Registration tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds are subject to fixed registration tax at rate of €200; and (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

3.10.8 Wealth tax

According to article 19 of Law Decree No. 201 of 6 December 2011 (Decree No. 201/2011), converted with Law No. 214 of 22 December 2011, Italian resident individuals holding certain financial assets – including the Notes – outside of the Italian territory are required to pay a wealth tax at the current rate of 0.20 per cent. The tax applies on the market value at the end of the relevant year or – in the lack of the market value – on the nominal value or redemption value of such financial assets held outside of the Italian territory.

3.10.9 Stamp taxes and duties

According to article 19 of Decree No. 201/2011, a proportional stamp duty applies on a yearly basis at the current rate of 0.20 per cent. on the market value or – in the lack of a market value – on the nominal value or the redemption amount of any financial product or financial instruments deposited with an Italian financial intermediary. The stamp duty cannot be lower than € 34.20 and, for investors other than individuals, cannot exceed the amount of € 14.0500,00. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 9 February 2011) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

3.10.10 *Tax Monitoring*

Pursuant to Law Decree No. 167 of 28 June 1990, converted by Law No. 227 of 4 August 1990, as amended, individuals resident in Italy who, at the end of the fiscal year, hold investments abroad or foreign financial activities must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

3.10.11 *Financial Transaction Tax*

Art 1, § 491 to § 500 of Law 24 December 2012 n. 228 published in the Italian Official Gazette on 29 December 2012, introduced a tax on the transfer of Italian shares, and on the conclusions of derivatives and the transfer of securitised derivatives (such as covered warrants, warrants and certificates) whose underlying is mainly represented by Italian shares.

With respect to derivatives, (i) transactions in derivatives instruments, as defined by Art. 1(3) of Legislative Decree No. 58 of 24 February 1998 (the "Italian Financial Act"), connected to or the value of which is mainly linked to shares and other equity-like financial instruments issued by the Italian resident companies (collectively, the "Italian Shares"); and (ii) the transfer of securities, as defined by Art.1(1-bis), letter c) and d) of the Italian Financial Act, giving right to the holders to acquire or sell mainly Italian Shares or which determine a cash settlement mainly by reference to Italian Shares, are subject, to the tax.

Tax applies at fixed rates that vary depending on the financial instrument and on the value of the transaction. The fixed rate tax is applied regardless of where the transaction is executed and the residence of the parties. In case of physical settlement, the tax is also payable upon the transfer of ownership rights on the underlying instruments (if Italian Shares), in accordance with rules provided for equities instruments.

The above mentioned tax is due by each of the counterparties to the transaction.

3.10.12 *EU Savings Directive*

Under EC Directive 2003/48/EC on the taxation of savings income (the EU Savings Directive), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Austria is instead required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures.

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

Implementation in Italy of the EU Savings Directive

Italy has implemented the Savings Directive through Legislative Decree No. 84 of 18 April 2005 (Decree No. 84). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

3.11 Norway

The following is a summary of certain Norwegian tax consequences for holders of the Notes who are resident in Norway for tax purposes. The summary is based on legislation as at the date of this document and is intended to provide general information only. The tax treatment of each Noteholder partly depends on the holder's specific situation. Each investor should consult a tax adviser as to the tax consequences relating to their particular circumstances resulting from holding Notes.

Any changes to applicable tax laws may have a retrospective effect.

3.11.1 **Taxation of Noteholders resident in Norway**

3.11.1.1 *Taxation of return on the Notes prior to disposal or redemption*

Any kind of return received on the Notes prior to disposal or redemption is taxable as "ordinary income" subject to the flat rate of 27 per cent. For taxpayers with a statutory obligation to keep accounting records interest is taxed on an accruals basis (i.e. regardless of when the return is actually paid). For other taxpayers accrued interest is as the main rule taxed when the interest is actually paid.

3.11.1.2 *Taxation upon disposal or redemption of the Notes*

Redemption at the end of the term as well as prior disposal is treated as realisation of the Notes and will trigger a capital gain or loss. Capital gains will be taxable as "ordinary income", subject to the flat rate of 27 per cent. Losses will be deductible in the Noteholder's "ordinary income", taxed at the same tax rate.

Any capital gain or loss is computed as the difference between the amount received by the Noteholder on realisation and the cost price of the Notes. The taxable gain is calculated in Norwegian kroner. The amounts received are converted to Norwegian kroner at the foreign exchange rate at the time of realisation. The cost price is equal to the price for which the Noteholder acquired the Notes, at the foreign exchange rate at the time of acquisition. Costs incurred in connection with the acquisition and realisation of the Notes may be deducted from the Noteholder's taxable income in the year of the realisation.

3.11.1.3 *Taxation of gains and deduction of losses regarding foreign currency exchange*

Any gains or losses derived from foreign currency exchange are taxable in the income year of realisation of the Note.

Special rules regarding deduction of unrealised losses on foreign currency claims apply for taxpayers with a statutory obligation to keep accounting records. For short dated Notes, with a maturity date within less than a year, and long-term Notes, with a maturity date of more than a year, any unrealized loss is tax deductible. The loss is calculated as fair market value less the cost price. For long-term Notes such taxpayer shall enter as income any unrealised foreign exchange gains related to the Note, to the same extent that the taxpayer has deducted a unrealised foreign exchange loss on the same Note in previous years. Gains or loss are calculated as fair market value less the cost price.

3.11.1.4 *Tax credit*

If the Note issuer's resident state applies withholding tax on interest payments, and the application of such withholding tax is not in conflict with a tax treaty between the Note issuer's resident state and Norway, the holder of the Note may claim tax credit in Norway, i.e. deduct taxes paid in that other state from taxes payable in Norway. Limitations may apply.

3.11.1.5 *Net wealth taxation*

The value of the Notes at the end of each income year will be included in the computation of the Noteholder's taxable net wealth for municipal and state net wealth tax purposes. Listed bonds are valued at their quoted value on 1 January in the assessment year, while non-listed bonds are valued at

their estimated market value on 1 January in the assessment year. The marginal tax rate is currently 0.85 per cent.

Limited companies and similar entities are not subject to net wealth taxation.

3.11.1.6 *Transfer taxes etc. – VAT*

There are currently no Norwegian transfer taxes, stamp duty or similar taxes connected to purchase, disposal or redemption of the Notes. Further, there is no VAT on transfer of the Notes.

3.12 **Poland**

The following summary is not intended to be a complete analysis of the tax consequences under Polish law as a result of the acquisition, ownership, sale, redemption or transfer without consideration of the Notes by investors. This statement must not be understood to be tax advice. It is based on the Polish tax law and its interpretation in effect as of the date of this prospectus that may be subject to changes. Such changes may be enacted also retroactively and may negatively affect the tax treatment as described below. This description does not purport to be complete with respect to the tax information that may be relevant for investors due to their personal circumstances. Potential investors should, therefore, consult their professional tax advisers on the tax consequences of such acquisition, ownership, sale, redemption or transfer without consideration, including specifically the tax consequences under Polish law, the law of their jurisdiction of residence and any tax treaty between Poland and their jurisdiction of residence.

The following is a brief summary of the principal Polish tax consequences for the Noteholders.

3.12.1 **Corporate - residents**

Income earned by a Polish resident corporate, whether interest or proceeds from the sale of the Notes, would be accumulated with other incomes and losses in the given tax year and, as ordinary income, subject to the general 19 per cent. income tax rate. As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when received and not when accrued. In respect of the capital gains, the costs of acquisition of securities will be recognised at the time the revenue is achieved.

The proceeds are not subject to Polish withholding tax.

Any withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland – e.g. Curaçao), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. of the interest amount, can be deducted from the Polish tax liability.

According to the Double Tax Treaty concluded between Poland and France, as a rule, there is no French withholding tax on interest payable from France to a Polish entity. Also capital gains earned in France by a Polish resident should, in principle, be taxable only in Poland.

3.12.2 **Natural persons - residents**

Income – other than interest – earned by Polish resident natural persons from financial instruments held as non-business assets, should not be accumulated with other, general incomes, but should be treated as derived from a specific source of income – income from capital investments– which is subject to 19 per cent. flat rate personal income tax. In principle, this income should be settled by the taxpayer by 30 April of the following year. However, due to ambiguous wording of Art. 40 of the PIT Act, certain individuals (referred to in Arts. 31, 33, 34 and 25 of the PIT Act, i.e. primarily people who also obtain income from employment or pensions) are encouraged to seek professional advice regarding the timing of the tax settlement.

Income earned on the sale of the Notes by individuals within the scope of their business activity should be treated as any other income from the business activity and subject to the flat rate 19% income tax or

the progressive (18% - 32%) income tax rate depending on meeting the relevant conditions and the choice of the taxpayer.

If interest or discount (i.e. the difference between the redemption price paid by the issuer and the purchase price of the Notes paid by the investor) is paid by a Polish entity (e.g. a bank or a brokerage house), in principle, the entity should withhold the 19 per cent. tax.

If interest is paid by a foreign entity, further to currently prevailing interpretations the entity would not be obliged to withhold Polish income tax. If tax is not withheld by the entity making the payment (whether foreign or Polish) the tax should be settled by the individual. Potentially the foreign entity could make withholdings pursuant to laws of other jurisdictions and any relevant double tax treaty. Withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability.

Interest income does not cumulate with the general income subject to the progressive tax rate but is subject to the 19 per cent. tax.

According to the Double Tax Treaty concluded between Poland and France, as a rule, there is no French withholding tax on interest payable from France to a Polish person. Also capital gains earned in France by a Polish resident, should in principle be taxable only in Poland.

3.12.3 *Non-resident corporate entities and natural persons*

Non-Polish residents are only subject to taxation in respect of income derived from Poland.

In principle, interest earned from the Notes should not be classified as income originating from the territory of Poland, and as such, it should be not subject to Polish withholding tax.

This should also be the case with respect to the sale of the Notes. However, certain doubts could arise if the Notes are sold within the territory of Poland. According to the Ministry of Finance, if securities are sold on a Warsaw Stock Exchange, the relevant income is earned in Poland. If this is the case, exemption from Polish income tax could potentially be achieved on the grounds of the relevant Double Tax Treaty. Most of the tax treaties concluded by Poland provide that such capital income should only be taxed in the income recipient's country of the residence.

3.12.4 *Stamp Duty*

In principle, no stamp duty should be payable upon a transfer of Notes in Poland, unless the following conditions apply jointly: (i) Notes are transferred to a Polish individual or entity other than an investment firm, (ii) the sale or exchange agreement is concluded in Poland; (iii) the transaction is not concluded on an organised market (iv) the transaction is not concluded with intermediation of an investment firm; and (v) the transaction is not considered to be a VAT-exempt financial service or any other transaction subject to VAT within any EU country.

3.12.5 *EU Savings Directive*

Under European Council Directive 2003/48/EC on the taxation of savings income (Directive), Member States (including Poland) are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

3.13 *Portugal*

The following is a summary of the principal Portuguese tax issues at the date hereof in relation to certain aspects of Portuguese taxation on payments of principal and interest in respect of the Notes. The statements do not deal with other Portuguese tax aspects regarding the Notes and relate only to the

position of persons who are absolute beneficial owners of the Notes. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. Noteholders who are in any doubt as to their tax position should consult their professional advisers.

Noteholders who may be liable to taxation in jurisdictions other than Portugal in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions). In particular, Noteholders should be aware that they may be liable to taxation under the laws of Portugal and of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of Portugal.

The references to "interest", "investment income" and "capital gains" in the paragraphs below means "interest", "investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take any account of any different definitions of "interest" or "investment income" which may prevail under any other law or which may be created by the Conditions or any related documentation.

3.13.1 Noteholder's Income Tax

Income generated by the holding (distributions) and transfer of the Notes is generally subject to the Portuguese tax regime for debt securities (*obrigações*).

Economic benefits derived from interest, amortisation, reimbursement premiums and other types of remuneration arising from the Notes are designated as investment income for Portuguese tax purposes.

3.13.1.1 Withholding tax and autonomous taxation arising from the Notes

Payments of principal on the Notes are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any remuneration component.

Corporate entities

Under current Portuguese law, investment income payments in respect of the Notes made to Portuguese tax resident companies and by non-resident legal persons with a permanent establishment in Portugal to which the investment income is attributable are included in their taxable income and are subject to corporate tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the Noteholders taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

As regards investment income on the Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 25 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at progressive rates of up to 46.5 per cent. In this case, the tax withheld is deemed to be a payment on account of the final tax due. An additional income tax rate of 2.5 per cent that will be due on the part of the taxable income exceeding € 153.300.

Interest payments due by non resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 25 per cent. whenever those payments are not subject to Portuguese withholding tax.

Investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more accountholders acting on account of unidentified third parties is subject to a final withholding tax at 30 per cent., unless the beneficial owner of the income is identified and as a consequence the applicable tax rates to such beneficial owner will apply.

A final withholding tax at a rate of 30 per cent. applies in case of investment income payments made by an entity resident in a country, territory or region subject to a clearly more favourable tax regime included in the "low tax jurisdictions" list approved by Ministerial order (Portaria) no. 150/2004 of 13 February, amended by Ministerial Order (Portaria) 292/2011, November 8 2011, which are made available (*colocado à disposição*) to individuals by a Portuguese resident paying agent.

Investment income payments made by an entity resident in a country, territory or region subject to a clearly more favourable tax regime included in the "low tax jurisdictions" list approved by Ministerial order (Portaria) no. 150/2004 of 13 February, amended by Ministerial Order (Portaria) 292/2011, November 8 2011 are subject to an autonomous taxation at a rate of 30 per cent. whenever those payments are not subject to Portuguese withholding tax.

3.13.1.2 *Capital gains arising from the transfer of Notes*

Corporate entities

Capital gains obtained with the transfer of the Notes by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the capital gains are attributable are included in their taxable income and are subject to corporate tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

Capital gains obtained by Portuguese resident individuals on the transfer of Notes are taxed at a special tax rate of 25 per cent. levied on the positive difference between the capital gains and capital losses of each year. In this respect, an income tax exemption applies if the annual positive difference obtained with the transfer of shares, bonds and other debt securities does not exceed €500. Accrued interest does not qualify as capital gains for tax purposes.

3.13.1.3 *Stamp tax*

Corporate entities

The acquisition through gift or inheritance of Notes by a Portuguese resident legal person or non-resident acting through a Portuguese permanent establishment although not subject to stamp tax is subject to corporate income tax at a rate of 25 per cent. A municipal surcharge ("*derrama municipal*") of up to 1.5 per cent. may also be due over the Noteholders taxable profits. A State Surcharge ("*derrama estadual*") is due at a rate of 3 per cent due on the part of the taxable profits exceeding € 1.500.000 up to € 10.000.000 and of 5 per cent on the part of the taxable profits exceeding € 10.000.000.

Individuals

No stamp tax applies to the acquisition through gift or inheritance of Notes by an individual.

3.13.2 *EU Savings Directive*

Portugal has implemented the European Council Directive 2003/48/EC of 3 June 2003 on taxation savings income into the Portuguese law through Decree-Law no 62/2005, of 11 March 2005, as amended by Law no 39-A/2005, of 29 July 2005.

3.14 **Slovak Republic**

The information set out below is a description of certain material Slovak tax consequences of the acquisition, holding, sale, assignment and redemption of the Notes and it does not purport to be a complete analysis of all Slovak tax considerations relating to the Notes that may be relevant to a decision to purchase the Notes. This summary does not take into account or discuss the tax laws of any

country other than the Slovak Republic nor does it take into account the individual circumstances, financial situation or investment objectives of an investor in the Notes.

This summary is based on the tax laws of the Slovak Republic as in effect on the date of this Base Prospectus and their prevailing interpretations available on or before such date. All of the foregoing is subject to change, which could apply retroactively and could affect the continued validity of this summary. With regard to certain types of notes neither official statements of the tax authorities nor court decisions exist and it is not clear how these notes will be treated.

Holders of the Notes should consult their own tax advisors as to the consequences under the tax laws of the country in which they are resident for tax purposes and the tax laws of the Slovak Republic concerning the acquisition, holding, sale, assignment and redemption of the Notes and receiving payments of interest, principal and/or other payments under the Notes, including, in particular, the application to their own situation of the tax considerations discussed below as well as the application of state, local, foreign or other tax laws.

Individuals and legal entities who are tax residents in the Slovak Republic are subject to income taxation (personal income tax or corporate income tax) on their worldwide income, regardless of its source, including interests from the Notes, redemption of Notes and capital gains from the sale of the Notes. "Income" shall mean income both in cash and in kind (even if obtained through an exchange), which has been attributed to the value, which is usual in the place and the time of performance or consumption, taking into account its type and quality, and, where appropriate, its condition and grade of depreciation, unless otherwise provided by applicable legislation.

Taxable income from the Notes derived by individuals is taxed at a tax rate of 19% for that part of the annual tax base up to the amount of 176.8 times subsistence income and 25% for that part of the annual tax base which exceeds this amount. Income from the sale of the Notes derived by individuals decreased by expenses may be exempt from income tax up to the amount of 500 EUR in one tax period. Taxable income from the Notes derived by individuals may be subject to obligatory health insurance contributions due in Slovakia. It should be noted that the above information on tax rate and exemption(s) applies for the tax period of the year 2015 and may be changed in the following tax periods.

Interests from the Notes and income received upon redemption of Notes representing income sourced outside the Slovak Republic received by the individuals who are tax residents in the Slovak Republic are taxable; the tax base could generally be reduced by mandatory health and social security insurance contributions payable from this income. Capital gain from the sale of the Notes derived by individuals who are tax residents in the Slovak Republic is taxable, the acquisition price of the Notes and related expenses including mandatory health and social security insurance contributions payable from this income are tax deductible. In general, any loss from sale of the Notes is not recognized for tax purposes.

Taxable income from the Notes derived by legal entities is taxed at a tax rate of 22%. Legal entities who are tax residents in the Slovak Republic which hold the Notes as their business assets pay corporate income tax from interest received and capital gain from the sale / redemption of the Notes within general tax base (determined in accordance with the accounting regulations). Loss from the sale of the Notes may not be recognized for tax purposes provided the taxpayer reported an overall loss from the sale of all notes sold in the respective tax period (exceptions apply).

Due to the repeated recent amendments to the withholding tax and health insurance contributions regimes, each individual and legal entity must evaluate obligations in this area which may arise under relevant legislation, including transitional provisions.

3.15 Spain

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Spain (applicable in Spain mainland, except Basque Country and Navarra), though it is not intended to be, nor should it be construed to be, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Notes or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Notes and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Spanish tax law, to which they may be subject.

3.15.1 Individuals with Tax Residence in Spain

3.15.1.1 Personal Income Tax

Personal Income Tax is levied on an annual basis on the worldwide income obtained by Spanish resident individuals, whatever the source is and wherever the relevant payer is established. Therefore any income that Spanish holders of the Notes may receive under the Notes will be subject to Spanish taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties).

Both types of income will be included in the savings part of the taxable income subject to Personal Income Tax at the following rates in 2015: 20% on the first €6,000, 22% on the amount exceeding €6,000 up to €50,000, and 24% on the amount exceeding €50,000. However, these rates will be reduced to 19%, 21% and 23%, respectively, from 2016 onwards.

Spanish holders of the Notes shall compute the gross interest obtained in the savings part of the taxable base of the tax period in which it is due, including amounts withheld, if any.

Income arising on the disposal, redemption or reimbursement of the Notes will be calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition or subscription value. Costs and expenses effectively borne on the acquisition and transfer of the Notes may be taken into account for calculating the relevant taxable income, provided that they can be duly justified.

Losses that may derive from the transfer of the Notes cannot be offset if the investor acquires homogeneous securities within the two-month period prior or subsequent to the transfer of the Notes, until he/she transfers such homogeneous securities.

Additionally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

3.15.1.2 Wealth Tax

Individuals who are Spanish tax residents are subject to an annual Wealth Tax on their total net wealth on 31 December, regardless of the location of their assets (such as the Notes) or of where their rights may be exercised. However, according to Law 4/2008 of 23 December, taxpayers benefit from a 100 per cent allowance on their Wealth Tax liability as from 2008. Nevertheless only for 2011, 2012, 2013 and 2014 tax years the Wealth Tax has been restated. The levy of the wealth was newly extended to year 2015 according to Law 36/2014 of 26th December, 2014 regarding the Budget for 2015. However

certain autonomies have maintained the allowance so that in practical terms this means that taxpayers from those territories are effectively tax exempt from Wealth Tax.

3.15.1.3 *Inheritance and Gift Tax*

Inheritance and Gift Tax is levied on individuals' heirs and donees resident in Spain for tax purposes. It is calculated taking into account several circumstances, such as the age and previous net worth of the heir or donee and the kinship with the deceased person or donor. The applicable tax rate currently ranges between 7.65 and 34 per cent depending on the particular circumstances, although the final tax payable may increase up to 81.6 per cent. This is nevertheless subject to the specific rules passed by the relevant Spanish regions with respect to this tax.

3.15.2 ***Legal Entities with Tax Residence in Spain***

3.15.2.1 *Corporate Income Tax*

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by entities which are resident for tax purposes in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for limited liability companies for fiscal year 2015 is 28 per cent (i.e. 25 per cent from fiscal year 2016 onwards). However, and only for fiscal year 2015, small sized companies (those companies whose net business income is lower than €10,000,000) can benefit from the reduced tax rate of 25 per cent on the first €300,000 of their taxable profits. In addition, and also only for fiscal year 2015, companies with a net business income lower than €5,000,000 and an average staff of fewer than 25 employees could also benefit from the reduced rate of 25 per cent, in this case in respect of all their taxable profits. Besides, please note that newly incorporated entities that develop economic activities are taxed at a 15 per cent tax rate in the first taxable year in which their taxable base is positive and in the next one. Also, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

3.15.3 ***Individuals and legal entities with no Tax Residence in Spain***

A non-resident holder of Notes, who has a permanent establishment in Spain to which such Notes are attributable, is subject to Spanish Non-Residents' Income Tax on any income under the Notes, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes. In general terms, the tax rules applicable to individuals and legal entities with no tax residence in Spain but acting through a permanent establishment in Spain are the same as those applicable to Corporate Income taxpayers.

3.15.4 ***Spanish withholding tax***

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes or intervenes as manager in the collection of any income under the Notes, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes. The current withholding tax rate in Spain is 20 per cent (19 per cent from fiscal year 2016 onwards). Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish tax resident individuals, or against final Spanish Corporate Income Tax liability, in the case of Spanish corporate, or against final Non-Residents' Income Tax, in the case of a Spanish permanent establishment of a non-resident holder of the Notes. However, holders of the Notes who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a permanent establishment in Spain to which the Notes are attributable can benefit from a withholding tax exemption when the Notes are listed in an OECD official stock exchange. This will be the case as the Notes are expected to trade on the Luxembourg Stock Exchange's regulated market.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish Personal Income Tax (Royal Decree 439/2007, of 30 March) and Corporate Income Tax (Royal Decree 1777/2004, of 30 July⁴) when intervening in the transfer or reimbursement of the Notes.

3.15.5 Indirect taxation

As a general rule, the acquisition, transfer, redemption, reimbursement and exchange of the Notes will be exempt from Transfer Tax and Stamp Duty as well as Value Added Tax.

3.15.6 Reporting obligations to the Spanish Tax Authorities

Spanish resident holders of Notes or non-resident holders with a permanent establishment in Spain to which the Notes are effectively connected should seek advice from their tax advisor as to whether they should include the Notes in the annual reporting (Form 720) to the Spanish Tax Authorities declaring assets and rights held outside Spain.

⁴

Please note that a draft of new Corporate Income Tax Regulations has been recently published and is expected to be approved by the Spanish Parliament in the following months.

3.16 Sweden

The following discussion is an overview of certain material Swedish tax considerations relating to (i) Notes issued by any of the Issuers where the Holder is tax resident in Sweden or has a tax presence in Sweden and (ii) Notes where the Paying Agent or custodian is located in Sweden. This overview of certain tax issues that may arise as a result of holding Notes is based on current Swedish tax legislation and is intended only as general information for Holders of Notes who are resident or domiciled in Sweden for tax purposes, unless otherwise stated. This description does not deal comprehensively with all tax consequences that may occur for Holders of Notes, nor does it cover the specific rules where Notes are held by a partnership or are held as current assets in a business operation. The overview does, moreover, not cover Notes held on a so-called investment savings account (Sw: investeringssparkonto). Special tax consequences that are not described below may also apply for certain categories of taxpayers, including investment companies and life insurance companies. It is recommended that potential investors in Notes consult their own tax advisers for information with respect to the special tax consequences that may arise as a result of holding Notes, including the applicability and effect of foreign income tax rules, provisions contained in double taxation treaties and other rules which may be applicable.

3.16.1 Taxation of individuals resident in Sweden

Withholding of tax

There is no Swedish withholding tax (källskatt) applicable on payments made by the Issuer in respect of the Notes. Sweden operates a system of preliminary tax (preliminärskatt) to secure payment of taxes. In the context of the Notes a preliminary tax of 30 per cent. will be deducted from all payments treated as interest in respect of the Notes made to any individuals or estates that are resident in Sweden for tax purposes provided the paying entity is tax resident in Sweden and subject to reporting obligations. A preliminary tax of 30 per cent. will also be deducted from any other payments in respect of the Notes not treated as capital gains, if such payments are paid out together with payments treated as interest. Depending on the relevant Holder's overall tax liability for the relevant fiscal year the preliminary tax may fall short of, equal or exceed the Holder's overall tax liability, with any balance subsequently to be paid by or to the relevant Holder, as applicable.

Income from capital

For individuals and estates of deceased Swedish individuals capital gains, interest payments, dividends and other income derived from the holding of an asset should be reported as income from capital.

Capital gains and losses

Individuals and estates of deceased Swedish individuals, who sell their Notes, are subject to capital gains taxation. The tax rate is 30 per cent. of the gain. The capital gain or loss is equal to the difference between the sales proceeds after deduction of the acquisition cost and sales costs of the Notes. The acquisition cost is calculated according to the so-called average method. This means that the costs of acquiring all Notes of the same type and class are added together and calculated collectively, with respect to changes to the holding. Optionally, the so-called standard method under which the acquisition cost is deemed to be the equivalent of 20 per cent. of the net sales price, may be applied on the disposal of listed Notes (except for options and forward contracts) that are taxed in the same way as shares. A Note should be regarded as listed for Swedish tax purposes if it is listed on the Official List and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange or any other foreign market that is considered to be a stock exchange under Swedish tax law.

As a main rule, 70 per cent. of a capital loss is deductible against any other taxable income derived from capital.

However, capital losses on listed Notes that are taxed in the same way as shares are fully deductible against taxable capital gains on such listed assets or capital gains on listed as well as non-listed shares in Swedish limited liability companies and foreign legal entities. Any remaining capital loss is deductible at 70 per cent against any other capital income.

Capital losses on listed Notes qualifying as Swedish receivables (i.e. denominated in SEK) are currently fully deductible. Moreover, under EU law receivables denominated in foreign currency should also be fully deductible.

If a deficit arises on income from capital, a reduction of the tax on income from employment and from business, as well as the tax on real estate, is allowed. The tax reduction allowed amounts to 30 per cent. of any deficit not exceeding SEK 100,000 and 21 per cent. of any deficit in excess of SEK 100,000. Deficits may not be carried forward to a subsequent fiscal year.

Interest

Interest as well as other income derived from the holding of an asset is subject to tax at a rate of 30 per cent. The tax liability arises when the interest (or other income) is actually paid, in accordance with the so-called cash method.

Classification of various Notes and return on such Notes for tax purposes

Zero-coupon bonds

No formal interest accrues on zero-coupon bonds.

The gain from a redemption of a zero-coupon bond is regarded as interest, subject to tax at the time of redemption. The interest equals the difference between the subscription amount, and the redemption amount (the nominal amount). If the zero-coupon bond is disposed of prior to maturity; the appreciation in value due to accrued interest is defined as interest compensation, which is taxed as interest. If there is a loss on the bond, this is deductible as a capital loss in accordance with the principles referred to above.

FX linked notes

FX linked notes constitute receivables and are taxed as capital income. Appreciation or depreciation in value is recognised at disposal or redemption as a capital gain or loss in accordance with the principles referred to above.

Commodity linked notes

Commodity linked notes constitute receivables and are taxed as capital income. Appreciation or depreciation in value is recognised at disposal or redemption as a capital gain or loss in accordance with the principles referred to above.

Share linked notes

Share linked notes constitute Notes that are taxed in the same way as shares.

Any fixed, guaranteed return is taxed as interest and does not form part of any capital gain. Floating payments that cannot be predicted (based on the performance of a Reference Asset, such as an index) are classified as capital gains or, if the non interest return is earned before the note is disposed of as, other capital income.

Upon disposal prior to maturity an annual guaranteed return shall be regarded as interest compensation. Any remaining amount shall be treated as capital gain or loss. The acquisition cost for the instrument is the difference between the price paid for the note and any interest compensation amount.

At redemption, a yearly guaranteed return is regarded as interest, whereas any remaining part of a yearly floating return shall be treated as other capital income. The remaining part is taxed as a capital gain or loss.

Combination notes

Combination notes are considered as receivables for tax purposes (i.e. not as notes taxed in the same way as shares) if more than 50 per cent. of the return on the instrument derives from assets other than equity. The assessment is made at the time the notes are issued.

Taxation of non-residents in Sweden

Holders of Notes who are not fiscally resident in Sweden and who are not carrying on business operations from a permanent establishment in Sweden are generally not liable for Swedish capital gains taxation on the disposal of Notes. The holders may, nevertheless, be subject to tax in their country of residence. However, as far as non-resident individuals are concerned, capital gains on the sale of certain Notes (such as Notes taxed in the same way as shares) may in some cases be subject to Swedish tax if the individual has been resident or permanently lived in Sweden at any time during the calendar year of the sale or any of the 10 preceding calendar years. This provision is, nevertheless, in many cases limited under tax treaties for the avoidance of double taxation, which Sweden has concluded with other countries.

Stamp duty

There is no stamp duty on the issuing, transfer or redemption of Notes in Sweden.

Gift, Inheritance and Wealth taxes

There is no gift, inheritance or wealth tax in Sweden.

3.16.2 Taxation of Swedish legal entities

Limited liability companies and other legal entities, except for estates of deceased Swedish individuals, are taxed on all income (including income from the sale of Notes) as income from business activities at a flat rate of 22 per cent. Regarding the calculation of a capital gain or loss and the acquisition cost, see "Taxation of individuals resident in Sweden" above. However, interest income as well as other income derived from the holding of an asset is taxed on an accruals basis.

Capital losses on Notes that are taxed in the same way as shares (see further above) incurred by a corporate holder of a Note may only be offset against taxable capital gains on shares or such notes. Such capital losses may also, under certain circumstances, be deductible against capital gains on shares and Notes that are taxed in the same way as shares within the same group of companies, provided the requirements for group contributions (tax consolidation) are met.

Capital losses on shares and Notes that are taxed in the same way as shares which are not deducted against capital gains within a certain year may be carried forward and offset against taxable capital gains on shares and notes taxed in the same way as shares in the future.

For limited liability companies and economic associations, capital gains on shares and certain share linked rights held for business purposes are tax exempt. Correspondingly, capital losses on shares and share linked rights that are held for business purposes are not deductible. Notes under this offer are not treated as share linked rights held for business purposes. However, a capital loss on the Notes is not

deductible should the underlying assets, directly or indirectly, consist of shares or certain share linked rights held for business purposes.

As mentioned above, there is no stamp duty on the issuing, transfer or redemption of Notes in Sweden.

Swedish implementation of the EU Savings Tax Directive

The EU Savings Tax Directive was implemented in Sweden from 1 July 2005. The amendment in the Directive that was made in 2014 has also been implemented in Sweden and will take effect from 1 January 2017.

The EU Savings Tax Directive applies, amongst other matters, to payments of interest on debt claims of every kind made by a Paying Agent in an EU Member State for the benefit of individual investors resident in the EU.

In circumstances where the EU Savings Tax Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. A paying agent for these purposes is any economic operator who pays interest to, or secures interest for the beneficial owner, and could in relation to the Programme include a broker effecting the sale of the Notes.

3.17 Switzerland

The following is a summary based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in the Notes. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisers as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Notes in light of their particular circumstances.

3.17.1 Stamp taxes

3.17.1.1 Primary Market

Except for actively managed Notes or delta one Notes linked to underlying Funds or ETFs, primary market transactions in the Notes are not subject to Swiss stamp transfer taxes.

3.17.1.2 Secondary Market

Dealings in Notes which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are not subject to the Swiss federal securities turnover tax.

Dealings in Notes which have been issued by an issuer outside of Switzerland and which classify as structured instruments, share-like instruments (including low exercise price options on shares with a maturity exceeding twelve months) or fund-like instruments are subject to Swiss federal securities turnover tax of 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

The delivery of an underlying security at exercise or redemption to the holder of the Notes is subject to Swiss federal securities turnover tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a security issued by a Swiss domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

3.17.2 *Swiss withholding tax*

Payments on a Note are not subject to Swiss federal withholding tax provided that the respective Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

However, attention is drawn to section 3.17.4 below.

3.17.3 *Income taxation*

3.17.3.1 *Non-Swiss resident holders*

A holder of a Note who is not resident in Switzerland and who during the taxation year has not engaged in trade or business carried on through a permanent establishment or a fixed place of business in Switzerland, and who is not subject to income taxation in Switzerland for any other reason, will not be subject to any income tax in Switzerland.

3.17.3.2 *Notes held as private assets by a Swiss resident holder*

Structured derivative financial instruments:

If a Note classifies as a structured derivative financial instrument, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Note classifies as a structured instrument with or without a predominant one-time interest payment:

Non-transparent structured derivative financial instruments:

If the embedded bond is not recorded separately from the embedded derivative financial instrument(s), the Note classifies as non-transparent structured instrument and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "Bonds with a predominant one-time interest payment".

Transparent structured derivative financial instruments without a predominant one-time interest payment:

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment (see below "Transparent structured derivative financial instruments with a predominant one-time interest payment"), then any periodic interest payment and the one-time interest payment are taxed when payable to the holder of the Note. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

Transparent structured derivative financial instruments with a predominant one-time interest payment:

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then any periodic interest payments and, in addition, on the sale or redemption of the Note, the difference between the value of the embedded bond at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted, in each case, into Swiss Francs at the exchange rate prevailing at the time of redemption or sale, issuance or purchase, respectively (modified differential taxation method) constitutes taxable income. A value decrease on the embedded bond respectively realised on the sale or redemption of the Note may be offset against any gains (including periodic interest payments) realised within the same taxation period from all instruments with a predominant one-time interest payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax-deductible private capital loss, respectively.

Bonds without a predominant one-time interest payment:

If a Note classifies as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment), Swiss resident private investors will be taxed on the periodic and on the one-time interest payments, each converted into Swiss Francs at the exchange rate prevailing at the time they become due. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

Bonds with a predominant one-time interest payment:

If a Note classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any gain, including capital and foreign exchange gains, realised on the Notes (differential taxation method).

Pure derivative financial instruments:

A capital gain realised by an individual on the sale or redemption of a Note which classifies as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures with a maximum pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of their private assets constitutes a tax-free private capital gain. A capital loss realised analogously on the sale or redemption of a Note cannot be set off against taxable income. Periodic and one-time dividend equalisation payments on a Note which is a pure derivative financial instrument constitute taxable investment income.

Low Exercise Price Options (LEPOs):

According to the current practice of the Swiss federal tax administration low exercise price options are given if the underlying of a call option has been pre-financed by at least 50 per cent. at the time of issuance. For low exercise price options with a maturity exceeding one year the interest component of the low exercise price option (i.e. issue discount) constitutes taxable investment income. Notes replicating an index or a basket of less than five shares are for Swiss tax purposes regarded as LEPOs.

Fund-like instrument:

A Note classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less attributable costs) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like instrument as part of his private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derived from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss a non-tax-deductible private capital loss. Any gain or loss realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as non-taxable private capital gain or non-tax-deductible private capital loss.

3.17.3.3 *Instruments held as assets of a Swiss business*

Corporate entities and individuals who hold Notes as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Notes (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

3.17.4 **EU Savings Directive**

3.17.4.1 *General*

An interest payment on a Note made by a Swiss depository bank to an individual resident in an EU Member State is subject to the EU savings tax. The tax is withheld at a rate of 35 per cent. on interest payments made, with the option of the individual to have the depository bank and Switzerland to provide to the tax authorities of the EU Member State the details of the interest payments in lieu of the withholding. The individual may be entitled to a tax credit or refund of the withholding, provided that he or she is the beneficial owner of the interest payments and certain other conditions are met.

3.17.4.2 *Bilateral agreements (Quellensteuerabkommen)*

Switzerland has signed agreements on a final withholding tax (*Quellensteuerabkommen*) with the United Kingdom and with Austria. According to these agreements, the Swiss depository bank levies a final withholding tax on any investment income derived from a Note held with such Swiss depository bank, either directly or indirectly, by an individual resident in the a contracting state. The applicable final withholding tax rate may vary depending on the applicable tax rate in the relevant contracting state and the type of realised investment income (dividend, interest, capital gain, etc.). Furthermore, the calculation of the income subject to a final withholding tax may vary depending on the applicable agreement. A person subject to a final withholding tax ("Relevant Person") may avoid such final withholding tax by expressly allowing its Swiss depository bank to report to the foreign tax authorities in the state of residence of the Relevant Person, amongst others, the identity of the Relevant Person and the amount the realised investment income in a certain period.

3.18 **The Netherlands**

3.18.1 *General*

The following summary outlines certain Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes, but does not purport to be a comprehensive description of all Netherlands tax considerations in relation thereto. This summary is intended as general information only for holders of Notes who are residents or deemed residents of the Netherlands for Netherlands tax purposes. Each prospective investor should consult their own professional tax adviser with respect to the tax consequences of the purchase, ownership and disposition of Notes.

This summary is based on current tax legislation, published case law, tax treaties, regulations and published policy, in each case as in force as of the date of this Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- (i) holders of Notes holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in one of the Issuers and holders of Notes of whom a certain related person holds a substantial interest in one of the Issuers. Generally speaking, a substantial interest in one of the Issuers arises if a person, alone or, where such person is an individual, together with his or her partner or (blood) relative in a straight line (statutory defined terms), directly or indirectly, holds or is deemed to hold (i) an interest of 5% or more of the total issued capital of an Issuer or of 5% or more of the issued capital of a certain class of shares of an Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in an Issuer;
- (ii) investment institutions (*fiscale beleggingsinstellingen*); and

- (iii) pension funds, exempt investment institutions (*vrijgestelde fiscale beleggingsinstellingen*) or other entities that are exempt from Netherlands corporate income tax.

Where this summary refers to "the Netherlands" or "Netherlands", it only refers to the part of the Kingdom of the Netherlands that is situated in Europe.

Where this summary refers to a "holder of Notes" or "holder", such reference is restricted to a person holding legal title as well as an economic interest in such Notes.

For the purpose of the Netherlands tax consequences described herein, it is assumed that none of the Issuers is a resident or deemed to be a resident of the Netherlands for Netherlands tax purposes.

3.18.2 Netherlands withholding tax

All payments made by an Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

3.18.3 Netherlands corporate and individual income tax (residents)

If a holder is a resident or deemed to be a resident of the Netherlands for and is subject to Netherlands corporate income tax (*vennootschapsbelasting*), income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are generally taxable in the Netherlands (subject to Netherlands corporate income tax at a rate of 25%; a tax rate of 20% applies to the first € 200,000 of taxable profit).

If a holder is an individual who is a resident or deemed to be a resident of the Netherlands for Netherlands income tax purposes (*inkomstenbelasting*), income derived from the Notes and gains realised upon the redemption, settlement or disposal of the Notes are taxable at progressive rates (up to a maximum rate of 52%) under the Netherlands income tax act 2001 (*Wet inkomstenbelasting 2001*), if:

- (i) the holder is an entrepreneur (*ondernemer*) and has an enterprise to which the Notes are attributable or the holder has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Notes are attributable; or
- (ii) such income or gains qualify as taxable income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*), which include the performance of activities with respect to the Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition 1.1.3(i) nor condition 1.1.3(ii) applies to the holder of the Notes, who is an individual, such holder will not be liable to income tax on the actual income and the actual gains realised on the Notes. Instead, such holder will be taxed at a flat rate of 30% on a deemed return from savings and investments (*sparen en beleggen*). This deemed return from savings and investments amounts to 4% of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year, insofar as the individual's yield basis exceeds a certain threshold (in 2015 this threshold amounts to EUR 21,330 per person per annum). The fair market value of the Notes will be included in the holder's yield basis.

3.18.4 Netherlands corporate and individual income tax (non-residents)

A holder who is not a resident of the Netherlands, nor deemed to be a resident, is not taxable on income derived from the Notes and capital gains realised upon the disposal or redemption of the Notes, provided that:

- (i) such holder does not have an enterprise or an interest in an enterprise which, in whole or in part, is carried on through a permanent establishment, or a deemed permanent establishment or a permanent representative in the Netherlands to which enterprise or part of an enterprise, as the case may be, the Notes are attributable,

- (ii) the Notes are not attributable to the assets of an enterprise that is effectively managed in the Netherlands, with respect to which enterprise, such holder is entitled to a share in its profits, other than by way of securities or if such holder is an individual, pursuant to the terms of an employment contract,

and in addition for individuals only:

- (iii) such holder does not derive income and/or realise capital gains on the Notes that are regarded as taxable income from miscellaneous activities (belastbaar resultaat uit overige werkzaamheden).

3.18.5 Netherlands gift and inheritance tax

No Netherlands gift or inheritance taxes will arise on the transfer of Notes by way of gift by, or on the death of, a holder of Notes who is neither a resident nor deemed to be a resident in the Netherlands, unless:

- (i) in case of a gift of the Notes under a suspensive condition by an individual who at the date of the gift was neither a resident nor deemed to be a resident in the Netherlands, such individual is resident or deemed to be a resident in the Netherlands at the date of (i) the fulfilment of the condition or (ii) his/her death and the condition of the gift is fulfilled after the date of his/her death;
- (ii) in case of a gift of Notes by an individual who at the date of the gift or, in case of a gift under a suspensive condition, at the date of the fulfilment of the condition was neither a resident nor deemed to be a resident in the Netherlands, such individual dies within 180 days after the date of the gift or the fulfilment of the condition, while being a resident or deemed to be a resident in the Netherlands;

and no exemption applies.

For purposes of Netherlands gift and inheritance taxes, among others, a person that holds the Netherlands nationality will be deemed to be a resident in the Netherlands if such person has been resident in the Netherlands at any time during the 10 years preceding the date of the gift or his/her death. Additionally, for purposes of Netherlands gift tax, among others, a person not holding the Netherlands nationality will be deemed to be a resident in the Netherlands if such person has been a resident in the Netherlands at any time during the 12 months preceding the date of the gift. Applicable tax treaties may override deemed residency.

3.18.6 Netherlands value added tax

There is no Netherlands value added tax payable by a holder of Notes on payments in consideration for the issue of the Notes or on the payment of interest or principal under the Notes, or the transfer of the Notes.

3.18.7 Other Netherlands taxes and duties

No Netherlands registration tax, capital tax, transfer tax, stamp duty or other similar documentary taxes or duties will be payable in the Netherlands on the subscription, issue, placement, allotment, delivery or transfer of the Notes, unless the Notes would represent an interest in real estate, or certain rights over such real estate, situated in the Netherlands.

3.19 United Kingdom

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating only to United Kingdom withholding taxes. The United Kingdom tax treatment of prospective Noteholders and investors depends on their individual circumstances and may be subject to change in the future. Prospective

Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

3.19.1 Payment of interest on the Notes

Payments of interest on the Notes may be made by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax where such interest is not regarded as having a United Kingdom source for United Kingdom tax purposes. In the case of interest on Notes which is regarded as having a United Kingdom source such payments of interest may be made by the Issuer without deduction of or withholding on account of United Kingdom income tax in the following circumstances:

- a) where the Notes carry a right to interest and are listed on a "recognised stock exchange", within the meaning of section 1005 of the Income Tax Act 2007. The Luxembourg Stock Exchange is a recognised stock exchange. The Notes will satisfy this requirement if they are officially listed in Luxembourg in accordance with provisions corresponding to those generally applicable in EEA states and are admitted to trading on the Main Market or Euro MTF of the Luxembourg Stock Exchange. Provided, therefore that the Notes remain so listed and admitted to trading, interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax;
- b) where interest on the Notes is paid by a company and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue and Customs (HMRC) has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax;
- c) where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes which has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

The above only applies to payments that constitute interest as that term is understood for UK tax purposes. Certain payments under the notes may instead constitute "annual payments" or "manufactured payments", to which a different analysis will apply. Payments on the Notes that are annual payments may be made without withholding or deduction for or on account of United Kingdom income tax where such payments are not regarded as having a United Kingdom source for United Kingdom tax purposes. Payments on the Notes that are manufactured payments may be made without withholding or deduction for or on account of United Kingdom income tax where the person making the payment is neither resident in the United Kingdom nor makes the payment in the course of a trade carried on in the United Kingdom through a branch or agency.

HMRC has powers, in certain circumstances, to obtain information about: payments derived from securities (whether income or capital); certain payments of interest (including the amount payable on the redemption of a deeply discounted security); and securities transactions.

The persons from whom HMRC can obtain information include: a person who receives (or is entitled to receive) a payment derived from securities; a person who makes such a payment (including a payment received from, or paid on behalf of another person); a person by or through whom interest is paid or credited; a person who effects or is a party to securities transactions (which includes an issue of

securities) on behalf of others; registrars or administrators in respect of securities transactions; and each registered or inscribed holder of securities.

The information HMRC can obtain includes: details of the beneficial owner of securities; details of the person for whom the securities are held, or the person to whom the payment is to be made (and, if more than one, their respective interests); information and documents relating to securities transactions; and, in relation to interest paid or credited on money received or retained in the United Kingdom, the identity of the security under which interest is paid. HMRC is generally not able to obtain information (under its power relating solely to interest) about a payment of interest to (or a receipt for) a person that is not an individual. This limitation does not apply to HMRC's power to obtain information about payments derived from securities.

In certain circumstances the information which HMRC has obtained using these powers may be exchanged with tax authorities in other jurisdictions.

3.20 United States

3.20.1.1 *Foreign Account Tax Compliance Act*

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or **FFI** (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service (**IRS**) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a **Recalcitrant Holder**). The Issuers are classified as FFIs.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Notes that give rise to a dividend equivalent pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, is the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or which are materially modified after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an **IGA**). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Curaçao, France and Luxembourg (the **Relevant IGAs**) based largely on the Model 1 IGA.

If the Issuers are treated as Reporting FIs pursuant to the Relevant IGAs they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make. There can be no assurance, however, that the Issuers will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make. Accordingly, the Issuers and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

While the Notes are cleared through Clearstream, Luxembourg, EUI, Euroclear, Euroclear Finland, Euroclear France, Euroclear Sweden, SIS, Verdipapirsentralen and VP Securities (together, the **Specified Clearing Systems**), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the common depositary or common safekeeper, given that each of the entities in the payment chain between the Issuers and the participants in the Specified Clearing Systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the Specified Clearing Systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

3.20.1.2 *Hiring Incentives to Restore Employment Act*

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the U.S. Internal Revenue Code of 1986 which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). Proposed U.S. Treasury regulations expand the scope of withholding under Section 871(m) beginning 1 January 2016.

While significant aspects of the application of Section 871(m) to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.

3.20.1.3 *U.S. Exempt Securities*

Additional information on United States Taxation specific to U.S. Exempt Securities will be set out in an Offering Circular in connection with the offer and sale of such U.S. Exempt Securities. Prospective investors should read the applicable Offering Circular in conjunction with this Base Prospectus.

3.21 LIECHTENSTEIN

There are no Liechtenstein taxes on the income from the securities withheld at source apart from the case specified below.

Under the Agreement of 7 December 2004 between the European Community and the Principality of Liechtenstein Providing for Measures Equivalent to Those Laid Down in the European Council Directive 2003/48/EC on Taxation of Savings Income in the Form of Interest Payments and the law implementing this agreement, payments of interest or similar income made or ascribed by a paying agent established in Liechtenstein to or for the immediate benefit of an individual beneficial owner resident in an EU Member State will be subject to withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her country of residence. Where withholding tax is applied, it will be levied at a rate of 35 per cent..

SUBSCRIPTION, SALE AND TRANSFER RESTRICTIONS

The Dealers have in a programme agreement dated 26 October 2015 (the **Programme Agreement**, which expression includes the same as it may be updated or supplemented from time to time), agreed with the Issuers and the Guarantor a basis upon which they (or any one of them) may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and in the Terms and Conditions of the Notes above. In the Programme Agreement, the Issuers have jointly and severally agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

The following selling restrictions may be modified by the relevant Issuer and the relevant Purchaser(s) following a change in the relevant law, regulation or directive and in certain other circumstances as may be agreed between the relevant Issuer and the relevant Purchaser(s). Any such modification will be set out in the syndication agreement (if applicable) in respect of the Tranche to which it is related or in a Supplement to this Base Prospectus.

Neither the Issuer nor any other party shall be liable to a holder for any such loss;

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme and each other Purchaser will be required to represent and agree, that it has not offered or sold, and will not offer or sell, any Notes that are subject to the offering or selling under this Base Prospectus as completed by the applicable Final Terms thereto in the Czech Republic through a public offering,—except that it may make a public offering of such Notes in the Czech Republic under exemptions set out in Sections 34(4)(g) and 35(2)(a)-(d) of the Capital Market Act, provided that no such offering will require the Issuer, Dealer or any Purchaser to publish a prospectus (and, where applicable, the final terms) and/or a supplement prospectus in the Czech Republic and, if applicable, in other EEA Member State.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme and each other Purchaser will be required to represent and agree, with the Issuer and each other Dealer and/or Purchaser (as applicable), that it has not taken, and will not take, any action (i) that would result in the Notes (specifically bonds) being deemed to have been issued in the Czech Republic, unless expressly requested by the relevant Issuer, (ii) that would result in the issue of the Notes being classed as "receiving deposits from the public" by the Issuer in the Czech Republic under Act No. 21/1992 Coll., on Banks, as amended (the **Banking Act**), (iii) that would result in the issue of the Notes being considered an intention to manage assets by acquiring funds from the public in the Czech Republic for the purposes of collective investment pursuant to defined investment policy in favour of the investors under the Act No. 240/2013 Coll., on Management Companies and Investment Funds, as amended (the MCIFA), which amongst other things, implements the directive 2011/61/EU, and/or (iv) due and lawful exercise of which requires and/or would require an approval of, permit by, consent of and/or proceeding with an application to, registration with, filing with or notification to the Czech National Bank (the **CNB**) or other Czech and EEA Member State authority in respect of the Notes pursuant to applicable laws of the Czech Republic; except for action(s) consisting in the offer of the Notes in the Czech Republic under the exemptions and conditions set out in Sections 34(4)(g) and 35(2)(a)-(d) of the Capital Market Act or except for action(s) explicitly requested or in advance approved by the Issuer.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme and each other Purchaser will be required to represent and agree, with the Issuer and each other Dealer and/or Purchaser (as applicable), that in respect of the Notes it has complied with and will comply with all applicable laws of the Czech Republic and, in particular, with the Capital Market Act (including rules on provision of investment services in the Czech Republic), the Bonds Act, the MCIFA, the Banking Act and the practice of the CNB or any other competent authority.

Any other person (other than the Issuer, Dealer and/or any Purchaser) that publicly offers or intends to publicly offer the Notes in the Czech Republic may only do so provided that (i) no obligation will arise for the Issuer, Dealer and/or any Purchaser to prepare and/or publish any prospectus (and, if applicable, final terms), a supplement prospectus, and/or to obtain any approval of, permit by or consent of, and/or to proceed with an application to, registration with, filing with and/or notification to the CNB or any other

Czech or EEA Member State authority in respect of the Notes pursuant to applicable laws of the Czech Republic; (ii) such activity would not lead to the issue of the Notes being considered as "receiving deposits from the public" by the Issuer in the Czech Republic under the Banking Act; (iii) such activity would not result in the issue of the Notes being considered an intention to manage assets by acquiring funds from the public in the Czech Republic for the purposes of collective investment pursuant to defined investment policy in favour of the investors under the MCIFA; and (iv) any such other person has complied with and will comply with any and all applicable laws of the Czech Republic, and, in particular, with the Capital Market Act (including rules on provision of investment services in the Czech Republic), the Bonds Act, the MCIFA, the Banking Act and the practice of the CNB or any other competent authority. In case of an offer for which a publication of a prospectus (and, if applicable, final terms) and/or a supplement prospectus is needed, such other person would need to prepare its own prospectus and/or supplement prospectus.

2. CREDIT RATINGS

SG Issuer and SG Option Europe are not rated.

At the date of this Base Prospectus, Société Générale is rated:

"A (high) par DBRS: The DBRS® long-term rating scale provides an opinion on the risk of default on a scale of 'AAA' to 'D'. 'AA' ratings denote superior credit quality. The capacity for payment of financial obligations is considered high. Credit quality differs from 'AAA' only to a small degree. Unlikely to be significantly vulnerable to future events. All rating categories other than 'AAA' and 'D' also contain subcategories "(high)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category.

"A" par Fitch Ratings: An Issuer Default Rating at Fitch Ratings provides an ordinal ranking of issuers, on a scale of 'AAA' to 'D', based on the agency's view of their relative vulnerability to default, rather than a prediction of a specific percentage likelihood of default. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

"A2" par Moody's Investors Services: Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by financial institutions on a scale of 'Aaa' to 'C'. Obligations rated 'A' are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

"A" par Standard and Poor's: A Standard & Poor's issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program. The opinion reflects Standard & Poor's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect

ultimate payment in the event of default. An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

As at the date of this Base Prospectus, each of DBRS Ratings Limited, Moody's France S.A.S., Fitch France S.A.S. and Standard & Poor's Credit Market Services S.A.S. is established in the European Union and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009 (as amended) and is included in the list of registered credit rating agencies published at the website of the European Securities and Markets Authority (www.esma.europa.eu).

II. GENERAL INFORMATION

1. Changes regarding the risk factor relating to the recovery and resolution of credit institutions and investment firms

In Section “Risks Factors”, sub-section 5 “GENERAL, MARKET AND OTHER RISKS”, paragraph 5.1 “Risks related to Notes generally”, the paragraph 5.1.13 “The Bank Recovery and Resolution Directive” on pages 75 to 77 is deleted and replaced with the following:

“5.1.13 The Bank Recovery and Resolution Directive

The Directive 2014/59/EU of the European Parliament and of the Council established an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**).

The implementation of the BRRD in France was made by two main texts of legislative nature. Firstly, the banking law n° 2013-672 dated 26 July 2013 regarding the separation and the regulation of banking activities (*Loi de séparation et de régulation des activités bancaires*) (as modified by the ordonnance dated 20 February 2014 (*Ordonnance portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*)) (the **Banking Law**) had anticipated the implementation of the BRRD. Secondly, Ordinance no. 2015-1024 dated 20 August 2015 (*Ordonnance no 2015-1024 du 20 août 2015 portant diverses dispositions d'adaptation de la législation au droit de l'Union européenne en matière financière*) (the **Ordinance**) published in the Official Journal on 21 August 2015 has introduced various provisions amending and supplementing the Banking Law to adapt French law to European Union legislation regarding financial matters. Many of the provisions contained in the BRRD were already similar in effect to provisions contained in the Banking Law. Decree no. 2015-1160 dated 17 September 2015 and three orders dated 11 September 2015 (*décrets et arrêtés*) implementing provisions of the Ordinance regarding (i) recovery planning, (ii) resolution planning and (iii) criteria to assess the resolvability of an institution or group, have been published on 20 September 2015 to mostly implement the BRRD in France. The ultimate precise changes which will be made by these decree(s) and order(s) remain unknown at this stage.

The impact of the BRRD and its implementing provisions on credit institutions, including the Issuer, is currently unclear but its implementation or the taking of any action under it could materially affect the value of any Notes.

The aim of the BRRD is to provide resolution authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' contributions to bank bail-outs and/or exposure to losses. The powers provided to authorities (the ACPR or the Single Resolution Board if the case may be in France depending on the competent supervisory authority regarding the Single Supervision Mechanism) in the BRRD are divided into three categories: (i) preparatory steps and plans to minimize the risks of potential problems (preparation and prevention); (ii) in the event of incipient problems, powers to arrest a firm's deteriorating situation at an early stage so as to avoid insolvency (early intervention); and (iii) if insolvency of a firm presents a concern as regards the general public interest, a clear means to reorganize or wind down the firm in an orderly fashion while preserving its critical functions and limiting to the maximum extent any exposure of taxpayers to losses.

Moreover, Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and

certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund has established a centralised power of resolution and entrusted to a Single Resolution Board and to the national resolution authorities.

The BRRD currently contains four resolution tools and powers:

- sale of business: enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply;
- bridge institution: enables resolution authorities to transfer all or part of the business of the firm to a "bridge bank" (a public controlled entity holding such business or part of business with a view of reselling it);
- asset separation: enables resolution authorities to transfer impaired or problem assets to a asset management vehicles to allow such assets to be managed and worked out over time; and
- bail-in: gives resolution authorities the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims to equity (the "**general bail-in tool**"), which equity could also be subject to any future write-down by application of the general bail-in tool.

The French *Code monétaire et financier*, as amended by the Ordinance also provides that in exceptional circumstances, where the general bail-in tool is applied, the relevant resolution authority may exclude or partially exclude certain liabilities from the application of the write-down or conversion powers, in particular where: (a) it is not possible to bail-in that liability within a reasonable time; (b) the exclusion is strictly necessary and is proportionate to achieve the continuity of critical functions and core business lines of the institution under resolution; (c) the exclusion is strictly necessary and proportionate to avoid giving rise to widespread contagion, which would severely disrupt the functioning of financial markets, including of financial market infrastructures, in a manner that could cause a serious disturbance to the economy of a Member State or of the Union; or (d) the application of the general bail-in tool to those liabilities would cause a destruction in value such that the losses borne by other creditors would be higher than if those liabilities were excluded from bail-in. Consequently, where the relevant resolution authority decides to exclude or partially exclude an eligible liability or class of eligible liabilities, the level of write down or conversion applied to other eligible liabilities - as the holders of the Notes as the case may be - when not excluded, may be increased to take account of such exclusions. Subsequently, if the losses that would have been borne by those liabilities have not been passed on fully to other creditors, the French "Resolution and Deposits Guarantee Fund" (*Fonds de garantie des dépôts et de résolution*) or any other equivalent arrangement from a Member State, may make a contribution to the institution under resolution, under certain limits, including the requirement that such contribution does not exceed 5% of the global liabilities of such institution to (i) cover any losses which have not been absorbed by eligible liabilities and restore the net asset value of the institution under resolution to zero and/or (ii) purchase shares or other instruments of ownership or capital instruments in the institution under resolution, in order to recapitalise the institution. The last step - if there are losses left - would be an extraordinary public financial support through additional financial stabilisation tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework. An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The provisions of the French *Code monétaire et financier*, as amended by the Ordinance currently apply, except for the general bail-in tool which is to be applied from 1 January 2016. The powers set

out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. In particular, the Notes may be subject to writedown or conversion into equity on any application of the general bail-in tool. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of the holders of the Notes, the price or value of their investment in any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes.

For Member States participating in the Banking Union, the Single Resolution Mechanism fully harmonises the range of available tools but Member States are authorized to introduce additional tools at national level to deal with crises, as long as they are compatible with the resolution objectives and principles set out in the BRRD.

Starting on 1 January 2015, the Single Resolution Board works in close cooperation with the ACPR, in particular in relation to the elaboration of resolution planning, and will assume full resolution powers, on 1 January 2016 provided that the conditions for the transfer of contributions to the Single Resolution Fund are met by that date. It is not yet possible to assess the full impact of the BRRD and the French law provisions implementing the BRRD on the Issuer and there can be no assurance that its implementation or the taking of any actions currently contemplated in it will not adversely affect the rights of holders of Notes, the price or value of their investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.”

II. GENERAL INFORMATION

1. Changes in the Description of Société Générale

In Section “Description of Société Générale”, a paragraph 9.3 “Recent Developments” shall be added to Sub-Section 9 “FINANCIAL INFORMATION CONCERNING SOCIETE GENERALE’S ASSETS AND LIABILITIES, FINANCIAL POSITION AND PROFITS AND LOSSES” on page 982 as follows:

“Societe Generale discloses its prudential capital requirements by the following press release of 22 December 2015:

PRESS RELEASE

Paris, December 22nd 2015

SOCIETE GENERALE DISCLOSES PRUDENTIAL CAPITAL REQUIREMENTS

Under Pillar 2, following the results of the Supervisory Review and Evaluation Process (SREP) performed by the European Central Bank (ECB), Societe Generale is required to meet on a consolidated basis a transitional Common Equity Tier 1 (CET1) ratio of 9.5%¹ as of January 1st 2016. The G-SIB buffer required by the Financial Stability Board (FSB) to be applied on top of this SREP ratio is equal to 0.25% for Societe Generale from January 1st 2016 and will be increased by 0.25% per annum thereafter, ultimately reaching 1% in 2019. The prudential capital requirement of Societe Generale is therefore 9.75% as of January 1st 2016.

As of September 30th 2015, Societe Generale's transitional CET1 ratio on a consolidated basis was equal to 11.1% (pro forma for current earnings, net of dividends), which does not take into account an additional 24 basis points from the disposal of the Group's stake in Amundi in the fourth quarter of 2015. Therefore, Societe Generale's capital position is very solid, with the total deduction of goodwill and deferred tax assets, and a limited benefit from the Danish compromise (around 15 basis points). It is comfortably above the minimum regulatory requirements and as such does not trigger any restriction or limitation in dividend payout, coupons or variable compensation of the relevant staff.

Going forward, the Group will keep up its policy of progressively and steadily strengthening its CET 1 ratio, with the aim of maintaining a 100-150 basis points management buffer above the regulatory requirements resulting from Basel rules.

¹ Including capital conservation buffer

The terms in bold have been added in order to enhance the consistency of the sentence with the dispositions of conditions 5.2 and 5.9:

“Upon redemption of the Notes pursuant to this Condition 5.3, each Noteholder will be entitled to receive an early redemption amount (the **Early Redemption Amount**) determined in accordance with Condition 5.9 **together (if appropriate) with accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the date of redemption.**”

- (ii) In section “Terms and Conditions of the English Law Notes and the Uncertificated Notes”, in the sub-section 5 “REDEMPTION AND PURCHASE”, the condition 5.9 “Early Redemption Amounts”, on pages 261 and 262 is deleted and replaced with the following only in order to correct cross-references and to modify the form of the clause:

“5.9 Early Redemption

For the purpose of Condition 5.2, Condition 5.3 and Condition 8, the Notes will be redeemed at the Early Redemption Amount calculated as follows:

- (1) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
- (2) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount determined and calculated pursuant the provisions of Condition 5.1, at their nominal amount; or
- (3) at the Physical Delivery Amount specified in the applicable Final Terms, in the case of Physical Delivery Notes; or
- (4) in the case of Zero Coupon Notes, at the Amortised Face Amount; or

 - (ii) in case of Italian Certificates only, at an amount determined in good faith and in a commercially reasonable manner by the Calculation Agent to be the fair market value of the Certificates immediately prior (and ignoring the circumstances leading) to such early termination; or

- (6) in the case of Preference Share Linked Notes and Warrant Linked Notes, the Early Redemption Amount will be determined and calculated in accordance with the Additional Terms and Conditions for Preference Share Linked Notes and the Additional Terms and Conditions for Warrant Linked Notes or at an amount specified in the applicable Final Terms, as the case may be.

- the Issuer, who shall be deemed to be able to perform fully its obligations in respect of the Notes; or
- the Guarantor, which shall be deemed to be able to perform fully its obligations in respect of the Guarantee.

In respect of Notes bearing interest, notwithstanding the last sentence of Condition 5.2.1 and 5.3, the tenth line of Condition 5.2.2 and the first paragraph of Condition 8, the Early Redemption Amount, as determined by the Calculation Agent in accordance with this paragraph shall include any accrued interest to (but excluding or, in respect of Uncertificated Swedish Notes, and including) the relevant early redemption date and apart from any such interest included in the Early Redemption Amount, no interest, accrued or otherwise, or any other amount whatsoever will be payable by the Issuer or, as the case may be, the Guarantor in respect of such redemption. Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of the Day Count Fraction, if applicable, as specified in the applicable Final Terms.”
